

NINA ROUND

CJC SYSTEMS

NINA ROUND

CJC SYSTEMS

ABOUT

switch panel 24v-230v without lever

WIRING

Traditional or low voltage cable

POWER SUPPLY

230v ac (6A) or low voltage ac/dc

ASSEMBLY AND INSTALLATION

Our included screws must be used.

Only suitable for round flush-mounted boxes for concrete walls & round flush-mounted boxes without ridges for plasterboard walls. The walls must also be perfectly flat.

The curved multiple combination plate is installed with a new flush-mounted box each time, with center distance of 71mm.

In any case, when removing the plate for disassembly, proceed with great care. Gently press behind the plate to release it, ensuring that no damage occurs.

BUTTONS AND LEVERS

Levers are separate.

Can be combined with Xuxa/Irina buttons.

ENGRAVING

Our plates are fully engravable according to your wishes, all kinds of fonts & symbols are possible.

CARE AND MAINTENANCE

Please do not clean our products with aggressive cleaning agents or alcohol-based products. These can damage the exclusive finish and materials used.

To maintain the quality and appearance, we recommend using only mild cleaning applications. Do not place any type of tape on the bronze finishes this can damage the varnish layer.

FINISH CODE

To complete your order code, add the code of your chosen finish to the product code. For example: CJCR5001V
