Please enter the amount requested.

Character Limit: 200

3. Subcontracting *

Do you plan to subcontract any of the proposed program/project/service? If yes, to whom, and what will they do specifically? Also, please provide the sub-contracting rates for those providers.

Character Limit: 1000

Character Limit: 1000

5. Does your organization keep a record of residents who request service but are unable to be accommodated?*

6. If you were to be funded at your request amount, what would be your Net Service Cost?*

Note: HCCBG funds require a local match by the provider (note a match is not required for Supplemental Aging Services Funds). *Any block grant eligible service that is selected will first be allocated to the block grant funding. The allocations committee will make all recommendations regarding which funds to be used for which service. "Required Local Match must be computed on the basis of 10 percent of the Net Service Cost. Service providers will divide the amount of Block Grant Funding by 90 percent to determine the Net Service Cost. The difference between the Block Grant Funding amount and the Net Service Cost is the amount of Required Local Match."*

Example: Block Grant Funding for In-Home Aide Level II

Allocated Amount \$50,000 divided by 90% = \$55,556 Net Service Cost

Net Service Cost of \$55,556 minus the Allocated Amount of \$50,000 = the Required Local Match of \$5,556.

Note: Net Service Cost is Funded Amount divided by 90 percent.

Character Limit: 100

7. Based on the information above, what would be your required local match?

And what is your match (cash, in-kind or combination)*

(Note: reported cash or in-kind match cannot be sourced from another federal or state grant unless that grant expressly allows those funds to be used as matching funds for another grant).

Character Limit: 1000

8. Define the unit of service used for billing as well as the cost per unit (e.g., hour, day, trip, etc.).*

(Note: a unit of service should include all the costs to run the program (i.e. the unit rate should include staff time, any administrative costs, etc. and all expenses should roll into the overall unit rate).

For example:

- Meal program:
 - Per meal cost is X, staffing time per meal is Y, and transportation per unit is Z
 - **X+Y+Z=total cost per unit**

(Note: If the service is something other than unit based, please describe the service and, if funded, how the service will be billed for reimbursement purposes (e.g., by person served, by family served, or billing of staff time, etc.).

Character Limit: 1000

Addendum

If applying for In-Home Aide, please complete the following.

As of July 1, 2022 Buncombe County will no longer allocate funds for Level III or Level IV In-Home Aide services with one exception: clients currently receiving Level III services. Those clients currently served by Level III services as of June 30, 2022 can continue to receive Level III services up to 15 hours per week and hours should not be increased for clients in Level III if they are receiving less than the 15 hour maximum. No additional clients will be added for Level III services on/after July 1, 2022.

In addition, there will be a cap on all hours provided to clients receiving Level I and Level II

services. The hours listed below are the maximum allowable hours per service level:

Service Level 1 - Maximum 6 hours per week

Service Level 2 - Maximum 9 hours per week

Service Level 3 - Maximum 15 hours per week (only available to clients on the contract as of 6/30/22)

Note: When determining the unit rate, providers are expected to include all costs associated with providing the service. Many clients live in downtown Asheville and aides may need to park in pay lots, parking garages or hourly spaces. Providers are expected to have that cost accounted for in the unit rate. Please note that a unit is defined as 1 hour of service. Please complete the following questions:

1. What is your unit rate per service level?

Please see the note above regarding what should be included in your unit rate. Also, while it is ultimately up to the provider to decide on the unit rates including pay to aides and other staff, we believe it is important to share the unit rate Buncombe County pays for our in-house social services block grant program that supports our internal in-home aide program (\$33.00/hour of which \$17.00 goes to non-certified aides and \$18.00 to certified aides).

Character Limit: 500

2. How will you determine the number of hours that a client needs within the capped hours listed above?

Character Limit: 1000

3. Do you pay your aides mileage?

If so, how much and how is it calculated (i.e. from client to client, or aides home to clients home, etc.)?

Character Limit: 500

4. Are aides paid for their driving time to and from client's homes?

Choices

No

5. Do you pay for parking for your aides?

6. What is your hiring range for aides?
