STATEMENT BY COACH FRANK HOWARD OF CLEMSON

It's an altogether different prospective when you win. We played the same kind of pass defense in this game as we have the past two weeks, we were just reacting a little ~~to~~ better today. one thing that made our pass defense look a little better was our line rushing the passer. That's about the best pass defense you can have.

howard was ~~asked~~ asked why he used his third unit so early and he said mainly to give the other two units a rest. I thought ~~we~~ we might need it in the fourth period. there are some pretty good ball players on that third unit, but we just haven't given them a chance to play and the only way they'll know what ~~it's~~ it's all about is to get in there and play.

one thing i regret is that we made all of our mistakes ~~at~~ last week. i just wish we could have played this good ~~against~~ against nugent. i think hickey is one of the nicest people in the coaching business.

this ~~is~~ is probably the finest--not the ~~best~~ best--team i've ever had. they work together, play together good and just do what you tell them to do. it's really a pleasure to coach them.

one thing nice about today, i don't have to ~~explain~~ explain anything about the pass defense or fumbles. it's better to win than to lose anytime.

COACH HICKEY'S STATEMENT

We simply were beaten by a good football team. I have no alibis and no excuses. We couldn't do anything right, however. Our pass defense was weak and we couldn't move the ball.

I didn't think that Clemson would throw onus that easily, but that Barnes is a fine receiver. He caught it all over the field. I thought our safety man played the second touchdown pass very poorly. He permitted Barnes to catch it right in front of him and score.

We never could get out of our territory so that we could do anything. Then when we did get the opportunity when we were down 14-0 in the third period, the interception hurt. Farris said that someone tipped that ball just as he threw it.

Our biggest problem today was that we couldn't get a pass rush.

But we are a better football team than we played today showed today. We will come back. There is little I can say. We just need to get down to work.

I thought that we could run better than we did, and also thought we might pass against Clemson which had been having some pass defense trouble of their own. But they played good pass defense today.

STATEMENT BY COACH FRANK HOWARD OF CLEMSON

It's an altogether different prospective when you win. We played the same kind of pass defense in this game as we have the past two weeks, we were just reacting a little ~~to~~ better today. one thing that made our pass defense look a little better was our line rushing the passer. That's about the best pass defense you can have.

howard was ~~asked~~ asked why he used his third unit so early and he said mainly to give the other two units a rest. I thought ~~we~~ we might need it in the fourth period. there are some pretty good ball players on that third unit, but we just haven't given them a chance to play and the only way they'll know what ~~it's~~ it's all about is to get in there and play.

one thing i regret is that we made all of our mistakes ~~in~~ last week. i just wish we could have played this good ~~against~~ against nugent. i think hickey is one of the nicest people in the coaching business.

this ~~is~~ is probably the finest--not the ~~best~~ best--team i've ever had. they work together, play together good and just do what you tell them to do. it's really a pleasure to coach them.

one thing nice about today, i don't have to ~~explain~~ explain anything about the pass defense or fumbles. it's better to win than to lose anytime.

COACH HICKEY'S STATEMENT

We simply were beaten by a good football team. I have no alibis and no excuses. We couldn't do anything right, however. Our pass defense was weak and we couldn't move the ball.

I didn't think that Clemson would throw onus that easily, but that Barnes is a fine receiver. He caught it all over the field. I thought our safety man played the second touchdown pass very poorly. He permitted Barnes to catch it right in front of him and score.

We never could get out of our territory so that we could do anything. Then when we did get the opportunity when we were down 14-0 in the third period, the interception hurt. Farris said that someone tipped that ball just as he threw it.

Our biggest problem today was that we couldn't get a pass rush.

But we are a better football team than we played today showed today. We will come back. There is little I can say. We just need to get down to work.

I thought that we could run better than we did, and also thought we might pass against Clemson which had been having some pass defense trouble of their own. But they played good pass defense today.
