On October 15, 2024 Dominion filed its 2024 Integrated Resource Plan (“IRP”) with the Commission (the “Plan”). Dominion indicates that the IRP spans a period of fifteen years. The IRP outlines the company's load requirements and strategies to fulfill these obligations during this timeframe, ensuring affordable rates, dependable service, energy self-sufficiency, and environmental consciousness.

Procedural Rule 80 B requires a respondent to include in its notice of participation a precise statement of the respondent’s interest; a statement of the specific action sought to the extent then known; and the factual and legal bases for the action.<sup>3</sup> As customers of Dominion, the Committee’s members are directly affected by Dominion’s ability through its supply- and demand-side resources, to promote reasonable prices, reliable service, energy independence, and environmental responsibility and will thus be directly affected by the outcome of this case. The Committee therefore will participate as a respondent in the case to protect its members’ interests. The Committee has not determined the specific actions it will seek or the factual or legal bases for those actions.

The Committee’s review of the Plan is ongoing. The Committee reserves the right to address any issues raised at any time during the course of the proceeding.

WHEREFORE, the Committee gives notice that it will participate as a respondent in this proceeding.

Respectfully submitted,

---
