**Letter of support for Space2b Social Design**

RE: grant application from Space2b

I write to acknowledge support for Space2b Laneway Cafe

Persian cuisine has a 7,000-year-old history and is the pivot point of Iranian culture. I want to share my culture through the flavours of Persian food with Space2b customers

I am want to support Space2b by :

- Organising events and workshops based in Persian cuisine
- Running the cafe, training & supervising migrants and refugees
- Referring people to the program.
- Promoting the program and activities via social media.

I firmly believe in Space2b's vision and are keen to support them with their objectives to provide opportunities for newly arrived migrants, refugees and people seeking asylum, and to provide opportunities for our communities to be heard.

I believe that people can share their heritage through food and be the starting point for sharing stories. This is crucial when building a more inclusive and informed community.

Yours sincerely

Tina Khabbazian Zanjani

## Letter of Support – Space2b Social Design

To the Grant Team

I, Gabriel Gebaile, in the capacity of business owner – Bossa Nova –am writing this letter to express my support for Space2b Laneway Café Grant application.

The Brazilian Cuisine delivered the fusion of many cultures that settled in Brazil, from our indigenous people to middle east and African influences.

Our support to Space2b Laneway Café comes in the form of:

- partnering with them to bring the Brazilian flavors to their café
- Mentoring their staff so their management can deliver the best cultural experience
- Supporting them in their quest of welcoming all peoples to make them feel at home in the City of Port Phillip

The Space2b Laneway café concept will bring not just food from other country. It will promote the cultural diversity in a positive and embracing manner.

Yours Sincerely,

*Gabriel Gebaile*
