**Re: Docket No. UG-250430 – Replacement Attachment for Avista Utilities’ Natural Gas Conservation Potential Assessment (CPA)**

Dear Mr. Killip:

On May 30, 2025, in compliance with RCW 80.28.380 and Condition 3(b) of the Company’s Biennial Conservation Plan (BCP) approval (Docket UG-230898, Order 01, Attachment A), Avista Corporation, dba Avista Utilities (Avista or the Company), filed its 2026-2045 Natural Gas Conservation Potential Assessment (CPA) in the above-referenced docket. The CPA itself, as prepared by the Company’s independent third-party, Applied Energy Group (AEG), was provided as Attachment A in this filing. Avista has since become aware of several cross-reference errors within the CPA (i.e., the statement “Error! Reference source not found” in place of where the appropriate table or figure reference should be). These errors have been corrected by AEG and are provided in the attached document; this revised document is intended to replace Attachment A in its entirety.

Please direct any questions regarding this filing to Kim Boynton, Energy Efficiency Planning & Analytics Manager, at (509) 495-4744 or [kim.boynton@avistacorp.com](mailto:kim.boynton@avistacorp.com).

Sincerely,

*/s/ Jaime Majure*
