

**Clemson University Athletics Department**  
**Post-semester Travel Home**

---

Sports may provide round-trip transportation for their student-athletes to return home after the semester (Fall and Spring), not including between summer terms, provided the following guidelines are met and the trip is pre-approved by the head coach and sport supervisor. Student-athletes must submit the Holiday Travel Declaration Form to Compliance Services for review.

1. The trip must occur between competitions (regular or post-season).
2. The trip cannot interfere with existing practice plans.
3. This only applies at the end of the fall and spring academic semesters. No trips home will be provided for spring break, fall break, Thanksgiving, etc.
4. The sport must pay for the travel expenses from their existing budget. Additional funds will not be provided to cover these costs.
5. CUAD will provide the lesser of mileage or a flight home, neither of which can exceed \$1,000. If a flight is provided, it is the coach's decision as to whether or not mileage to the airport will be provided.
6. The student-athlete must be going to see a family member as defined by NCAA legislation.
7. Flights must be purchased through Anthony Travel (exceptions will be handled on a case-by-case basis).
8. All other applicable NCAA, ACC, institutional, and departmental rules must be followed.

The rules above apply to student-athletes (scholarship and walk-ons) only. Coaches and staff are responsible for their own transportation.
