MADE IN UK

Ocean Safety,  
Saxon Wharf,  
Lower York Street,  
Southampton,  
SO14 5QF, UK.

The K2 twin chamber is one of the largest buoyancies available offering exceptional in water performance and is approved to meet the daily demands of the global shipping and offshore markets.

The 308N buoyancy is one of the highest in its class ensuring speedy self-righting even in the most arduous of conditions.

With a tailored neck the K2 offers high comfort and additional head support in the water. The K2 is fitted as standard with the AQ40 light which boasts forty hours of functionality, five times the industry standard as well as being five times brighter than its competitors.
