**Alena Sall,** Housing Services Director, reported that the United States Department of Housing and Urban Development (HUD) requires all Public Housing Agencies to develop and implement an Annual Plan. The Annual Plan provides details about the Public Housing Agency's (PHA)'s immediate operations, programs and services and also notify HUD of changes that were not included in the five-year plan. The Public Housing Agency Plan is a comprehensive guide to the Compton local Housing Authority policies and strategies that were developed to meet the City's housing needs and goals.

The Annual Plan provides details about the PHA's immediate operations, programs and services and notifies heard of changes that were not included in the five-year plan. Ms. Sall detailed the goals and objectives of the Public Housing Authority's Plan and further provided strategies for reaching those goals and objectives. Ms. Sall then requested input from the public relative to this item.

**Primary Goals and objectives of the PHA are as follows:**

**Goal 1 –** To provide quality housing that is affordable to low, or very low and extremely low- income households
**Goal 2** - Update policies and procedures to be consistent with the HUD statutory and regulatory changes
**Goal 3** – Conduct Housing Quality Standards (HQS) inspections timely and always work with the families/property owners to correct deficiencies as needed
**Goal 4** – Undertake affirmative measures to provide a suitable living environment for families in assisted housing, regardless of race, color, religion, national origin, gender, familial status, marital status or disability
**Goa1 5** – Continue to promote and abide by the Violence Against Women's Act (VAWA)

Ms. Sall further stated that the mission statement of the Housing Division is to ensure that residents with housing needs are offered safe, adequate and affordable housing and to also provide economic opportunity and a suitable living environment free from discrimination.

The complete power point presentation and the Annual Plan is on file and available for review in the City Clerk's Office.

**AUDIENCE COMMENTS REGARDING THE PUBLIC HEARING**

**Lynn Boone** questioned the dollar amount provided for people leasing in low-income housing and in goal 3 how many homes have been provided with service/repair and further questioned the total amount and where the money came from. Ms. Boone then stated that the report provided does not say how the money was and will be used, such as how many employees are in the Department and where they are located.

**Fidel Marquez** questioned the poor quality of the report and noted that it looks as though the report was copied and pasted and the dates changed.

**Tomas Carlos** raised concerns regarding the funding and indicted that the City Council approves the same organizations for funding year after year.

Ms. Sall responded to the questions posed to her by the residents and the City Council.

There being no further comments, Councilmember Darden offered a motion to close the public hearing. The motion was seconded by Duhart, and the joint public hearing was closed at 6:25 p.m. by the following vote on roll call:

## SUMMARY

Adoption of this resolution will ratify the Side Letter Agreement entered into between the City of Compton ("City") and the American Federation of State, County and Municipal Employee Union, designated as Local 3947 ("AFSCME Local 3947").

Ratification of the Side Letter Agreement will approve an amendment to Article 19 (Wages/Base Pay, Classification Title) of the Memorandum of Agreement (MOA) between the City and AFSCME Local 3947 and provides a Salary Increase/Extra Duty Pay for the Administrative Analyst II in the Municipal Water Department.

## BACKGROUND

Article 19 of the MOA entered into between the City and AFSCME Local 3947 identifies the Classification Titles and the Salary Ranges for Non-Supervisory positions. Additional assistance with upcoming projects and major assignments related to rubbish contracts, state mandated Proposition 218 requirements and contract negotiations within the Rubbish Division of the Water Department necessitate an adjustment in compensation.

## STATEMENT OF ISSUE

In an effort to minimize the impacts on staff and to improve the expediency and efficiency of service to the public, the City and AFSCME Local 3947 reached an agreement on December 22, 2022 as follows:

### 1. Salary Increase/Extra Duty Pay

The Side Letter Agreement provides a Salary Increase/Extra Duty Pay for the additional workload for the Administrative Analyst II in the Municipal Water Department:

| | **Effective September 1, 2021** |
|---|---|
| **Administrative Analyst II** | *15% Salary Increase/Extra Duty Pay |

The duration of this Salary Increase/Extra Duty Pay will remain in effect until assistance within the Municipal Water Department is no longer needed.

# I. INTRODUCTION

The City of Compton ("City") annually levies and collects special assessments in order to maintain the improvements that provide special benefit to properties within the Compton Landscape and Lighting District No.1 ("District"). Assessments are levied annually for the District pursuant to the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the "1972 Act").

The Engineer's Report ("Report") describes the District, applicable changes to the District, including any annexations or substantial changes in the improvements, and the proposed assessments for the fiscal year commencing July 1, 2023 and ending June 30, 2024 ("2023/2024"). The assessments are based on the historical and estimated cost to maintain the improvements that provide a special benefit to properties within the District and Zones, as described herein. The improvements within the District and the corresponding costs, including all expenditures, deficits, surpluses, revenues, and reserves, are assessed for each Zone.

For the purposes of this Report, the word "parcel" refers to an individual property assigned its own Assessment Number by the Los Angeles County Assessor's Office. The Los Angeles County Auditor/Controller uses Assessment Numbers and specific Fund Numbers to identify properties assessed for special district benefit assessments on the tax roll.

Following consideration of all public comments and written protests at a noticed public hearing and review of the Engineer's Report, the City Council may order amendments to the Report or confirm the Report as submitted. Following final approval of the Report and confirmation of the assessments, the Council may then order the levy and collection of assessments for fiscal year 2023/2024 pursuant to the 1972 Act. In such case, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll for each assessable parcel in fiscal year 2023/2024.

# II. PROVISIONS OF THE 1972 ACT

The Method of Apportionment described for the District utilizes commonly accepted assessment-engineering practices and have been established pursuant to the 1972 Act in compliance with the provisions of the California Constitution Article XIIID. As generally defined, the improvements and the associated assessments for any district formed pursuant to the 1972 Act may include one or any combination of the following:

1) The installation or planting of landscaping.
2) The installation or construction of statuary, fountains, and other ornamental structures and facilities.
3) The installation or construction of public lighting facilities, including, but not limited to streetlights and traffic signals.
4) The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof; including but not limited to, grading, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.

5) The installation of park or recreational improvements including, but not limited to the following:
    i. Land preparation, such as grading, leveling, cutting and filling, sod, landscaping, irrigation systems, sidewalks, and drainage.
    ii. Lights, playground equipment, play courts and public restrooms.
6) The maintenance or servicing, or both, of any of the foregoing.
7) The acquisition of land for park, recreational or open-space purposes, or the acquisition of any existing improvement otherwise authorized by the 1972 Act.
8) Incidental expenses associated with the improvements including, but not limited to:
    i. The cost of preparation of the Report, including plans, specifications, estimates, diagram, and assessment;
    ii. The costs of printing, advertising, and the publishing, posting and mailing of notices;
    iii. Compensation payable to the County for collection of assessments;
    iv. Compensation of any engineer or attorney employed to render services;
    v. Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements; and,
    vi. Costs associated with any elections held for the approval of a new or increased assessment.

## B. SPECIFICATIONS FOR MAINTENANCE AND SERVICING

The lighting and traffic signal system shall be maintained and serviced to provide adequate illumination and traffic control. Maintenance and servicing shall include but not be limited to removal, repair, replacement or relocation of light standards, traffic signals, poles, bulbs, fixtures, circuits and appurtenances.

The Southern California Edison Company, their successors, or assigns, shall furnish energy for lights and traffic signals. The level of illumination shall be adequate for the intended purpose in each Zone. Rates for energy shall be those authorized by the Public Utilities Commission, State of California.

The landscaping improvements include, but are not limited to, the operation, maintenance and servicing of ornamental structures, landscaping including trees, shrubs, grass and other ornamental vegetation, and appurtenant facilities, including irrigation systems and drainage devices located in public streets or rights-of-way within the boundaries of the District.

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the ornamental structures, landscaping and appurtenant facilities, including, but not limited to, repair, removal or replacement of all or part of any of the ornamental structures, landscaping or appurtenant facilities; providing for the life, growth, health and beauty of the landscaping including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease, or sandblasting and painting of walls and other improvements within the street area to remove or cover graffiti.

Servicing means the furnishing of electricity for the lighting and operation of the ornamental structures, landscaping and appurtenant facilities, and water for the irrigation and control of the landscaping and the maintenance of any of the ornamental structures, landscaping and appurtenant facilities.

The plans and specifications for the operation, maintenance and servicing of the landscaping are on file in the office of the City Clerk, the City Engineer and the various service departments where they are available for public inspection. The plans and specifications are voluminous and are not bound in this Report but by this reference are incorporated herein and made a part of this Report.

# *IV. METHOD OF APPORTIONMENT*

## A. GENERAL DESCRIPTION OF THE DISTRICT AND SERVICES

The District and assessments provide for the continued maintenance, servicing and operation of the improvements within the District boundaries. The District is divided into seven (7) distinct benefit Zones categorized by land use and the special benefit received from the improvements as outlined in Section IV B. It has been determined that the assessed parcels receive special benefits from the improvements. It is the opinion of the public works supervisors that, on a long-term basis, an equality of effort and expenditure is achieved throughout the District.

Parcels identified as being within the District share in both the cost and the benefits of the improvements. The costs associated with the improvements, are equitably spread between benefiting parcels within the District. Only parcels that receive benefit from the improvements are assessed, and each parcel is assessed in proportion to the estimated special benefit received. The funds collected from the assessments are dispersed and used for the maintenance, services and operation of the improvements provided within the District. Properties receive the following special benefits from the District improvements:

Adequate lighting on public streets and traffic signals to control the flow of traffic and pedestrians are considered important for their contribution to public convenience and safety. Protection of property and reduction of traffic accidents are specific benefits that properties realize within the District. The lighting benefit is directly related to safety and property protection and therefore increases the perceived and actual usability of residential, commercial and industrial properties. Placement of and the intensity of street lighting has received past and ongoing studies by the City officials and consultants with the intent of intensifying such lighting in the area from the curb to the property line and also the onsite level of lighting. Traffic signals contribute to the control of traffic, thereby providing a measure of safety and pedestrian and vehicular accessibility to residential, commercial and industrial properties. Community activities are increased when public infrastructure such as street lights and traffic signals are in place, improved, operable, safe and well maintained.

The maintenance of parkways, including landscaping and trees is of necessity, an ongoing and long-range activity. Properties within the District receive special benefit from the landscaping improvements through improved erosion resistance, dust and debris control, reduced vandalism, enhanced urban environment and improved aesthetic appeal of the properties. As a result of the age of the development of various areas, the level of deterioration within the City and in particular neighborhoods is different, requiring different types and levels of maintenance effort. The intent of the public works staff is to reduce complaints and problems while achieving an acceptable level of maintenance in all areas. The ongoing attempt is to achieve clean, graffiti free streets while maintaining the newer areas and upgrading the older areas.

## B. METHODOLOGY

The assessments and method of apportionment described in this Report utilizes commonly accepted assessment engineering practices and have been established pursuant to the 1972 Act. Any new or increased assessment will be subject to the substantive and procedural requirements of the Constitution, Article XIIID, Section 4.

Pursuant to the 1972 Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed among all assessable parcels in proportion to the estimated benefits to be received by each parcel from the improvements. The benefit formula used should reflect the composition of the parcels, and the improvements and services provided, to fairly proportion the costs based on special benefit to each parcel.

To reflect the composition of the parcels the District has been divided into seven (7) distinct benefit Zones as follows:

| ZONE | DESCRIPTIONS |
|---|---|
| 1 | Residential |
| 2 | Commercial |
| 3 | Heavy Manufacturing |
| 4 | Limited Manufacturing |
| 5 | Gateway Town Center |
| 6 | Churches |
| 7 | Exempt |

The methodology is based on the parcel's land use and size compared to other parcels that are associated with the improvements. For example, an examination of the lighting pattern and lumens of light provided indicates that the lighting intensity in general is much greater in front of non-residential properties than in residential areas or residential properties. The additional lighting provides greater benefit to such non-residential properties because it provides additional protection from robberies and vandalism and provides an enhanced appearance and increased safety in access to potential customers.

In the Residential Zone, all the parcels in the District receive a basic similar special benefit from the improvements, due to their similarity in use and proximity to the improvements. However with frontage a major factor in development and potential usage, adjusted front footage has been used as a measure of such development and use benefit.

In the Commercial Zones, the special benefit to each parcel is derived not only from the benefits to the property as described above, but also the enhancement of the property through the enhanced ability to attract clients, employees, and customers to the parcel. The estimated cost of the improvements in a Commercial Zone has been divided among the parcels within the Zone according to the adjusted front footage of each parcel in the Zone.

The City of Compton has traditionally recognized the role of church and schools in the community; the contribution of churches and church schools in meeting educational, welfare and recreational needs of youth and others; the influence of churches in stabilizing the community and thereby reducing crime and other costs; the role of churches in meeting the nutritional and emotional needs of senior and low income persons; and has partially recognized the reduced costs which are experienced by the community by reason of the above services to society by assigning a reduced assessment rate for churches.

Public property owned by any public agency and in use in the performance of a public function, which is included within the boundary of the District, shall not be subject to the assessment. Other properties that are considered exempt from the assessments are those that receive little or no benefit from the improvements, have restricted development or provide substantially similar improvements, such as, common areas, flood control drainage, right-of-way and rivers.

The cost of the improvements has been apportioned to all assessable parcels within the District on an adjusted front footage basis. Table II in the District Budget section of this

Report shows the per lineal foot assessment within each of the seven (7) Zones based on the three improvement categories composed of lighting, landscape and traffic signals.

The Los Angeles County Assessor's maps were utilized to determine the front footage of each respective parcel within the District. Adjustments have been made to the frontage shown in the Assessor' maps for corner, odd shaped and interior (no street frontage) lots. The criteria used to determine front footage is as follows:

| LOT TYPE | CRITERIA |
|---|---|
| 1. Rectangular Lots | Street frontage on a public street |
| 2. Irregular Shaped Lots | (a) Width of lot at set back line, or<br>(b) Average of front and rear lot line lengths, or<br>(c) Street frontage, whichever is most representative of benefit |
| 3. Flag Lots | One-half of the lot width as measured on the rear lot line, which is parallel to the public street |
| 4. Corner Lots | The narrowest frontage on a public street if residential, average of both frontages if non-residential |
| 5. Interior Parcels | Front footage and number of parcels |
| 6. Condominiums | Front footage and number of parcels |

Other unusual or rarely occurring conditions shall be treated in accordance with the Landscape and Lighting District Procedures Manual or based on prior accepted procedures.

## C. ASSESSMENT

Assessment is comprised of three categories: lighting, landscape and signals. Assessment rate per front foot for each of the three categories are outlined in Table II of this report. As an example, for a residential parcel with front footage of 50 feet, total assessment amount is calculated as follows:

(50 * $0.935 [lighting assessment]) + (50 * $1.886 [landscape assessment]) + (50 * $0.244 [signals assessment]) = $153.25

# V. DISTRICT BUDGETS

The 1972 Act provides that the estimated costs of the improvements shall include the total cost of the improvements for the fiscal year, incidental expenses, and may include reserves to operate the District until assessment collections are transmitted to the City from the County.

The 1972 Act also provides that the amount of any surplus, deficit, or contribution must be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within the District is the total cost of installation, maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

The estimated net amount to be assessed for fiscal year 2023/2024 is $4,189,284.28. Table III shows a summary of the total assessments per Zone for the three improvement categories of lighting, landscape and traffic signals. The rates of assessment are the same as the rates approved in fiscal year 2022/2023 and prior years.

A summary of the estimated costs for the District for fiscal year 2023/2024 is shown in Table I of this Section.

## A. DESCRIPTION OF BUDGET ITEMS

The following describes the costs funded through the District and shown in the budget.

***Personnel (Salary and Benefits)*** - The cost of City department staff personnel involved in providing the coordination for maintenance and servicing, responding to public concerns and levying and collecting assessments. This includes, where appropriate, reimbursement for time spent by other City staff such as, Finance and Accounting, the City Attorney, the City Manager, City Council and the Public Works staff.

***Materials and Equipment -*** Includes all material and equipment required to properly maintain, service and operate the improvements within the District by City staff and others. All improvements within the District will be maintained and serviced on a regular basis. The frequency and specific maintenance operations required will be determined by City staff and in certain instances are incorporated in the agreements with the Southern California Edison Company.

***Street Maintenance and Repairs*** - Repairs that are unforeseen and not normally included in the yearly maintenance cost. This may include repair of damage due to vandalism, storms and other natural occurrences, planned upgrades of the improvements and the cost of subcontractors for maintenance and other services, including tree trimming.

***Utilities (Electricity and Water)*** - The furnishing of water required for the irrigation of the parkway and median landscaping and the maintenance of the ornamental structures and appurtenant facilities. The furnishing of electricity as required for the operation of the street lighting, traffic signals, parkway and median controls and appurtenant facilities, as outlined in agreements with the Southern California Edison Company and under rates as set by the Public Utilities Commission.

***Cost Allocation Plan ("CAP") -*** Summarizes a comprehensive analysis completed for the City of Compton, California (the "City") to determine the appropriate allocation of costs from City central service departments to the departments that provide services directly to the community. The primary objective is to allocate costs from departments that provide services internally to operating departments that conduct the day-to-day operations necessary to serve the community. These internal service costs are those: (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the central service departments. Typical central service departments include the City Manager and City Controller, whereas, typical operating departments include Fire, Public Works, and enterprise funds.

To ensure central service department costs are appropriately allocated to the operating departments, we analyzed and identified expenditures to determine which costs are allowable versus unallowable in accordance with Office of Management and Budget (OMB)-87 principles. Costs that are typically considered to be unallowable include, but are not limited to: General Advertising, Entertainment, Award Ceremonies, Capital Improvements, Bad Debt, Lobbying, Contingencies, Legislative Body (City Council), Debt Service, Promotional Items.

As such, unallowable costs were excluded from this CAP, including indirect costs associated with City Council (reflected as a negative number under allowable costs).

**County Administration** - The administrative cost to apply the assessments on the secure tax roll each fiscal year.

***Consultants and Professional Services*** - The costs of contracting with professionals to provide services specific to the levy administration, including preparation of the Engineer's Report, resolutions, and levy submittal to the County. These fees also include any additional administrative, legal, and engineering services specific to the District such as costs to prepare and mail notices of the Public Hearing.

***Operational Reserves Collection –*** Reserve used for upfront maintenance expenses until county apportionment is received.

***Reserve Fund Credit*** – Represents contributions or transfers of funds from the District reserve fund.

***Unfunded Costs*** – Represents revenue from other sources such as the City of Compton General Fund.

***Total Net Estimated Cost*** - Total direct cost plus total administrative costs less any transfers from the reserve fund or contributions from other revenue sources.

***Total Parcels*** – The total number of parcels within the District.

***Total Parcels Levied*** – The total number of parcels within the District that will receive special benefit and be assessed for the fiscal year.

***Total Front Footage Levied*** – The total front footage of parcels within the District calculated according to the methodology detailed in this Report.

**Assessment Amount** - This is the total amount to be levied to the parcels within the District for the current fiscal year. The Balance to Levy represents the sum of the Total Direct and Administration Costs, plus any revenue adjustments resulting from the Reserve Fund, Beginning Balance, City Contributions, Other Revenue Sources, or Capital Improvement Fund. This dollar amount represents the total funds to be collected from the parcels through assessments on the property tax bills.

# *EXHIBIT B – ASSESSMENT ROLLS*

The proposed assessment amounts for fiscal year 2023/2024 for the Landscape and Lighting District are sent under separate cover and hereby referenced to in this report. Parcel identification, for each lot or parcel within the District shall be the Assessor Parcel Numbers as shown on the Los Angeles County Assessor's map for the year in which this Report is prepared.

The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the property tax roll for each parcel in fiscal year 2023/2024.

If any parcel submitted for assessment is identified by the County Auditor/Controller to be an invalid parcel number or the parcel Land Use changes for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment/Charge amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment/Charge rates approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment. Similarly, if a parcel Land Use changes, the assessment/charge amount applied shall be recalculated and applied according to the approved method of apportionment and assessment rates.

# I. INTRODUCTION

To ensure a flow of funds for a portion of the ongoing maintenance and operation of the sanitary sewer facilities, within the boundaries of the City of Compton, the City Council has previously established a Sewer Service Charge.

On November 5, 1996, California voters approved Proposition 218. This Constitutional amendment was the latest in a series of initiatives altering the revenue-raising discretion of California local agencies. The provisions of the Proposition are set forth in California Constitutional Articles XIII C and XIII D.

As relevant to the City of Compton Sewer Service Charge, California Constitution Article XIII D, Sections 1 through 5, provide for additional substantive and procedural requirements, as outlined below.

Proposition 218 defines, "Assessments" as:

> ‘‘... any levy or charge by an agency upon real property that is based upon the special benefit conferred upon the real property… "Assessment" includes, but is not limited to, "special assessment," "benefit assessment," "maintenance assessment" and "special assessment tax."
>
> Article XIII D Section 2(e) of the Constitution of the State of California defines ‘‘Charges" as:
>
> "…"charge" means any levy other than an ad valorem tax, a special tax, or an assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property related service."

Although District assessments and charges are generally collected on the property tax rolls, District "assessments" and "charges" are not "taxes." Assessments and charges are distinct from the regular one percent (1%) property tax and property tax debt overrides in that assessment rates and charges are not levied on an ad valorem basis. The Sewer Service levy is considered a charge under Proposition 218.

Proposition 218 requires that beginning July 1, 1997, all new and existing assessments (with some exceptions) conform to new substantive and procedural requirements. However, certain assessments are exempted from the conformity requirement until they are increased. Generally, these exemptions include:

- Assessments used exclusively to fund sidewalks, streets, sewers, water, flood control, drainage systems, or vector control.
- Assessments used exclusively for bond repayments, the cessation of which would violate the Contract Impairment Clause of the U.S. Constitution.
- Assessments previously approved by a majority of voters.
- Assessments approved by all the property owners at the time the assessments were initially imposed.

The City Council has previously determined that the charges for the Sewer Service constitute a continuation of charges existing on the effective date of Article XIII D, that the assessments and charges were imposed exclusively to finance the maintenance and operation expenses for sewers and that the charges as they existed before July 1, 1997 are exempt from the requirements of Article XIII D, Section 4 of the California Constitution. In that the charges are used exclusively to fund sewers under the provision for exemption defined in Section 5(a) of the Article.

This Report for the City of Compton Sewer Service Charge ("Charge") has been prepared pursuant to the order of the City of Compton, in compliance with City Municipal Code ("Code") and statutory requirements for the State of California. The Report covers Fiscal Year 2023/2024 beginning July 1, 2023 and ending June 30, 2024.

## II. IMPROVEMENTS

The monies collected by the City for the Charge are used for the maintenance of the existing sanitary sewer system and repayment of a portion of sewer bonds previously issued for the reconstruction of the City's sewer system. Maintenance includes the repair or replacement of damaged mains, manholes and appurtenant structures in order to maintain the system for the health, safety and welfare of the parcels charged within the City, all work to be performed within public streets or rights-of-way.

## III. METHODOLOGY

The Charge is levied on the basis of historical water consumption data. Past studies have shown a high degree of correlation between water consumption and sewer discharge for a majority of the users within the area. As shown below, fees for the respective users have been divided into six (6) use zones ("Zones"). The Zones are identified as follows:

| Zone | Type of User | Average Monthly Water Consumption |
|---|---|---|
| 1 | Residential & Small Commercial | Less than 10,000 cu. ft. |
| 2 | Commercial & Industrial | 10,000 to 25,000 cu. ft. |
| 3 | Commercial & Industrial | 25,000 to 50,000 cu. ft. |
| 4 | Commercial & Industrial | 50,000 to 75,000 cu. ft. |
| 5 | Commercial & Industrial | More than 75,000 cu. ft. |
| 6 | Vacant lots, Septic Tank Users, Public Property, Disabled Citizens & Senior Citizens | Exempt |

A flat fee for residential users has been utilized, while a sliding fee for commercial and industrial users was determined to be the most equitable for said users within the City of Compton. Zone 6 provides for exemptions from the Charge for vacant lots properties that have septic tanks, properties currently owned by senior or disabled citizens, and publicly owned properties. Exemptions are applied upon receipt and filing of an application for such exemption with the City.

The City of Compton has historically recognized that senior citizens and the disabled have a water usage which is lower than other housing units and that the cost of such reduced usage services

are covered in the main part by general property taxes and other City revenues and not by direct application of the Sewer Service Charge.

The City of Compton Public Works Department has determined that the rate of sewer service charge for all the assessable parcels within the limits of the City of Compton for Fiscal Year 2023/2024 shall remain the same as Fiscal Year 2022/2023. The total estimated charged for sewer service for all parcels is $914,586. this charge can increase or decrease depending on Senior Exemptions applied in Fiscal Year 2023/2024.

In order to ensure timely and efficient collections of the sewer service charges, the City of Compton utilizes the Los Angeles County Assessor's office property tax billing system for collection of the sewer service charges. Upon receipt of the sewer service charges through the property tax billing system, the funds received by the Los Angeles County Assessor's office are forwarded to the City of Compton and are placed in a designated fund for exclusive use of the operation and maintenance of the sewer system of the City of Compton.

## *IV. DISTRICT BUDGET*

The following describes the costs funded through the Charge and shown in the budget.

***Maintenance Costs (Labor, Benefits, and Equipment)*** – Includes all labor, material and equipment required to properly maintain and service the sewer system by City staff and others. All improvements within the District will be maintained and serviced on a regular basis. City staff will determine the frequency and specific maintenance operations required.

***Debt Service*** – Pledged revenues under the Trust Agreement for the payment of Bonds issued for the reconstruction of the sewer system.

***Administration*** – The cost of City department staff personnel involved in providing the coordination for maintenance and servicing, responding to public concerns and levying and collecting assessments. This includes, where appropriate, reimbursement for time spent by other City staff such as, Finance and Accounting, the City Attorney, the City Manager, City Council and the Public Works staff. The cost also includes contracts with professionals to provide additional engineering or administrative services specific to the District and County fees.

***Reserve Fund Transfer/(Contributions)*** – Represents contributions or transfers of funds from the reserve fund.

***Other Revenues/General Fund (Contributions)*** – Represents revenue from other sources such as the City of Compton General Fund.

***Total Net Estimated Cost*** – Total direct cost plus total administrative costs and transfers from/to the rebate reserve fund or contributions from other revenue sources.

***Total Parcels*** – The total number of parcels within the District.

***Total Parcels Levied*** – The total number of parcels within the District that will be charged for the Fiscal Year.

***Charge Amount*** – The total amount to be charged this Fiscal Year.

***Cost Allocation Plan ("CAP") -*** Summarizes a comprehensive analysis completed for the City of Compton, California (the "City") to determine the appropriate allocation of costs from City central service departments to the departments that provide services directly to the community. The primary objective is to allocate costs from departments that provide services internally to operating departments that conduct the day-to-day operations necessary to serve the community. These internal service costs are those: (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the central service departments. Typical central service departments include the City Manager and City Controller, whereas typical operating departments include Fire, Public Works, and enterprise funds.

To ensure central service department costs are appropriately allocated to the operating departments, we analyzed and identified expenditures to determine which costs are allowable versus unallowable in accordance with Office of Management and Budget (OMB)-87 principles. Costs that are typically considered to be unallowable include, but are not limited to: General Advertising, Entertainment, Award Ceremonies, Capital Improvements, Bad Debt, Lobbying, Contingencies, Legislative Body (City Council), Debt Service, Promotional Items.

As such, unallowable costs were excluded from this CAP, including indirect costs associated with City Council (reflected as a negative number under allowable costs).

**SUBJECT:** **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COMPTON AUTHORIZING THE CITY MANAGER TO ISSUE A PURCHASE ORDER TO WILLDAN FINANCIAL SERVICES FOR CDIAC, CONTINUING DISCLOSURE, & ARBITRAGE SERVICES FOR SALES TAX REVENUE BONDS, SERIES 2021 ($8,850)**

## SUMMARY

Adoption of this resolution will authorize the City Manager to issue a purchase order to Willdan Financial Services ("Willdan") to provide CDIAC, Continuing Disclosure and Arbitrage Services for the City of Compton's Sales Tax Revenue Bonds, Series 2021 for Fiscal Year 2022-2023.

## BACKGROUND

The City needs technical expertise in several disciplines to advance the goals and policies of the Mayor and Council in order to actively respond and implement bond disclosure requirements applicable to the City of Compton. In March of 2021 the City issued Tax Revenue Bonds, Series 2021. As part of the agreements reached in the bond transaction, including the Continuing Disclosure Agreement, it was required that the City perform certain disclosures activities. One of the required activities is to disseminate and post the required disclosures in a pre-determined and designated location, also known as a municipal bond disclosure platform. The City does not have the technical knowledge to efficiently perform these required postings. Therefore, the City is in need of an agent to disseminate and to post onto municipal bond platforms certain required disclosures related to its bond-related activity on an on-going basis.

A description of the City's Bond issuance for which Wildan was assisting with posting disclosures is as follows:

- **Tax Revenue Bonds Series 2021**
  On March 23, 2021, the City issued $37,120,000 of Lease Revenue Bonds with an interest rate of 4.00% and to finance various capital projects amounting to $37,782,295.45.
  The Independent Cities Finance Authority (the "Authority") is a joint powers authority created pursuant to a joint exercise of powers agreement, dated May 5, 1988, as amended, and the joint exercise of powers law of the State of California. The Authority has 7 members and 71 associate members. The Bonds are being issued to finance the design, acquisition, and construction of certain local roadway and street improvement projects (collectively, the "Projects") in the

City, fund a debt service reserve fund for the Bonds and to pay the costs of issuing the Bonds.

The Bonds are payable from the Revenues pledged under the Trust Agreement. The Revenues consist primarily of Installment Sale Payments (the "Installment Sale Payments") to be made by the City to the Authority and of certain funds held under the Trust Agreement and investment earnings thereon (collectively with the Installment Sale Payments, the "Revenues"). The Authority will sell the improvements to the City pursuant to an Installment Sale Agreement, dated as of March 1, 2021 (the "Installment Sale Agreement"), by and between the Authority and the City.

Under the Installment Sale Agreement, the Installment Sale Payments are payable from and secured by a first lien on:

- all Measure M Receipts (as such term is defined herein), which consist of certain amounts received by the City from a 0.5% retail transactions and use tax that is collected by the County; and

- all Measure R Receipts (as such term is defined herein), which consist of certain amounts received by the City from a 0.5% retail transactions and use tax that is collected by the County through June 30, 2039; and

- all Proposition C Receipts (as such term is defined herein), which consist of certain amounts received by the City from a 0.5% retail transaction and use tax that is collected by the County.

The Measure M Receipts will only be available to pay Installment Sale Payments to the extent such Installment Sale Payments are attributable to a Measure M Project, the Measure R Receipts will only be available to pay Installment Sale Payments to the extent such Installment Sale Payments are attributable to a Measure R Project, and the Proposition C Receipts will only be available to pay Installment Sale Payments to the extent such Installment Sale Payments are attributable to a Proposition C Project, as reflected in a certificate of an Authorized City Representative delivered to the Depository Bank and the Trustee. All of the Projects financed using proceeds of the Bonds constitute a Measure M Project and a Measure R Project.

Per the Official Statement of the Tax Revenue Bonds Series 2021**,**

## STATEMENT OF THE ISSUE

In November 2021, the City entered into an agreement with Willdan to perform these bond disclosure and dissemination services for the Tax Revenue Bonds, Series 2021, however the agreement was later deemed invalid. Staff that was unaware of the invalidity of the agreement with Willdan continued to use Willdan's disclosure services, until the discovery of the invalidity of the agreement.

At this time, City staff have deemed that the services performed by Willdan were satisfactory and consistent with the City achieving its goals for compliance with the continuing disclosure agreement.

Resolution No. 25,001, adopted by the City Council on April 23, 2019, the City Manager is authorized to expend up to $25,000.00 to any one single vendor in a fiscal year; however, Willdan Financial Services has reached the $25,000 expenditure threshold for Fiscal Year 2022-2023. In order for the City Manager to issue a purchase order to this vendor for prior professional services rendered, City Council's approval is requested.

Additionally, staff has issued a Request for Proposal (RFP) to search for a firm to provide these bond-related-disclosure dissemination and posting services, which was closed on May 10th, 2023. This RFP received no responses, and therefore another RFP will be issued. Once the lowest responsible bidder is identified, staff will work to ensure that the agreement that gets signed will be reviewed and approved by the proper channels to avoid this situation in the future.

## FISCAL IMPACT

A Purchase Order payable to Willdan Financial Services will be issued in the amount of Eight Thousand Eight-Hundred-Fifty Dollars ($8,850.00) Funds are available in the MTA Tax Bond Fund Account 3031-710-000-4262 as adopted in the Fiscal Year 2022-2023 Budget.

Staff recommends the adoption of the attached Resolution.

## SECTION VIII – TERMINATION

Either party may terminate this Agreement at any time by giving thirty (30) days' written notice to the other party of such termination. If this Agreement is terminated as provided herein, WFS will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of WFS covered by this Agreement, less payments of compensation previously made.

B. If, within thirty (30) days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will jointly appoint a mutually-acceptable neutral person not affiliated with either of the parties (the "neutral"), seeking assistance in such regard if they have been unable to agree upon such appointment within forty (40) days from the initial meeting. The parties shall share the fees of the neutral equally.

C. In consultation with the neutral, the parties will select or devise an alternative dispute resolution procedure ("ADR") by which they will attempt to resolve the dispute, and a time and place for the ADR to be held, with the neutral making the decision as to the procedure, and/or place and time (but unless circumstances require otherwise, not later than sixty (60) days after selection of the neutral) if the parties have been unable to agree on any of such matters within twenty (20) days after initial consultation with the neutral.

D. The parties agree to participate in good faith in the ADR to its conclusion, as designated by the neutral. If the parties are not successful in resolving the dispute through the ADR, then the parties may agree to submit the matter to binding arbitration or a private adjudicator, or either party may seek an adjudicated resolution through the appropriate court.

# CITY OF COMPTON
# DEBT MANAGEMENT POLICY

## INTRODUCTION

A properly managed debt program can promote economic growth and enhance a City by maximizing limited resources for quality public services. The purpose of the City of Compton (the "City") Debt Management Policy (the "Policy") is to establish guidelines for issuing and managing bonds and other forms of indebtedness associated with capital markets (including private placement and bank loans) and for the selection and management of financial services and products; to provide guidance regarding the appropriate use of debt and other repayment obligations of the City; and to comply with Government Code section 8855(i), which became effective January 1, 2017.

This Policy confirms the commitment of the Council, staff, management, and other decision makers to adhere to sound financial management practices, including full and timely repayment of borrowing and achieving the lowest possible cost of capital with prudent risk parameters.

This Policy will also apply to debt issued by the Compton Public Finance Authority, Compton Local Housing Authority, and any other public agency for which the City Council acts as the legislative body.

## SECTION 1- POLICY OBJECTIVES

The Policy objectives are as follows:

1. To achieve lowest cost of capital and encourage prudent decision-making regarding debt issuance so that long-term financing commitments are affordable;

2. To ensure that all debt is structured to protect both current and future taxpayers, ratepayers, and City constituents;

3. To restore and protect the City's credit rating, minimize the City's borrowing costs, and avoid undue risk or burden;

4. To establish conditions of debt and to incorporate best practices into the City's issuance and administration of its indebtedness while meeting the requirements of state and federal law and regulation, including federal requirements regarding disclosure and compliance with tax-exemption rules;

5. To ensure that the City's debt is consistent with the City's planning goals and objectives and capital improvement program or budget, as applicable;

6. To maintain good relations with investors in City debt;

## SECTION 2- USES AND LIMITS ON INDEBTEDNESS

Debt is useful for financing capital projects too large for the annual budget. Debt allows the ability to share the cost of major improvements between current and future taxpayers and/or ratepayers. It also accelerates the delivery of a project compared to funding on a pay-as-you-go-basis. However, annual debt service represents a fixed cost that will compete with other expenditures in the City's budget and cannot be deferred in any given year. In order to achieve the proper balance in its use of debt, the City will follow the following policy goals:

- The City will not use debt to finance operating expenses, except to alleviate cash-flow timing issues within a fiscal year

- The City may consider use of debt in the event of an extraordinary expense, such as the financing of a major judgment

- The City may consider debt if an opportunity to restructure existing liabilities arises, such as with pension obligation bonds.

- The City will plan for capital improvements and maintenance as part of its budgeting process, seeking to set funds aside in advance of need so that most capital projects can be financed on a "pay-as-you-go" basis, if funds are available and the projects can be completed over multiple years. In general, debt financing will be reserved for very large capital expenditures.

- The City shall not incur obligations paid out of the General Fund where annual debt service exceeds Thirty percent (30%) of annual (fiscal year) General Fund appropriations. Debt that is backed by the General Fund but expected to be paid out of other revenues may be deducted from this calculation, provided that the City can identify a reliable record of collecting such revenues, net revenues after operating expenses provide reasonable coverage over debt service and the City expects that the available revenues will be at least sufficient to cover debt service for the remaining life of the obligations. This calculation of lease debt burden will be contained in any staff report recommending the approval of any such new obligations.

## SECTION 3- TYPES AND SCOPE OF DEBT AND OTHER OBLIGATIONS

This Policy governs the issuance and management of all debt and lease financing activity by the City, including bonds issued through the City's financing authorities (the "Authorities"). In order to maximize financial options to benefit the public, the City shall consider all generally accepted types of debt, including, but not limited:

- **Voter-approved indebtedness**: The City can issue general obligation (GO) bonds with approval of 2/3 of those voting at an election, per the California law (the State Constitutional Debt Limit, which imposes certain requirements for debt specifically secured by property taxes) General obligation bonds are appropriate for constructing or improving property that benefit the public at large, such as libraries, parks and public safety facilities, if 2/3 voter approval is obtained at an election. The City could also

seek 2/3 approval of a parcel or other special taxes (levied on a basis other than assessed valuation) that could be used to secure debt service on bonds. Such bonds would be repaid out of a supplemental property tax, levied based on the value of property.

- **Lease-Backed Debt/ General Fund lease obligations**: Lease- Backed Debt allows a City to finance projects using a lease agreement with budgeted payments from the City's general fund to secure the debt service. This type of debt obligation does not require voter-approval nor is there a legal limitation on the amount. Common examples of lease obligations are publicly offered lease revenue bonds, certificates of participations, or private placements (financing leases that are privately placed with a bank Although there is no legal debt limitation, there are practical budget limitations of debt affordability. The structures of these obligations are subject to various conditions articulated in the case law that established this exception to voter approval. In addition, a City can incur other long-term obligations payable from general revenues that do not involve leases, including installment purchase agreements, judgment obligation bonds and pension obligations.

- **Cashflow borrowings**: The City can issue Tax and Revenue Anticipation Notes that are repaid out of current fiscal year revenues to smooth any temporary cash shortages.

- **Revenue Bonds/Enterprise revenue debt**: Revenue Bonds are limited-liability obligations tied to a revenue stream from the financed project. Examples of projects that would be financed by a Revenue Bond would be water or wastewater improvements; these projects' revenues from rates and charges fund the debt service. These obligations come in the form of revenue bonds, certificates of participation, or State loans. The market requires that, if enterprise revenue debt is issued, the City maintain rates sufficient to pay operations and maintenance of the system and provide a measure of coverage of debt service. Generally, no voter approval is required to issue this type of obligation; however, the City might have to comply with Proposition 218 in regards to rate adjustment.

- **Special Assessment/ Special District Debt/Mello-Roos Special Tax bonds**: The City can form assessment districts, with majority property-owner approval, to finance projects that provide special benefit to the property. Similarly, property-owners of undeveloped land can approve Mello-Roos special taxes or assessments to finance public improvements, generally referred to as land-secured debt. At the time any such debt is considered in the future, specific land-secured policies should be drafted for Council consideration, consistent with State law (for Mello-Roos districts) and best practices in order to protect bondholders and the City's credit rating.

- **Tax allocation bonds**: Tax allocation bonds are special obligations that are secured by the allocation of tax increment revenues that are generated by increased property taxes in the designated redevelopment area. Tax allocations bonds are not debt of the City.

- **Conduit debt**: Cities can also issue tax-exempt bonds to lend the proceeds to certain non-profit corporations and other activities. There are also various statewide authorities to facilitate such tax-exempt financing.

**SECTION 4- METHOD OF SALE**

Debt can be sold at a "public offering" through the sale of bonds, either through a competitive or negotiated sale, or through a private placement with a bank or other institution.

- **Competitive bidding process**- interested underwriters submit proposals to purchase an issue of bonds. Award is based on lowest offered true interest cost, among other things
- **Negotiated sale process**- a selected underwriter, or team of underwriters, negotiate terms of an issue and sell bonds in municipal market. A negotiated sale is subject to approval by City to ensure that interest costs are in accordance with comparable market interest rates.
- **Private (or direct) placement sale**- occurs when financing can or must be structured for a single or limited number of purchasers or where terms of private placement are more beneficial to the City than either negotiated or competitive sale.

The best method of sale depends on the type of security, credit factors, and market conditions. The basis for the recommendation for the method of sale will be included in any staff report recommending the approval of any such new debt obligations. The City Manager or his/her designee shall determine the appropriate method of sale.

The City will consider a limited public offering or privately placing its debt for small and/or short-term borrowings or in instances where difficult credit or disclosure considerations or other special circumstances so warrant.

The City will consider the issuance of debt thru conduit issuers when the conduit issuer offers a financing program beneficial to the City which is cost effective or reduces associated administrative burdens.

**SECTION 5- DEBT FINANCING TERMS AND STRUCTURE**

The City Council acknowledges that any new debt obligation will have an impact on long-term affordability of all future planned debt and any existing debt. New debt obligation might also have budgetary impact regarding operating and maintenance costs of debt-financed facilities.

Long-term debt financing of capital projects will be amortized over a period no longer than the useful life of the assets being financed, and should not exceed thirty (30) years.

Debt service will generally be structured to be level over the length of the bonds. Alternate debt structures that wrap new debt around existing debt to achieve overall level debt service or other financial planning goals appropriate to the specific project may also be considered.

The dates for which debt service is scheduled (typically semi-annually) will take into account the revenues cashflows revenues that funds the debt.

- **Debt Service Reserve Fund-** A debt service reserve fund provides an added measure of security to bond holders and may improve credit rating and lower borrowing costs. Some transactions require a debt service fund, or the City may create one if determined to be beneficial. the City may fund a debt service fund out of bond proceeds no greater than the amount allowed under federal tax law or required by the market. The City may consider the ues of surety bonds, lines of credit, or similar instruments to satisfy reserve requirements.

- **Credit enhancement**- The City will consider the use of credit enhancements such as bond insurance, surety bonds, letters of credit, if proven to be cost effective. Andon a case-by-case basis. The cost-benefit of insurance will be evaluated through the final maturity and through the first optional call date, recognizing that municipal bonds are commonly refunded prior to maturity. The City will consider the use of a surety policy in lieu of a cash funded reserve, but in doing so will consider estimated earnings on a cash funded reserve and the cost of replacing that surety at the time of a potential refunding, if applicable.

- **Capitalized Interest**- In cases where funding interest payments out of bond proceeds during construction is required, such as lease revenue obligation. the City will consider leasing an existing municipal asset (an "asset transfer") in order to reduce or eliminate the need to capitalize interest. In other occasions, the City will consider capitalizing interest after project completion when payment of debt service begins.

- **Variable Rate Debt**- To maintain a predictable debt service burden, the City will give preference to debt that carries a fixed interest rate. An alternative, variable rate debt, may pay interest rates that vary based on a pre-determined formula or results from a periodic remarketing of securities. It may be appropriate to issue variable rate debt to diversify the City's debt portfolio, provide greater prepayment flexibility or improve the match of variable-rate assets (investments in the City's treasury) to liabilities. The City's cost for administering variable rate debt, including the renewal or replacement of bank facilities, should be considered when comparing fixed and variable rate debt. Other factors to consider are the life of the project or facility being financed, market conditions, credit risk, third party risk analysis, and overall debt portfolio structure. The City acknowledges variable rate debt may pass an unknown obligation onto future budget cycles. Prior to issuing variable rate bonds, the City shall amend or supplement this Policy to further address variable rate considerations.

- **Disclosure**- For all public sales of debt, the City will retain the services of disclosure counsel (who may also serve as bond counsel) to prepare the Official Statement to be used in connection with the offering and sale of debt. Appropriate staff will be asked to review this document for accuracy and completeness of material investor information. r. The City will make every effort to ensure the fullest disclosure possible in the City's disclosure documents, including, seeking staff training in disclosure matters. A Preliminary Official Statement will be released to the market only after the completion of the "due diligence" meetings with appropriate staff and approval in form by the Council. Use of disclosure counsel may also be appropriate in private placements

in some circumstances. The City will comply with policies adopted from time to time by the City Council or the City Manager relating to compliance with federal securities laws and disclosure requirements.

- **Credit Ratings**- The City seeks to acquire and maintain the highest possible credit rating when issuing debt. In addition, The City will work to increase ratings when the opportunity to do so exists. The Designated City Representative, in consultation with the Municipal Advisor and other members of the financing team, will seek credit ratings from at least one major credit rating agency on any given bond issue. The Designated City Representative will periodically communicate with the agencies rating the City's debt so that they will remain well-informed.

- **Derivatives-** The City will not use interest rate swaps for its debt program unless a separate swap policy is approved by the City Council. The City may use derivative-like investment products to invest bond funds, but only upon staff's analysis of the investment. This will be presented as part of the staff report that details financing and requires specific approval as part of the Council action.

- **Refunding Bonds-** The City will periodically review its outstanding debt portfolio to identify opportunities to achieve net economic benefits from refunding its bonds. Recognizing that the City's ability to refund its debt maybe limited, because of federal tax law constraints on advance refundings and the market practice of making most fixed-rate bond issues non-callable for their first ten years, the City will seek to deploy its refunding options prudently. The City will consider a refunding if there is a net economic benefit of at least three percent (3%) of net present value ("NPV") savings. A higher threshold may be warranted if the City does not receive 100% of the savings benefit (such as when refunding tax allocation bonds) and/or if it must incur significant non-contingent costs relative to the potential savings. The City may also consider a refunding for a non-economic purpose, including the change in covenant, call provisions, retirement of an indenture for more desirable covenants, operational flexibility, a change in tax status, or to change the type of debt instrument, or other noneconomic factors related to the debt

  **Partial Refunding-** When it is practical to consider a partial refunding, the analysis will be performed on a maturity-by-maturity basis. Some factors to consider in this case would be: the length of the period before the call date (the longer the period the savings target would be higher the longer the period), the length of time after the call date (the target could be lower, due to savings being more difficult to attain with a shorter maturity), and any other factors that assist in considering the value of a call option.

When structuring its bond issues, the City will take into consideration the coupon structure of its debt (i.e., discount bonds or premium bonds that mature after the call date) and its impact on its option to execute a refunding. The City will also structure its bond issues with an optional call no longer than ten years from the date of issuance in order to accommodate the future potential for refunding An exception to this policy

would be a taxable bond issue, where the additional interest cost required for an optional call might outweigh the benefits.

- **Tax Exemption-** The bond proceeds of tax-exempt bond issues are subject to various IRS rules and regulations. The IRS Tax Code Section 141 sets requirements of private activity tests regarding security and payment, private use, and private loan financing. The City will take necessary actions to comply with tax law requirements applicable to each of the City's tax-exempt issues, and will periodically review the specific post issuance compliance procedures identified in the tax documents for its tax-exempt financings.

  The City will monitor and control the receipt, investment, expenditure, and use of all bond proceeds and will take action as necessary to cause interest on tax-exempt bonds to remain excludable from gross income of bond holders.

- **Continuing Disclosure**- Under the Securities and Exchange Commission Rule 15c2-12, the City is required on an ongoing basis to provide certain financial and operating data to those who own or are interested in purchasing the City's bonds and other securities. The City has entered into various continuing disclosure agreements and will be required to enter into them with new bond issues. The agreements require the filing of certain annual reports and certain notices of material events. The City will comply with policies adopted from time to time by the City Council or the City Manager relating to compliance with federal securities laws and disclosure requirements.

- **Investment of Bond Proceeds-** The City's Investment Policy will govern the investments of bond proceeds. The Investment Policy hall be reviewed from time to time, with the requirements contained in the governing bond documents. The City will consult with legal counsel whenever investment agreements are used in connection with a tax-exempt bond issue to ensure that these investments comply with the requirements of Federal tax law.

- **Interfund Loans**- In lieu of issuing bonds or otherwise borrowing from third-parties, there will be situations that the most appropriate means for the City to borrow money will be through a loan from a well-capitalized City fund. Such Interfund Loans can be seen as an alternative investment of temporarily surplus City funds, which normally would be invested at a short-term rate as part of the City's pooled investment program. In approving any new Interfund Loan, the City Council will adopt a resolution that sets forth the terms of the loan, which will include:

  a. The interest rate that the loan will bear until repayment. Appropriate interest rates may be a rate that is reasonable for the City to meet the terms and conditions of the loan repayment.
  b. The terms under which the loan will be repaid such as frequency of payment (monthly, semiannually, annually), interest calculation method (360/365, monthly, annually), date of repayment (first of the month, last day of the month,

etc.), no prepayment penalty, and allows for prepayment/early repayment/accelerated payment options and other payment terms.

c. Periodic payment amount and the maturity date of the loan.

d. A statement of such expectations so as to satisfy the federal tax law requirements for reimbursement bonds, if the loan will be repaid from the proceeds of tax-exempt bonds.

**SECTION 6- DEBT MANAGEMET AND ADMINISTRATION**

The City's debt program shall conform with applicable state, federal, and other legal requirements. Debt obligations shall be presented to the City Council for their authorization with recommendations from the City Manager and/or other Designated City Representatives. Departments involved in debt-financed capital programs shall work closely with the City Manager and/or other appropriate staff to provide information and assist in facilitating the issuance and on-going administration of debt.

The City Manager, or City Treasurer, and/or the City Controller, or his/her designee (the "Designated City Representative"), is hereby appointed as the City official responsible for the following:

- Ensuring that the City's debt is administered in accordance with its terms, federal and State law and regulations, and best industry practices.
- Debt issuance including reviewing and recommending appropriate structures for new debt issuances
- Debt management, including assigning staff with certain day-to-day responsibilities.
- Working with the City Manager, City Controller and other staff deemed appropriate in formulating the City's debt management plans, executing these plans, and ensuring appropriate debt management.
- Keeping the City Council informed of the City's debt-related activities through informational reports, briefings, or workshops.
- Select service providers as necessary to assist meet legal requirements, assist with the debt issuance, and minimize debt costs. Such providers may include bond and disclosure counsel, financial advisors, underwriters, trustees, verification agents, escrow agents, arbitrage consulting, special tax consulting, and other consultants as needed.
- Communicating with rating agencies, investors, and other debt related service provides about the City's financial condition
- Review outstanding debt for refunding opportunities
- Maintain compliance with the Investment Policy and disclosure requirements in the City's Disclosure Policy

## SECTION 7- FINANCING PROFESSIONALS

The Designated City Representative, in consultation with the City Manager, will recommend to the City Council the various members of the financing team, based on prior experience, recommendations or a request for proposal process.

- **Bond and Disclosure Counsel-** Bond counsel is a specialized legal practice responsible for drafting legal documents and providing necessary opinions and will be appointed for any financings. For all public sales of debt, the City will use the services of counsel to prepare the official statement. The Designated City Representative will recommend for City Council approval whether to select another law firm to provide the services of disclosure counsel or to assign such duties to bond counsel. In the case of limited public offerings, the Designated City Representative may authorize the underwriter's counsel to draft the offering memorandum.
- **Municipal Advisor**- The municipal advisor is a consultant hired to assist the City in evaluating financing options, structuring of its debt offerings, making recommendations as to the method of sale, conducting competitive bond sales, and assisting with bringing negotiated bond sales to market, including making recommendations to the City on proposed interest rates, prices and yields in light of market conditions and the characteristics of the bonds. The City will retain the services of a municipal advisor on all private or publicly offered debt issues, unless the City Manager determines that retention of a Municipal Advisor is not necessary or appropriate for a particular debt issuance.
- **Underwriter-** If the City decides to use a competitive sale method, the underwriter will be selected based on the best interest of the City. At those times that the City decides to issue its debt through a negotiated sale, it will select one or more underwriters.
- **Trustee-** The Designated City Representative shall recommend to the City Council the selection of a commercial banking firm as trustee in connection with any given financing.

Other financial professionals or firms may be required for particular bond issues. For example, a verification agent is typically necessary for refundings, while tax increment financings commonly require an independent fiscal consultant's report.

## SECTION 8- RELATIONSHIP OF DEBT TO CAPITAL IMPROVEMENT PROGRAM

Because the City is committed to long-term capital planning, the debt the City issues will align with the standards of this Debt Policy as it implements the policy decisions incorporated in the City's capital budget component of its annual budget. The City shall integrate its debt issuances with the goals of its capital improvement program by considering when projects are needed in furtherance of the City's public purposes in determining the timing of debt issuance.

The City shall seek to avoid the use of debt to fund recurring infrastructure and facilities improvements in circumstances when the primary purpose of such debt financing is to reduce annual budgetary expenditures, such as normal wear and tear.

The City believes that prudent amounts of debt can be an equitable and cost-effective means of financing major infrastructure and capital project needs of the City. The City will evaluate the benefit and risks of each proposed issue of new debt on a case by case basis, considering such factors as the City's overall fiscal health, the potential impact of increased debt service on then current service levels and other long-term considerations such as funding requirements for pensions and other post-employment retirement benefits. The City will review debt limits in conjunction with any proposed financing. In general, debt may be considered to finance such projects if it meets the following minimum criteria:

- It meets the City's goal of distributing the payments for the asset over a substantial portion of its useful life so that benefits more closely match costs for both current and future residents.

- The need for the project is compelling in terms of on-going cost savings or the needs for public safety or services, and the size of the project makes funding out of existing resources or near-term revenues impractical.

## SECTION 9- INTERNAL CONTROL PROCEDURES

In addition to complying with the terms of this Debt Policy, the City shall comply with other applicable policies regarding bond disclosure, continuing disclosure, post-issuance compliance, and investment of bond proceeds. The City will periodically review the requirements of and will remain in compliance with SEC Rule 15c2-12 continuing disclosure undertakings, and federal tax compliance requirements, including arbitrage and rebate compliance, relating to prior bond issues. The City will use bond proceeds in accordance with stated purpose at time debt was issued.

The proceeds of debt will be held by a third-party trustee and the City will submit written requisitions for such proceeds. The City will submit a requisition only after obtaining the signature of the Designated City Representative. In those cases where the proceeds of debt are not to be held by a third-party trustee, the Designated City Representative shall be responsible for approving expenditures in the same manner as the approval for the expenditures for City revenues.

## CONCLUSION

This Policy is intended to guide and regulate the City's issuance and administration of debt. Due to changes in capital markets, the City's needs, identification of other best practices, other unforeseen circumstances, the Policy should be reviewed and updated periodically in order to best achieve the City's overall goals.

Any deviations from this Policy that is recommended by staff should be presented in a staff report transmitting the resolution for approval of the financing.

The specific nature of the information to be contained in the Annual Report and the notice of material events is set forth in "APPENDIX C – FORM OF CONTINUING DISCLOSURE AGREEMENT" herein.

**Prior Undertakings.** During the past five years, the City has failed to timely file certain annual reports, notices of failure to file annual reports, and notices of rating changes required to be filed pursuant to several continuing disclosure agreements entered into by the City (the "Undertakings").

The Undertakings require the City to file annually its audited financial statements and operating data (the "Annual Reports"), and certain listed material events. The Undertakings allow for the filing of unaudited financial reports, followed by the filing of audited financials, if the audited financial report is not available on the date of the filing deadline. As discussed under "CITY OF COMPTON—City Financial Statements and Internal Controls," the City has not produced audited financial statements for Fiscal Years 2014-15 through 2016-17 and has no plans to produce audited financial statements for those years. As a result, the City filed only unaudited financial statements for Fiscal Years 2014-15, 2015-16 and 2016-17, on February 29, 2016, December 26, 2019 and December 26, 2019, respectively.
