

# Getting Started with Gemini Enterprise

Cloud Hero game introduces you to Gemini Enterprise, a powerful platform that leverages Gemini's advanced reasoning to connect enterprise data and empower employees. You will gain hands-on experience deploying Gemini Enterprise applications and integrating them with diverse data sources such as Google Drive, Cloud Storage, and Google Calendar. You'll then explore its core capabilities, including using the general AI assistant for efficient information discovery and summarization.

**DURATION**

4.5 hours

**LEVEL**

100 - Introductory

**FORMAT**

Instructor-led

## What you'll learn

|                        |                                                                                                                                                                                                                                                                                       |
