**BEFORE THE NEW MEXICO PUBLIC REGULATION COMMISSION**

**IN THE MATTER OF AN INQUIRY INTO ELECTRIC  
PUBLIC UTILITIES' VEGETATION MANAGEMENT  
PLANS AND PROCEDURES**) ) Case No. 22-00154-UT

**UNOPPOSED JOINT MOTION TO ESTABLISH WORKSHOP SERIES  
ADDRESSING WILDFIRE MITIGATION ISSUES**

Public Service Company of New Mexico (“PNM”), Southwestern Public Service Company (“SPS”), Western Resource Advocates (“WRA”), Coalition for Clean Affordable Energy (“CCAE”) and County of Bernalillo (“County”) (“Movants”) hereby respectfully request that the New Mexico Public Regulation Commission (“Commission” or “NMPRC”) establish a series of workshops in this Inquiry Docket to address wildfire mitigation issues that impact regulated public utilities across the state. As grounds, the Movants state:

1. The Commission opened this docket through its June 15, 2022 *Notice of Inquiry* to consider the adequacy of public utility wildfire protection and vegetation management plans, and their impacts on electrical service to customers and to grid reliability. Various utilities filed responses to the initial *Notice of Inquiry* on July 6, 2022.
2. On November 8, 2022, the Commission issued a *Bench Request* seeking individual responses from the investor-owned electric utilities and the rural electric cooperatives, and the utilities provided their further responses on November 17, 2022.
3. On May 1, 2024, PNM filed its most recent Wildfire Mitigation Plan together with its Public Safety Power Shutoff Plan.
4. On October 30, 2024, the New Mexico Energy, Minerals and Natural Resources Department’s Forestry Division filed initial comments in response to the Commission’s 2022 *Notice of Inquiry* and *Bench Request*.

5. On December 30, 2024, Southwestern Public Service Company filed its Wildfire Mitigation Plan.

6. The *Notice of Inquiry* and *Bench Request* raise issues of critical concern regarding the range of planning and degree of coordination by, among and between public utilities, state agencies and first responder organizations throughout New Mexico.

7. Movants believe that a series of informational workshops on wildfire planning and mitigation efforts, and coordination among public utilities, state agencies and first responder organizations is necessary and appropriate to help promote wildfire readiness and coordinated responses by public utilities particularly during high-risk times of year.

8. Some potential topics for consideration for a workshop series include:

- a. Utility presentation of status of and guidelines for utility resiliency measures, wildfire mitigation and public safety power shutoff planning;
- b. Coordination and training status and opportunities among public utilities, state agencies and first responder organizations, including the creation of Community Wildfire Preparedness Plans;
- c. Risk Assessment methods and activities, including wildfire insurance best practices;
- d. Emergent situational awareness efforts;
- e. Routine and responsive Vegetation Management Programs and Plans generally and responsive to wildfire mitigation practices;
- f. Operational and physical practices (other than Vegetation Management) that target wildfire mitigation; and

g. Grid hardening technological advancement opportunities, including opportunities to pilot new technologies and share results.

9. Movants believe a series of workshops will be most informative by inviting a range of stakeholders to attend and participate. Specifically, Movants believe that the inclusion of the New Mexico Energy, Minerals and Natural Resources Department's Forestry Division, the New Mexico Department of Homeland Security and Emergency Management, the Forest Stewards Guild, the New Mexico Office of the Superintendent of Insurance, the United States Department of Agriculture - Forest Service Southwest Region 3, the National Fire Protection Association, the International Association of Fire Chiefs, the State Fire Marshal, the New Mexico Association of Counties, the New Mexico Municipal League, representatives from local and county-level fire departments, and representatives from New Mexico's Indian nations, tribes, and pueblos would allow the Commission and parties to benefit from the sharing of expertise and assistance in more proactive coordination during actual wildfire events.

10. Movants believe that a series of workshops may also assist the Commission in determining whether a rulemaking process or other directives to the regulated utilities would be warranted.

PNM circulated this Unopposed Joint Motion to Establish Workshop Series Addressing Wildfire Mitigation Issues and the following are the positions of the parties that responded: Staff, and the Mora/San Miguel Electric Cooperative stated its support, the City of Albuquerque, the New Mexico Department of Justice, Kit Carson Electric Cooperative, Inc., Lea County Electric Cooperative, and El Paso Electric Company stated it does not oppose, Springer Electric Cooperative, and Tri-State Generation and Transmission Association, Inc. stated it takes no position. No other party provided a position by the time this Motion was filed.

WHEREFORE, Movants respectfully ask the Commission to establish a procedural schedule in this docket for workshops addressing wildfire mitigation and planning efforts by regulated electric utilities.

**Respectfully submitted this 17th day of January 2025.**
