## UTAH DEPARTMENT OF COMMERCE

### Division of Public Utilities

MARGARET W. BUSSE  
*Executive Director*

CHRIS PARKER  
*Division Director*

## Action Request Response

**To:** Public Service Commission of Utah

**From:** Utah Division of Public Utilities

Chris Parker, Director  
Artie Powell, Manager  
Doug Wheelwright, Utility Technical Consultant Supervisor  
Eric Orton, Utility Technical Consultant

**Date:** July 5, 2024

**Re:** **Docket No. 23-057-18, Enbridge Gas Utah** 's Replacement Infrastructure 2024 Annual Plan and Budget.

## Recommendation (Acknowledge)

The Division of Public Utilities (Division) has reviewed Enbridge Gas Utah's (Enbridge or Company) filing and has determined that it contains the required information as stated in the Order in Docket No. 13-057-05. Therefore, the Division recommends that the Public Service Commission of Utah (Commission) acknowledge the Report as compliant with Commission orders.

## Background

In the final Order in Docket No. 13-057-05, the Commission adopted the terms of the Settlement Stipulation. Paragraph (22)(b) of that stipulation outlines the infrastructure tracker filing requirements which are due in April of each year. This annual reporting is intended to provide regulators with an updated Master List of all HP pipelines in its system, including new construction and replacement work.

In Docket No. 19-057-02, Dominion Energy Utah (the predecessor to the current natural gas utility) requested to move the due date back a few months and the Division did not object. In

Division of Public Utilities

its final order the Commission stated, “we find and conclude resetting the required ITP reporting date for DEU’s master lists from April 30 to June 30 will not impact ratepayers and will improve the ability of regulators to evaluate the program; therefore, we approve DEU’s proposal.” The Master Lists are now due on June 30 of each year.

On June 18, 2024, Enbridge filed its current Master Lists and replacement schedules. Also, on June 18, 2024, the Commission issued its Action Request to the Division directing it to review the filing for compliance and make recommendations by July 18, 2024. This is the Division’s review and recommendation.

## **Discussion**

In compliance with the Commission’s Order in Docket Nos. 19-057-02 and 13-057-05, Enbridge filed a cover letter with several confidential attachments: 1) The High Pressure (HP) Feeder Line Master List (HP Master List), 2) The current HP Feeder Line replacement schedule (HP Schedule), 3) The Intermediate High Pressure (IHP) belt line Master List (IHP Master List), and 4) The current IHP belt line replacement schedule (IHP Schedule).

The Division reviewed both the Master List and replacement schedules as filed by the Company. The Master List and replacement schedules contain essentially the same information as originally filed when the infrastructure replacement program began. It appears that the program is proceeding as designed and agreed to, albeit at a much slower pace.

## **Conclusion**

The letter and attachments filed on June 18, 2024, comply with paragraph (22)(b) of the Partial Settlement Stipulation in Docket No. 13-057-05 and Docket No. 19-057-02. The Division recommends the Commission acknowledge the filing as compliant. This filing does not request any change in the Company’s current rates.
