

# Emperor Penguins

Few animals are as universally loved as the charismatic penguins. Following in the Silver Lucky Panda's footsteps, the Emperor Penguin is a homage to these amiable birds.

Struck from 88 grams of fine silver, the shaped Emperor Penguin watching over its hatchling shows incredible detail. Partial antique finish accents the penguins features and enhances the stunning three-dimensional form. Like its predecessor, the Penguin is limited to 888 pieces and comes in an elegant collector's case.
