

JON BUOY DANBUOY

GLO LITE

OCEAN SAFETY®

Ocean Safety,
Saxon Wharf,
Lower York Street,
Southampton,
SO14 5QF, UK.

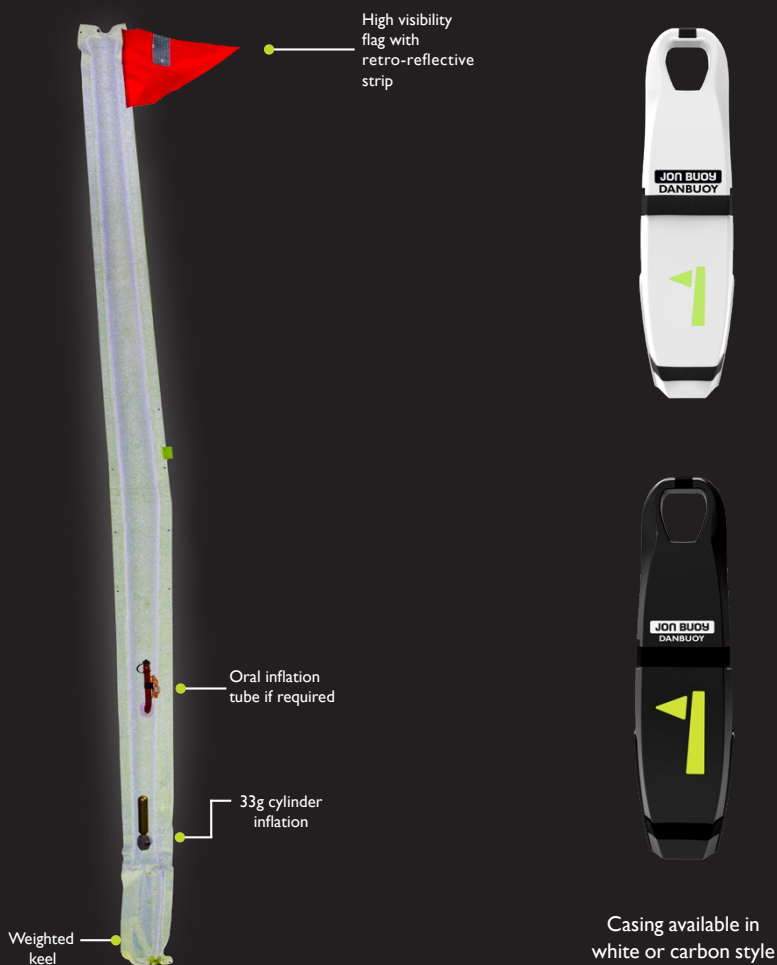

www.oceansafety.com

The inflatable Jon Buoy Danbuoy is stylish, compact and weighs only 3.3kg. It can be mounted on the pushpit and is easily deployed in an emergency. In the event of a man overboard, simply unclip the unit from its mounting bracket and deploy; the danbuoy then automatically inflates. It replaces the traditional danbuoy, light, drogue and whistle.

The Danbuoy hard case, offers a more ergonomic and streamline design for improved deployment and manoeuvrability.

New for 2020, the Jon Buoy range will be further extended to incorporate the inclusion of Glo Lite technology.

Glo Lite uses innovative retro-reflective technology that significantly enhances the visibility of the hi-vis fabric, making it highly reflective and increases perception during dark conditions, thus aiding location, leading to reduced casualty time before recovery for a more positive rescue outcome.

KEY FEATURES

- Glo Lite fabric technology
- Meets requirements of World Sailing Regulations
- Compact
- Quick and easy to deploy
- Highly visible
- Easily repacked
- Lightweight
- Automatic inflation
- 33g cylinder inflation
- Automatic light

CASE FEATURES

- Moulded handle
- Universal bracket
- Fits rails up to 30mm in diameter
- Available in white or carbon effect
