This email is being sent to Cannabis Industry leaders and representatives for Cannabis Industry Associations.

Hello,

On **June 26, from 9:00-10:30** LCB is hosting a discussion to learn from representatives across the cannabis industry on the topic of high THC. Please share this invitation with your networks so that we may maximize participation.

As many of you may be aware, several versions of a high THC bill were considered during the 2024 legislation session. Ultimately, [HB 2320](#) was passed and aims to mitigate some of the unintended harm that may be caused by cannabis products with high levels of THC. At LCB, we feel like there may be more that could be done to protect the health and safety of consumers and we'd like to hear from this community to better understand your needs and interests in this area. We also want to hear about your reservations or concerns related to potential changes in legislation.

To connect to MS Teams and **observe** the meeting, click [here](#), then:

- If you have the MS Teams app on your device, select "Open Microsoft Teams" when prompted.
- If you do not have the MS Teams app, select "Continue on this browser" when prompted.

To dial-in and **listen** to the meeting:

- **Call:** +1 564-999-2000
- **Conference ID:** 562 275 121#
- One click dial in: +1 564-999-2000,,562275121#

Please note the dial-in option can only be used to listen to the meeting. All attendees whether online or on the phone will be muted and cameras will be unavailable until they are unmuted by our team.

This meeting is the first of its kind and it is my hope that we can conduct additional meetings using this format to address other topics of interest in the future. Thank you in advance for your willingness to participate and for your patience as I try something new! 😊

Best,

Kristen Haley
