PUBLIC NOTICE

Pursuant to the Wyoming Administrative Procedure Act and the Wyoming Public Service Commission's (Commission) Rules and Regulations, notice is hereby given of High West Energy, Inc.'s (High West or the Cooperative) Application for Commission review and approval of its 2025 Wildfire Mitigation Plan (WMP), as more fully described below:

1. High West is a non-profit cooperative electric utility subject to the Commission's jurisdiction. Wyo. Stat. §§ 37-1-101(a)(vi)(C) and 37-2-112.

2. On June 23, 2025, High West filed its Application requesting Commission review and approval its 2025 WMP. WMPs must include areas that may be subject to a heightened wildfire risk, a description of the standards for inspecting infrastructure and performing vegetation management, procedures for deenergizing power lines to mitigate potential wildfires, and procedures to restore service after a wildfire.

3. High West states it has notified all municipalities, conservation districts, and counties in its service territory that the WMP has been filed with the Commission. No rate review or review of prudently incurred costs have been requested in this docket.

4. This is not a complete description of High West's Application. You may review the 2025 WMP at the Commission or online at: <https://psc.wyo.gov/public-resources/wildfire-mitigation> (enter Record No. 17871).

The Commission encourages the public's participation and comments will be received throughout the entirety of this proceeding. The opportunity to present verbal comments will be available to anyone appearing, either in person or remotely, during future public proceedings related to this matter. Submitting written comments to the Commission by the deadline set forth above may allow for resolution of issues and/or concerns identified therein.
