

Infra Skills 2

Dive deeper into the Google Cloud Console to manage virtual machines. This action-packed game equips you to create Windows VMs, navigate Cloud Shell, and wield the gcloud command-line tool. Sharpen your skills by setting up network and HTTP(S) load balancers to distribute traffic effectively across your applications.

**DURATION**

3 hours

**LEVEL**

100 - Introductory

**FORMAT**

Instructor-led

What you'll learn

Overview	4 modules
Who this course is for	Someone who just completed Cloud Hero: Infra Skills
Products	- Google Kubernetes Engine - Advanced Networking - Cloud VPN - Application Load Balancer - Cloud Workstations - Advanced Compute Images - Cloud Shell - Compute Engine
Prerequisites	Familiarity with standard Linux text editors such as vim, emacs, or nano will be helpful.

Module 01 [A Tour of Google Cloud Hands-on Labs](#)
