

LUNA ROUND

CJC SYSTEMS

ABOUT

Switch panel KNX with rotary push button

WIRING

KNX bus cable

POWER SUPPLY

30v dc, 5mA

ASSEMBLY AND INSTALLATION

Only suitable for round flush-mounted boxes for concrete walls & round flush-mounted boxes without ridges for plasterboard walls.

The curved multiple combination plate is installed with a new flush-mounted box each time, with center distance of 71mm.

In any case, when removing the plate for disassembly, proceed with great care. Gently press behind the plate to release it, ensuring that no damage occurs.

**Our included screws must be used during installation.
The walls must also be perfectly flat.**

ENGRAVING

Our plates are fully engravable according to your wishes, all kinds of fonts & symbols are possible.

CARE AND MAINTENANCE

Please do not clean our products with aggressive cleaning agents or alcohol-based products. These can damage the exclusive finish and materials used.

To maintain the quality and appearance, we recommend using only mild cleaning applications. Do not place any type of tape on the bronze finishes this can damage the varnish layer.

FINISH CODE

To complete your order code, add the code of your chosen finish to the product code. For example: CJCR5601V

FEATURES

The KNX rotary button offers a versatile range of features for various functions: push buttons: for varied lighting management, scene calling/memorization, scene dimming, circadian lighting management, on/off control, and volume control for an audio zone.
