Australian Communities Foundation is a community of giving, powered by a courageous ambition: a fairer and more sustainable Australia. We connect those who can give with the people and organisations leading the way. Our vision is to activate a nation of givers to create a fairer and more sustainable Australia.

ACF offers individuals, families, groups, and organisations an easy and satisfying way of giving something of real value back to the communities they care about. On behalf of our giving community ACF directs millions of dollars each year in grants to organisations and initiatives to ensure they can continue operating, pursue strategic initiatives and fund their most critical projects.

As a community we also collectively identify and support changemakers who are tackling the big issues facing Australia within our four focus areas: strengthening our democracy, supporting First Nations self-determination, safeguarding the environment, and tackling inequality.

ACF currently supports 350+ funds and foundations, responsibly invests \$110+ million and distributes approximately \$12 million p.a. through 900 grants annually. In our 22-year history, ACF has made in excess of 6000 grants distributing more than \$80 million to Australian and International communities.
