

**Complimentary COVID-19 Antigen Tests
at BlueBay Grand Esmeralda & Blue Diamond Luxury Boutique Hotel**

For BlueBay Resorts, the safety, tranquility and well-being of our guests are our top priority. That is why, in line with the new measures required by the Centers for Disease Control and Prevention (CDC), we are proud to announce that the corresponding tests will be provided in the comfort of our facilities to all our guests from USA in order to have a healthy return to their homes.

Under the new requirements of the CDC, beginning January 22nd, 2021 BlueBay Grand Esmeralda & Blue Diamond Luxury Boutique Hotel will have the Antigen tests available free of charge for all our US guests (adults & children) with a return flight to home starting on January 26th*. In case that a guest would like to take the PCR test as an additional option or instead of the Antigen test, it will have an extra charge and this will be performed off site.

Medical testing services will be provided by third-party accredited medical testing laboratory. Results will be provided same day of the test.

Guests need to make reservations for their tests. The Hotel Concierge Team will coordinate with guests to accommodate the appointments and confirm them the time. Guests must take into consideration that CDC requires the test to be taken no more than 72 hours prior to the scheduled departure.

The use of this service is at the discretion of the guest, always having the last word, being able to carry out the test in another laboratory (at their own expense) if they wish.

We appreciate your preference.

Stay Safe,
BLUEBAY HOTELS

**Terms & conditions apply*

In order to qualify for free Antigen tests, BlueBay Grand Esmeralda requires 4 nights minimum stay & Blue Diamond Luxury Boutique Hotel requires 2 nights minimum stay.
