PUBLIC COMMENTS ON AGENDA ITEMS AND NON AGENDA MATTERS

Cliff Smith stated that at the September 7, 2021, City Council meeting, Compton Sheriff’s Captain Clark stated that the death of Reymundo Dias after being stuck on his motorcycle by a Sherriff’s Deputy, was an accident and not a criminal matter. Mr. Smith further noted that Captain Clark also stated that the video surveillance footage would not be released because the matter is under investigation; and asserted that if the Sherriff’s Department has concluded that the collision was an accident, then why conceal the many videos of the incident from public view. Mr. Smith then alleged that Mr. Diaz was killed by the Deputy who drove through a red light. Mr. Smith urged the City to release the identity of the Deputy involved in this incident and release all video surveillance to the public.

Aaron Vorhees addressed the issue of decorum and ethics which must be upheld by the Councilmembers and stated that the City is in financial constraints and has issues with accountability. Mr. Vorhees raised concerns that Councilman Galvan is the subject of an investigation and further called into question every decision and vote by the Councilman. Mr. Vorhees urged the City Council to provide tangible programs to empower the residents of the community and address the root of the problems and issues which must be addressed to move the City forward in a positive direction. He concluded by urging the Councilmembers to respectfully represent their constituents and conduct themselves in the proper manner and attend the meetings prepared to conduct the City’s business.

Robert Ray raised concerns regarding agenda item Number 7 (501/601 East Compton Boulevard proposed development) and urged the City to inform the contractor that they are required to hire Compton residents. Mr. Ray encouraged the Council to return to ‘in person’ City Council meetings in the Council Chambers. He then expressed that Compton Sheriff’s Captain LaTanya Clark must be replaced and asserted that the Captain is deliberately holding up the investigation relative to the

death of Reymundo Diaz. Mr. Ray concluded by asking all unvaccinated Compton residents to get their Covid-19 vaccination.

Christian Contreras commented that it has been 54 days since Mr. Reymundo Diaz was killed in the City of Compton and the family and the residents still do not have answers, nor have they been provided with any video footage of the incident. Mr. Contreras asserted that if Mr. Diaz's death was an accident, why hasn't the video footage been released, and further questioned how Sheriff's Captain Clark can call the incident an 'accident.' He then indicated that he submitted a public records request, however, he never received confirmation that his letter was received by the City. Mr. Contreras requested that this matter be placed on the City Council's agenda for discussion in greater detail for the sake of transparency.

Mario Morales informed the community that the Compton Youth Build organization now offers a Culinary Arts program to empower the youth to obtain sustainable jobs in the food industry. Mr. Morales indicated that several other courses will be offered at Compton Youth Build located at 1108 N. Oleander Avenue. Please call 310 631-2000 for additional information.

Roberto Izar addressed the City Council and indicated that he has been involved with many cases against the Los Angeles County Sheriff's Department. He stated that in cases such as in the death of Reymundo Diaz, the CHP usually performs a detailed investigation and then provides a report surrounding the incident. Mr. Izar further stated that the family of Mr. Diaz has not been provided with any information relative to who is conducting the investigation and are desperately seeking answers. Mr. Izar requested that the City provide the family with guidance relative to their requests for information.

Elizabeth Hicks commented that the City Councilmembers must respect the Chair and added that the Members must be recognized before they speak. Ms. Hicks emphatically urged the Councilmembers to stop all the nonsense exhibited during the meetings, because they are wasting the City's valuable time and money by fighting and bickering. Ms. Hicks requested that the City provide the residents with a detailed summary of all of the expenses that have gone out, and also requested that the City Clerk update the minutes archival system. Ms. Hicks further stated that the City needs to upgrade the street signs and then concluded that the Councilmembers must attend the meetings and present their faces to the residents and added that if they do not attend, they should not be paid.

Ivan Johnson presented a program to assist the City in providing Covid-19 testing. Mr. Johnson highlighted a new innovative mouth swab testing system which provides results within 24 to 48 hours. Moreover, the testing is available to the underprivileged at no cost to the residents of Compton and would be ideal for schools and business. Mr. Johnson encouraged those interested in Covid-19 testing to call: 310-213-2321 for additional information.

Mel Bailey, II apologized to the Mayor for the behavior of certain Councilmembers and urged everyone to respect the Mayor's position. Mr. Bailey went on to state that excuses are the tools of the incompetent, and then urged the City Council to encourage the Councilmember from District 2 to stop making every issue a racial issue. Mr. Bailey requested Councilman Galvan's assistance with issues of the Second District such as street light outages and overweight vehicles traveling through the streets.

Twone Flowers commented that it was stated that the property at 601 S. Compton is situated on quicksand and further inquired as to whether or not land studies have been conducted to determine the condition of the land. Mr. Flowers also urged the Council to provide entertainment and social events for the youth of the community.

City Attorney Damon Brown commented that in relation to the death of Reymundo Diaz, he forwarded a formal request for the video footage of the incident to the Compton Sheriff's Department. The requests were sent to Captain LaTanya Clark and Detective Wilson. Attorney Brown then indicated that he would update the Council and residents at the appropriate time.

INTRODUCTION OF SPECIAL GUESTS

1. DR. VARGAS, CHARLES DREW - COVID IN THE CITY OF COMPTON

Dr. Robert Vargas, Assistant Dean for Health Policy and Inter-Professional Education at Charles Drew University, provided an update regarding COVID-19 and indicated that the COVID-19 pandemic has and continues to be one of the most devastating public health crises in modern history. As the virus began to spread in the United States, California declared a state of emergency on March 4, 2020. During that time, areas with the largest number of cases in Los Angeles County were historically wealthier communities, both suburban and urban. Recognizing the lack of COVID-19 testing sites in unincorporated communities of South Los Angeles, Second District Supervisor Mark Ridley-Thomas mobilized resources and a partnership to provide testing and supplemental patient follow-up for the Watts/Willowbrook community. The Charles R. Drew University of Medicine and Science, Martin Luther King Jr. Outpatient Center, and Los Angeles County Fire Department partnered to operate a COVID-19 viral infection detection testing site located on the Charles Drew campus testing site.

The site has tested a large number of people from racial and ethnic minority groups that are at higher risk for poor outcomes and complications from COVID-19. We have tested over 25,000 people since early April and 85.9% of those tested self-identified as African American (15.2%) or Latinx (70.7%). We provided consistent access to testing including weekends, holidays, and days when other sites were closed during periods of civil unrest. Overall, we found that 9.4% of those tested were positive for infection with COVID-19. Those self-identifying as Latinx had the highest rates of positive results among those tested at 12.4% followed by those who refused to self-identify at 5.9% and 7.9 % for those who race ethnicity data was unavailable.

Dr. Vargas indicated that they have addressed systemic barriers such as online registration or the need to have access to a vehicle and our outreach used promotional efforts more familiar and available to our surrounding community. This was accomplished by allowing walk-up registration and testing, providing direct outreach with culturally and linguistically appropriate educational resources and flyers, and promoting public service announcements by trusted community leaders.

The testing sites have provided a response to the critical and unique Covid-19 related needs of South Los Angeles and the adjacent communities surrounding our site. The testing site began operating at a time when testing was not accessible outside of the wealthier parts of Los Angeles County. In addition, our efforts to address the health care and social service challenges in this population will support better health outcomes and reduce the spread of disease. By sharing our lessons learned, we hope to provide valuable insights into ways to control the spread of Covid-19 in similar vulnerable communities suffering from the excess burden of this disease and its social impact.

Mayor Sharif thanked Dr. Vargas for his very informative report and his ongoing assistance with COVID-19 testing in the community.
