

Security Command Center Enterprise - Essentials

This course provides a comprehensive overview of Google Cloud Security Command Center (SCC) Enterprise, a Cloud-Native Application Protection Platform (CNAPP) solution that helps organizations prevent, detect, and respond to threats across Google Cloud services. You will learn about core SCC Enterprise features, including enhanced threat detection, in-depth vulnerability management, and integrated case management. Fundamental concepts in threat management and vulnerability assessment will also be covered, along with practical demonstrations of how to use SCC Enterprise to identify, investigate, and remediate security risks within your cloud environment.

**DURATION**

2-3 hours

**LEVEL**

200 - Intermediate

**FORMAT**

Instructor-led

**SCALABLE**

1-50, scaled to 1000

What you'll learn

- Understand the core concepts and benefits of SCC Enterprise.
- Explore SCC Enterprise's vulnerability management features.
- Leverage SCC Enterprise's threat detection features.
- Manage security risks and posture in a multi-cloud environment using SCC Enterprise.

Overview	3 modules
Who this course is for	• Security professionals needing to learn about Google Cloud Security Command Center (SCC) Enterprise
Products	• Security Command Center Enterprise
Prerequisites	• Baseline experience with cloud infrastructure and security, as well as familiarity with the Google Cloud Console is recommended.

Module 01 Introduction to Security Command Center Enterprise

- | | |
|------------|--|
| Objectives | <ul style="list-style-type: none">• Explore SCC Enterprise's core functionality.• Explore SCC Enterprise's additional features.• Improve your multi-cloud security vocabulary.• Identify Security Command Center (SCC) options. |
|------------|--|

Module 02 SCC Enterprise Vulnerability Management Features

- | | |
|------------|--|
| Objectives | <ul style="list-style-type: none">• Vulnerability management fundamentals.• Exploration of risk assessment features.• Exploration of posture management features.• Risk management in a multi-cloud environment.• View a vulnerability analysis walkthrough. |
|------------|--|

Module 03 SCC Enterprise Threat Detection Features

- | | |
|------------|--|
| Objectives | <ul style="list-style-type: none">• Fundamentals of threat detection.• Detect and investigate cloud threat activity.• Walkthrough: Working with threats. |
