

WORKSHOPS

01

SCIENCE LAB

The students will explore by using the science laboratory to experiment with physical phenomena, thus fostering the development of their scientific thinking.

02

ARTS LAB

By using a variety of colors, as well as different materials and textures, the students will conduct artistic experiments.

03

PSYCHOMOTOR SKILLS

The students have access to a fully equipped room, aimed at motor development and mobility, facilitating the creation of various circuits to strengthen these skills.

04

MUSIC

Awakening a passion for music from the cradle, our workshop stimulates auditory development and creativity through entertaining rhythms and melodies.

05

PLAY BY AREAS

Inspiring imagination and exploration, we offer a creative and safe space to discover and learn through play.

What We Offer ?

01

LEARNINGS

Good habits, values, and social skills. Languages: verbal (English, Spanish, and Catalan), physical (psychomotricity), mathematical, and artistic (plastic-sensory activities).

Exploration of the environment (educational outings and work projects).

02

FACILITIES

Spacious classrooms with natural lighting, adapted/protected and air-conditioned. Outdoor spaces with green areas.

Adapted swimming pool with salt water.

Large auditorium for various activities with families and children.

Large dining hall. Space enabled for leaving strollers.

Sleeping room.

Internal security cameras.

Nursing station with Automated External Defibrillator.

03

HOMEMADE AND HEALTHY FOOD

Our preschool has its own kitchen, which uses fresh regional products to ensure healthy meals for our students.

Mini Explorers (English & Science)

Invest
in their future

Little Explorers, A good starting point for life.

The primary goal of this stage is to inspire our students to be happy little explorers. Adapting to this exciting journey of discovery at the start of each school year is key to achieving this.

Our teaching team actively engages in designing exploration and linguistic experimentation activities, which will encourage the youngest to develop their potential in a safe and adventurous environment. Daily experimentation routines take advantage of everyday situations to introduce English learning in a natural setting.

To achieve this, we have ideal facilities to promote exploration and meet all the educational needs of this stage.

Timetable

From 9:00 to 12:30 hs.
Includes morning snack.

From 9:00 to 15:30 hs.
Includes morning snack and lunch.

From 9:00 to 16:30 hs.
