

Golden Eggs
Golden Swan Egg

The Swan Egg complements the delightful golden egg series that launched in 2015 with the unique, concave Golden Egg N°1, followed by the Fabergé design of Egg N°2 in 2016.

The third coin presents itself in a traditional royal blue that beautifully complements the rich golden-yellow swan which seemingly floats on a pond in a royal garden surrounded by ornamental leaves. The micro-minted Coat of Arms is once again struck in incredible detail from a half gram of gold.

Collectors of the Golden Egg series will surely also appreciate CIT's popular silver Imperial Eggs collection.
