

Looker Skills

This hands-on experience equips you to explore and analyze data using interactive Explores. Craft compelling visualizations, filter and sort data for deeper insights, and leverage Looker functions for advanced data manipulation. Learn to merge results from multiple Explores for comprehensive analysis. Emerge as a Looker pro, unlocking the power of data for informed decision-making.

**DURATION**

3.5 hours

**LEVEL**

100 - Introductory

**FORMAT**

Instructor-led

What you'll learn

Overview	4 modules
Who this course is for	Someone brand new to Looker
Products	- Looker - Looker Modeler - Firebase Studio - Memorystore for Redis OSS - Cloud Firestore - Cloud Memorystore
Prerequisites	Basic knowledge of SQL will be helpful but not mandatory

Module 01 [Looker Data Explorer - Qwik Start](#)
