rations related to alcohol ated in response to concerns is based on a review of reports, policies, and other

# **Flavored Cannabis Vape Products**

### **Contents of Brief**

- Background
- 2. Prevalence
- 3. Regulations
- 4. Summary
- 5. Best Practices

### **Quick Summary**

- Not all flavoring agents are the same.
   Some have different levels of risk.
- Flavored products appeal differently to different demographics.
- This is an emerging topic and there are varied regulations across U.S.

# Cannabis Packaging and Youth Appeal

### **Contents of Brief**

- 1. Background
- 2. Youth Appeal
- 3. Health Warning Labels
- 4. Regulations
- 5. Best Practices

### **Quick Summary**

- Certain packaging and labeling elements appeal to youth.
- Health care warnings that are distinct and provide evidence-based information can reduce risk.
- Further research on youth appeal related to vape pens and what is appealing to youth vs. adults is needed.

### **Contents of Brief**

- 1. Background
- 2. Exposure Among Vulnerable Populations
- 3. Cross-Over Products
- 4. Theft
- 5. Regulations
- 6. Summary

- Product placement is known to increase exposure and sales of alcohol products.
- Youth and those with substance use problems are at-risk populations when exposed to alcohol in stores.
- Placement of crossover products are one particular area of concern
- Further research on best practices needed

## **Alcohol Outlet Density**

### **Contents of Brief**

- 1. Definitions
- 2. Cross-Sectional Research
- 3. Longitudinal Studies
- 4. Other Factors
- 5. Regulations
- 6. Summary

### **Quick Summary**

- There are consistent links between outlet density, greater alcohol consumption, and public safety and health concerns.
- However, this topic is complex and nuanced with various factors influencing outcomes.
- Collaborative efforts are needed across stakeholders.
