Mongolian coin series are notoriously rare and sought after. In 2015 CIT launched the iconic Evolution of Life series that portrays prehistoric life in hitherto unseen brilliance and quality.

At World Money Fair 2018, CIT now proudly presents a truly great addition to the range of paleontologically themed coins featuring Mongolia's most famous dinosaur, the Velociraptor. The series will portray prehistoric beasts in exceptional style on a whopping 65mm canvas weighing three ounces.

The brilliant silver fossil is struck in smartminting® high relief and set against a prooflike field. The red-rock finish hints at the original fossil matrix, a look further enhanced by a rim and edge struck to resemble rock. Velociraptor mongoliensis is limited to 999 pieces and comes supplied with a beautiful floating frame.
