

Scarab Selection II

CIT

Scarab Selection I

A new three-coin set will complement the elegant and exclusive Scarab Selection introduced in early 2017. Once again limited to 499 sets, the new collection showcases three high-relief beetles in an array of unique surface finishes, presented in a gorgeous collector's case.

«Beyond the World», a silver scarab on a gilded background introduces the set. Next in line is a black proof scarab holding a dark Swarovski® crystal reminiscent of a «Lunar Eclipse». Completing the second Scarab Selection is a rose-gold scarab shining like a «Solitary Flame» on a silver surface.
