II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB2320 enacts evidence-based public policy solutions to address the public health harms associated with high THC products.

Per Section 6 the governor may seek government-to-government consultations with federally recognized Indian tribes regarding raising the minimum legal age of sale of cannabis products identified in RCW 69.50.357(1)(c), in compacts entered into under RCW 43.06.490. The office of the governor shall report to the appropriate committees of the legislature regarding the status of such consultations by December 1, 2025.

The Governor delegated authority to the Washington State Liquor and Cannabis Board for cannabis compacts with the tribes and assume they would implement the requirements in section 6. Based on those consultations, the Office of the Governor would provide a status report to the legislature. The Office estimates this work can be accomplished within current resources and therefore doesn't have a fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

House Bill 2320 seeks to reduce public health harms associated with high TCH cannabis products.

Section 6 of the legislation suggests the government-to-government consultation with federally recognized Indian tribes. The Governor's Office of Indian Affairs (GOIA) would play a role in coordinating and facilitating consultations with tribal governments.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

It's difficult to exactly properly calculate the fiscal impact of this legislation without knowing the extent and reach of the consultations but based on similar activities in the past the costs for travel and meeting expenses could reach as high as \$20,000 in Fiscal Year 25.

Meetings with Tribal authorities are still commonly in-person events bringing together a wide array of stakeholders. This means travel expenditures for agency employees, rental fees for meeting spaces, and costs for meals & refreshments. As many as 4 such consultation meetings could be held throughout the state with cost for each averaging \$5000.

4 Consultations x \$5000 = \$20,000

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 4(1)(iii)(c): Retail outlets may not sell a cannabis product with a THC concentration greater than 35 percent to a person who is under age 25 who is not a qualifying patient or designated provider.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Section 4(1)(iii)(c): Retail outlets may not sell a cannabis product with a THC concentration greater than 35 percent to a person who is under age 25 who is not a qualifying patient or designated provider.

It is unknown if the under-25 demographic would buy less cannabis product, or shift their buying habits to other cannabis product with a THC concentration less than 35 percent, which could be cheaper or more expensive than the products they would no longer be able to buy.

For this reason, the cash receipt impact is INDETERMINATE.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ENFORCEMENT DIVISION:

The Washington State Liquor and Cannabis Board ("Board") keeps detailed statistics on all of its enforcement activities and tracks this activity using a unit of measure called a Field Increment (FI). All direct enforcement activities such as premise checks, inspections and investigations are tracked to determine how many FI's are needed to accomplish each activity. Each FI is equivalent to 1/10th of an hour (6 minutes). For example, if a tavern premise check takes 2 FI's and two officers, it is anticipated that one check will consume 4 FI's. Using historical data to factor out indirect activities such as driving time, training, office time and leave, it has been determined that officers are available for an average of 4,220 FI's each year.

The agency anticipates having a workload impact from this legislation due to increased complaints, compliance checks, and licensee support an education. Please see the attached "2320 HB High THC Cannabis products - Enforcement Field Increment Calculator.pdf" for the workload calculations.

0.2 FTE LCB Enforcement Officer 2 - \$26,840/yr (\$23,668 salary/benefits, \$3,172 in associated costs).

0.1 FTE Compliance Consultant (Administrative Regulations Analyst 3) - \$11,723/yr (\$10,137 salary/benefits, \$1,586 in associated costs).

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

House Bill 2320 relates to high THC cannabis products. Section 5 is applicable to the University of Washington (UW) and requires the Addictions, Drug, and Alcohol Institute (ADAI) to develop, implement, test, and evaluate guidance and health interventions for providers and patients at risk for serious complications related to cannabis consumption who are seeking care. ADAI must submit a preliminary report to the Legislature by December 1, 2025, a progress report on initial outcomes by July 1, 2027, and a final report by December 1, 2028. The provisions related to the ADAI sunset on December 31, 2028.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

STAFF

- 0.5 FTE per FY for a Co-Principal Investigator (salary: \$135,216; benefits rate: 22.6%) to oversee study activities, project administration, staff, make scientific decisions, and produce project reports and intervention tools. This person will contribute scientific expertise to the development of protocols for creating and evaluating interventions, develop the overall project timeline, and have ultimate decision-making authority.
- 0.5 FTE per FY for a Co-Principal Clinical Investigator (salary \$160, 872; benefits rate: 22.6%) to oversee the development and testing of clinical interventions for practitioners and their patients at high risk for psychosis. This person will engage community partners, contribute scientific expertise to the evaluation of clinical interventions, and oversee evaluation within targeted community settings.
- 1.0 FTE per FY for a Project Director (salary \$108,576; benefits rate: 30%) to manage all aspects of the project, including monitoring study timelines, assisting with staff training and supervision, submitting regulatory applications (e.g. IRB), acting as a community liaison, and assisting with the development of study protocols. This person will plan and run team meetings, track tasks, monitor deadlines, and assist in the development of project reports.
- 0.1 FTE per FY for a Communications Director (salary: \$107,460; benefits rate: 30%) to lead the development of materials used in study interventions and manage messaging and communication strategies.
- 0.2 FTE per FY for a Public Information Specialist/Designer (salary: \$72,300; benefits rate: 30%) to develop intervention materials through an iterative process that incorporates feedback from key members of the community. This person will guide best practices for presenting information in relevant scenarios (to youth and adults who are at high risk of adverse reactions from cannabis use, people with first episode psychosis, and people who have been diagnosed with a psychotic disorder and use cannabis).
- 1.0 FTE per FY for a Project Evaluator and Implementation Manager (salary: \$87,360; benefits rate: 30%). This person will collaborate with the PIs and Project Director to develop and execute the evaluation plan. This person will work closely with Research Assistants to ensure accurate and reliable data is obtained and will participate in writing project reports.
- 0.4 FTE per FY for a Data Analyst (salary: \$111,360; benefits: 30%) to assist the principal investigators and evaluator in

instrument development and will conduct post-data collection analysis.

2.0 FTE per FY for Research Study Assistants (salary: \$47,000; benefits rate: 30%) to recruit and interview study participants, respond to data queries, track and contact participants for follow-up, track subject payment, and maintain an inventory of study supplies. This person will be the primary interface between study participants, research study sites, and the study team. They will ensure that all forms are completed accurately and according to protocol, and that best clinical/research practices are observed.

0.3 FTE per FY for a Grants & Contracts manager (salary: \$88,008; benefits rate: 30%) and will manage fiscal tracking and reporting.

PROFESSIONAL SERVICE CONTRACTS

This project strives to be responsive to community needs by incorporating feedback from targeted audiences throughout the development of the study interventions, and to evaluate the acceptability, usefulness, and effectiveness of the interventions prior to distribution for wider use. Funds of \$8,000 across FY 25-28 are requested to recruit study participants and to pay for their time, with the majority of funds needed in FYs 26 and 27.

GOODS AND OTHER SERVICES

The Co-Principal Clinical Investor works in non-UW owned office space. Therefore, we are requesting \$5,000 per FY to cover their office rent proportional to their work on this project (.5 FTE).

TRAVEL

To ensure that voices from across WA State are including in the intervention development, we are requesting \$1,000 in FYs 25-28 in travel funds to send the Research Assistants to areas outside of Seattle, when appropriate, for data collection.

Overall, UW ADAI expects the costs of developing and evaluating interventions to prevent risks of psychosis due to cannabis use to cost approximately \$660,000 in FYs 25-28. The project is scheduled to end in December 2028, 6 months into FY29. Therefore, the funding requested for that year has been reduced by 50 percent.
