SARS-CoV-2 PCR Testing and for Canadian and US Citizens

1/28/21

Recently, the Governments of Canada and the United States of America announced new measures to deal with Covid-19 due to the increase in the number of cases, which are in addition to those established since the beginning of the pandemic.

It was announced that air travelers entering Canada must have a **NEGATIVE COVID-19 PCR TEST** and travelers entering the United States of America must have a **NEGATIVE COVID-19 PCR test or NEGATIVE ANTIGEN TEST** within a period of 72 hours before boarding the plane. This measure - which has been enforced for Canada for several months and will come into effect as of Tuesday, January 26 for the United States of America - includes all air passengers from the age of five and over, whether they are citizens of those countries or not.

Faced with this situation, we consider it very important to offer alternatives to our visitors, so our resort has made the necessary arrangements with the Saint Lukes Hospital, which will be able to offer the service directly at the resort facilities with a special rate for citizens. Canadians and Americans from:

- Antigen Test \$ 55.00 USD tax included or \$ 999.00 MXN Tax Included per person (Delivery of results in a period of 4 to 6 hours after the test has been performed)
- PCR test \$ 200.00 USD tax included or \$ 3,950.00 MXN Tax Included per person (Delivery of results in a period of 36 to 48 hours after the test has been performed)

In the event that a guest results in a POSITIVE to either of the two tests, our resort has prepared specific protocols:

- a) In the event that the guest decides to stay in the facilities, a special rate of \$ 65.00 USD per person per night will be granted during the regulatory quarantine period.
- b) The guest will be accommodated in a room in the area assigned for it, having access to a food delivery service which complies with all safety and hygiene measures according to the internationally established protocols.

In order to take the test guests must present their passport as Official identification and have a plane ticket to travel in a next period no longer than 72 hours. Likewise, guests can schedule their appointment for the TEST at the time of check in.

Kind Regards.

Arturo Garcia
