OFFICIAL STATEMENT IMPRESSIVE PUNTA CANA FOR COVID-19 TEST

At Impressive Punta Cana, safety and comfort of our guests is our first priority. Through our **IM-SECURE** program, we are fully committed to strict compliance to our standards and protocols in terms of health, hygiene, safety and wellness.

We have been advised of new measures for COVID-19 prevention and control that currently apply to various destinations: the authorities are now stipulating that all passengers arriving by plane from abroad must be tested for COVID-19 at least 72 hours before take-off for the return flight to their own country and must produce a valid certificate of their negative result.

We are providing the following information to assist our guests in arranging for a test to comply with the new requirements:

Medical Centers, Types of Test, Cost and Timescale for the Delivery of Results

Impressive Punta Cana will inform all guests who require it about the authorized medical centers which can conduct Antigen and PCR tests to detect COVID-19 and issue the appropriate certificate as quickly as possible.

Firstly, Impressive Punta Cana will facilitate the contact with a medical center where both kinds of tests can be carried out by properly qualified staff on the hotel's own premises. The estimated cost of an **Antigen test is 30 USD per person**, and the result will be available within approximately 30 minutes. **The estimated cost of a PCR test is 125 USD per person, and the result will be available within approximately 24 hours.** In either case, once the result is obtained, the valid certificate will be issued directly to the guest by the medical center and can be in Spanish, French or English.

Alternatively, guests have the option to undergo the PCR test in a similarly authorized medical center located 10 minutes away from the Impressive Punta Cana. In this case, **the approximate cost will be 80 USD, and the waiting period for results will be between 24 and 72 hours.**

Impressive Punta Cana staff will coordinate with guests and the relevant medical center to make the tests available and minimize waiting times. We would like to state that Impressive Punta Cana makes no charge, nor does receive any income for managing the logistics of these tests.

If a guest receives a positive test while on property that prevents a scheduled departure date, Impressive Punta Cana will offer a special rate for the guest plus one companion sharing the same room.

Disclaimer

Guests are advised that this is a service provided by a third party authorized to conduct COVID-19 tests, and therefore this service must be considered as an agreement between the guest and the third-party provider. Impressive Punta Cana will not accept any responsibility in relation to, or deriving from, the use by our guest of the service offered by the said third party, as such service does not form part of the services offered by our hotel.

Our only interest is to enable our guests to obtain COVID-19 tests, in line with the conditions requested by the governments of various countries before guests returning to their country of origin. Use of this service is entirely the choice of the guest, who will always have the option to take the test at another medical center or laboratory of their choice.

Impressive Punta Cana will inform guests as quickly as possible of any changes that may arise in respect of the services available to guests, as described in this notice.

We will therefore continue to constantly monitor all procedures and restrictions applying to international flights in the coming weeks, in order to provide our guests with up-to-date information from the authorities. We will also cooperate with the authorities to ensure compliance with their requirements.

Kind regards

Impressive Punta Cana
