at Dudley Field, Oct. 29, 1960

STATEMENT OF COACH FRANK HOWARD OF CLEMSON

"I thought we had a good football game but again a few mistakes hurt us. We played all right, but we just didn't stop these passes."

In commenting on Vandy's ~~winning~~^{second} touchdown drive Howard said he thought a ~~great~~^{pass} the crucial play was a sensational/catch when Vanderbilt had a fourth and eighth situation at the Clemson 41. He was referring to the Lesesne to Starling pass that covered 19 yards to the Clemson 22. Howard said Starling "made a helluva catch on the play."

When quizzed about this game and the Duke game last Saturday which Clemson lost 21-6, Howard ~~ix~~ said he thought today's game was a lot more exciting and "I believe we played better today than last week."

"Vanderbilt has a lot of team speed," Howard commented, "and that hurt us several times when it looked like we were going to get the ball carrier!"

"I don't feel too bad about our play but it sure is rough to keep on losing these close ones." Clemson has now lost three straight by a total of 19 points after winning three straight at the start of the season. Maryland beat Clemson 19-17, Duke 21-6 and Vanderbilt, 22-20.

Coach Art Guepe's Statement:

"It was a whale of a ball game. The football fans who stayed at home ~~xxxx~~ really missed something.

"Our young men made ~~xxxxxxx~~ the kind of comeback that stamps them as a real team. Clemson is a very powerful team, a team which is dangerous in every respect, but the Commodores fought them right down the line and earned their victory.

"Our quarterbacks were fine. Merris and Lesesne ran the ~~xxxx~~^{offense} with confidence, and they moved the ball against a strong defensive team.

"The turning point of the game, in my opinion, was the pass ~~play~~ off the fake quick kick (Lesesne to Dye for 44 yds). Starling made a great clutch catch, and so did Johnson and Nay in that final drive. Binley led a great effort in the line, and in that final minute Merris was a life saver. I'm proud of them all."
