Riu Hotels & Resorts
Complimentary Covid-19 Antigen Test

Dear Valued Partner:

On January 12, 2021, the Center for Disease Control and Prevention (CDC) expanded the requirements for a negative COVID-19 test to all air passengers entering the United States.

In addition to our safety measures already in place, and effective January 26th, our guests will now be able to take the COVID-19 antigen test on site, before returning to the U.S. at no additional cost for all adults and children.

Test results will be received within 72 hours prior to departure as required by the CDC, in written and/or electronic format. Guests should contact the Front desk/Customer Service at each resort upon arrival to schedule departure testing.

This policy is valid until the regulations regarding this new requirement change.

In the unlikely event that a guest has been tested positive to COVID-19 during their stay, Riu Hotels will provide an extension at no cost of up to 10 days in all destinations listed in the grid below with the exception of Aruba due to the Department of Public Health's protocol. Extended stay due to quarantine includes the guest plus travel companions sharing the same room.

This information was valid on the date this policy was published and is subject to change.

When an additional test is required, the cost will need to be covered by the guest. Please see cost for a second antigen test as well as the PCR test in each destination below:

	Area	Antigen testing Available on-site (Yes/No)	Results delivery time	Cost for second Antigen testing	PCR testing Available on-site (Yes/No)	Results delivery time	Cost for PCR testing
