COACHES QUOTES

COACH TOMMY WEST OF CLEMSON: This football team did what it had to do to win the ball game...they won the turnover battle, they stopped the run, they won the kicking game and they gained when they had to with the rush.

Our defensive coaches had a good game plan and we swarmed the ball and I thought dominated the second half. We went to the option more in the second half, using about three plays with it and got some good yardage. The ~~big~~ play that Raymond (Priester) made on our last possession was about as great an effort as I've ever seen. We needed a ~~first~~ first down to keep possession and we got it.

We did some good things. This team has been dealt a few (bad) things this year but I'm proud of ~~them~~ them showing what they're made of.

Our defense had to do a good job to stop (Tiki) Barber, because you don't want him to get in the secondary where he can get going...and he can really hurt you then.

I can't give enough credit to (Kelton) Dunnican who came in when Emory (Smith) could not go because of his hurt shoulder. ~~I~~ But Kelton ~~xxxxxx~~ stepped up and really put an exclamation point for our offense.

And we had to do that...the offensive line, the defensive team...all had to do their part because Virginia would not go away. Coach Welsh had to do an outstanding job with this team, not only this year, but in his time here. We are happy with the results here today. I think there is a bond ~~xxxxxxx~~- starting to happen for this team.

VIRGINIA COACH GEORGE WELSH: The way we were today we weren't going to win that game. We got whipped on both sides of the ball. That's the worst performance I can remember since 1993.

If we had played better we could have overcome the turnovers. The reason we had the turnovers was because we played lousy.

(On Tim Sherman) He did a good job scrambling. We didn't give him enough time.

Yards don't count. We have to get better, execute, and score touchdowns in the red zone.

Field position was bad for us. When we had the wind we couldn't stop them.
