RE: STAKEHOLDER OUTREACH – SECOND QUARTER 2025
SITE REMEDIATION PLANS FOR DECOMMISSIONING THE KING PLANT
DOCKET NOS. E002/M-22-264 & E002/RP-19-368

Dear Mr. Bull:

Northern States Power Company, doing business as Xcel Energy, submits to the Minnesota Public Utilities Commission the materials from our second quarter 2025 Allen S. King Generating Plant stakeholder outreach meeting.¹ The materials are provided as Attachment A.

We appreciate the opportunity to host these meetings to provide information to King Plant stakeholders. At the June 12, 2025, meeting we provided updates on plant operations and on the Rondo Energy Battery project. In addition, Matt Poppleton, Executive Director, Wild Rivers Conservancy, provided an update to the group on the “Mobile Visitor Experience.”

We have electronically filed this document, and copies have been served on the parties on the attached service lists. Please contact me at patricia.b.leaf@xcelenergy.com if you have any questions regarding this filing.

Sincerely,

/s/

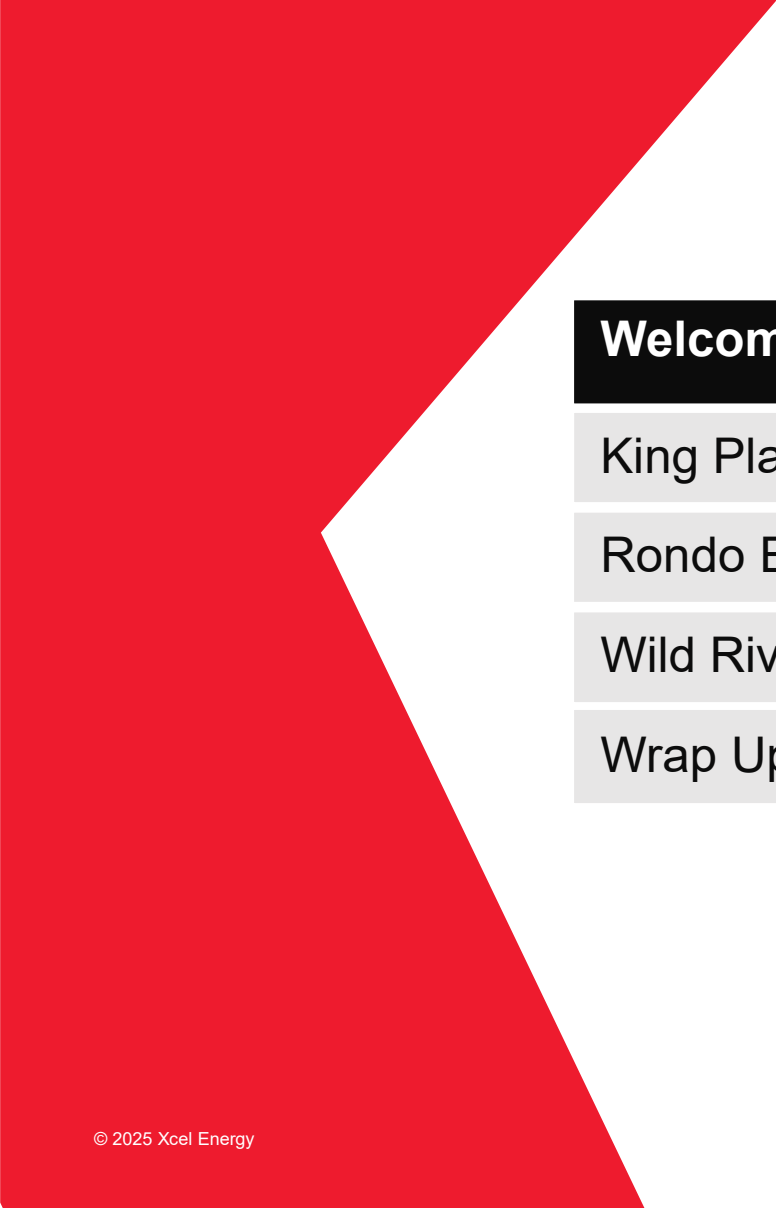

PATTI LEAF
REGULATORY POLICY SPECIALIST

Enclosures
cc: Service Lists

¹ The Workshop was hosted consistent with the Commission’s April 15, 2022 Order in Docket No. E002/RP-19-368.

Senior Innovation Technology Consultant

Rondo Energy Opportunity

Rondo Energy bid into 2024 NSP request for proposals. Their technology piqued the interest of the PUC

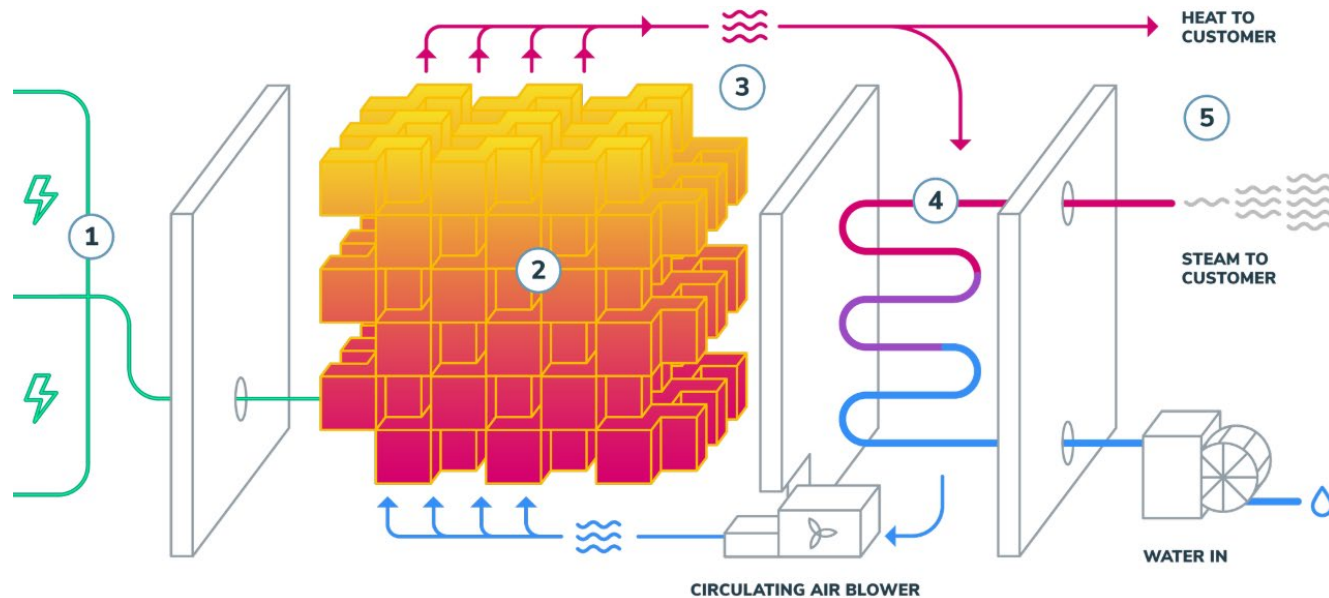

- Being an emerging technology, Rondo was not competitive but still compelling
- Rondo withdrew from the bid to work on a more complete pilot proposal with Xcel Energy

The PUC approved work towards a more appropriate pilot program:

Northern States Power Company shall continue exploring options for a thermal battery with Rondo Energy, and shall file a pilot proposal by December 31, 2025, or, in the alternative, an explanation as to why a pilot proposal would not be reasonable. If Northern States Power Company proposes a pilot project with Rondo Energy, the project shall be sufficiently large to provide learning opportunities for scalability of the thermal battery technology and potential for optimization of any renewable resources that provide energy for storage in the thermal battery.

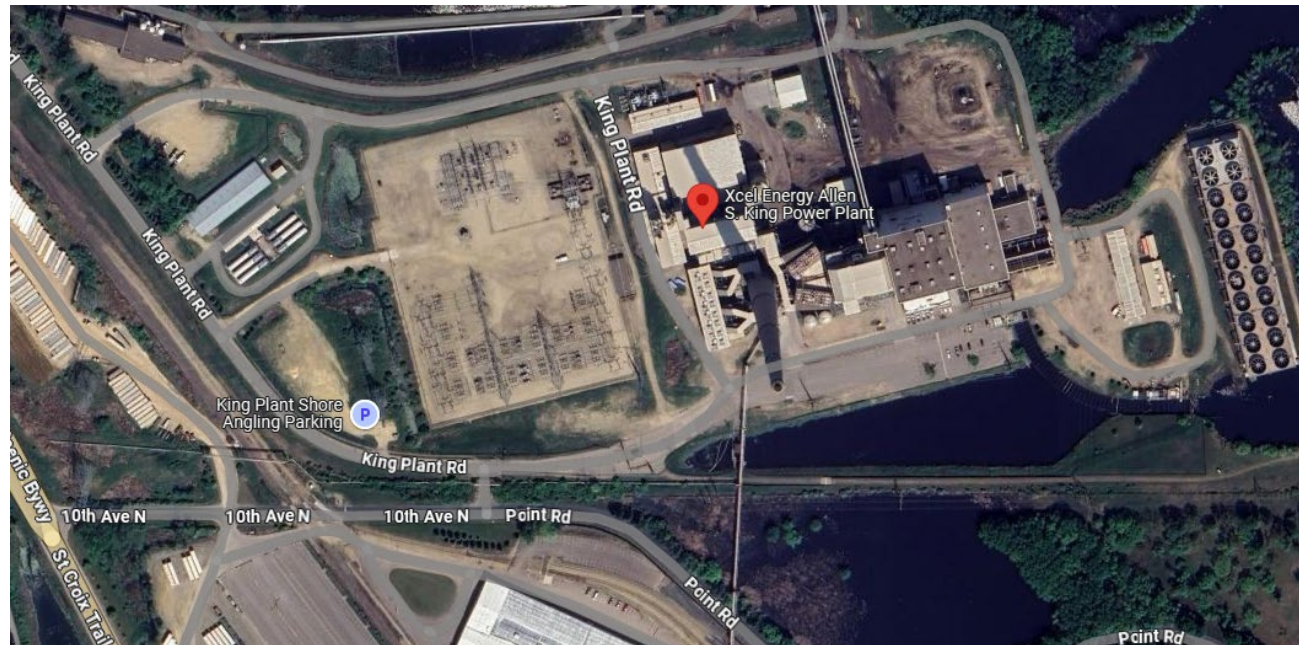

Rondo Energy Heat Battery Overview

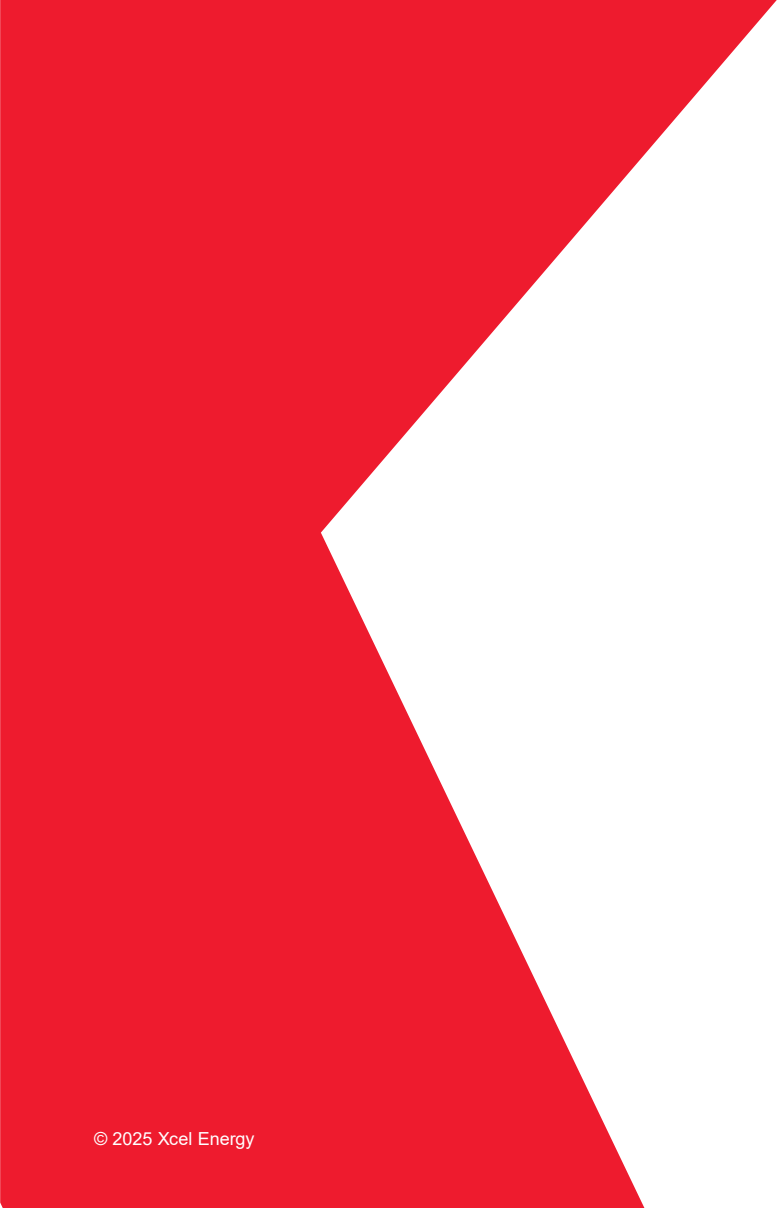

- Thermal energy storage that uses cheap electrons to heat refractory bricks for efficient storage of energy.
- Heat can be used directly or to generate steam for powering a steam turbine or industrial applications.

Potential Rondo Energy Siting

- King Plant location being considered for the project
- King Plant is retiring in 2028
- There will be space and an existing interconnection
- Rondo will provide grid-level storage
- Industry quality steam could be available to an off-taker

Questions?

Welcome

Wrap Up

Matt Poppleton

Executive Director of Wild Rivers Conservancy

Wild Rivers Conservancy & St. Croix National Scenic Riverway

Mobile Visitor Experience

Bringing the Park to the People

Wild Rivers Conservancy

We are the official nonprofit partner of the St. Croix National Scenic Riverway

We work to **protect, restore, and celebrate** the St. Croix and Namekagon Rivers.

Our Mission: To inspire stewardship to forever ensure the rare ecological integrity of the St. Croix and Namekagon Riverway.

Our Work: From conservation projects and water quality monitoring to youth education and community engagement, we connect people to the Riverway and empower them to protect it.

Our Vision: A thriving watershed—forever accessible, scenic and wild.

St. Croix National Scenic Riverway

St. Croix National Scenic Riverway

The **first** designated Wild & Scenic River National Park in the U.S.

- Protects over **200 miles** of the St. Croix and Namekagon Rivers
- Part of the **National Wild and Scenic Rivers System**
- Offers stunning scenery, outdoor recreation, and a largely untouched river environment
- **Visitor Centers** operated by the National Park Service in St. Croix Falls and Trego, WI

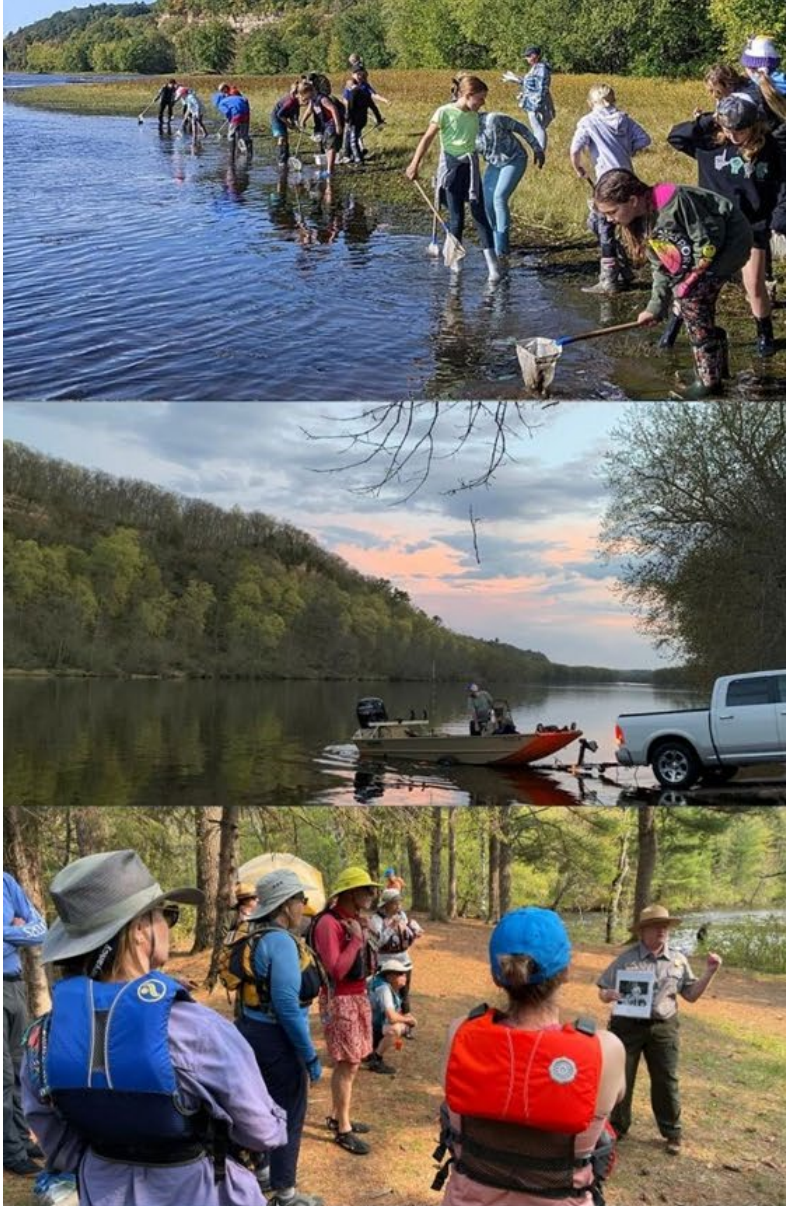

Strength in Partnership

The Conservancy and Park Service work side by side to achieve a shared vision to protect and enhance the cultural and natural resources of the Riverway.

- Education & Recreation
 - Workforce development / Internships
- Natural Resource Management
- Volunteer Opportunities

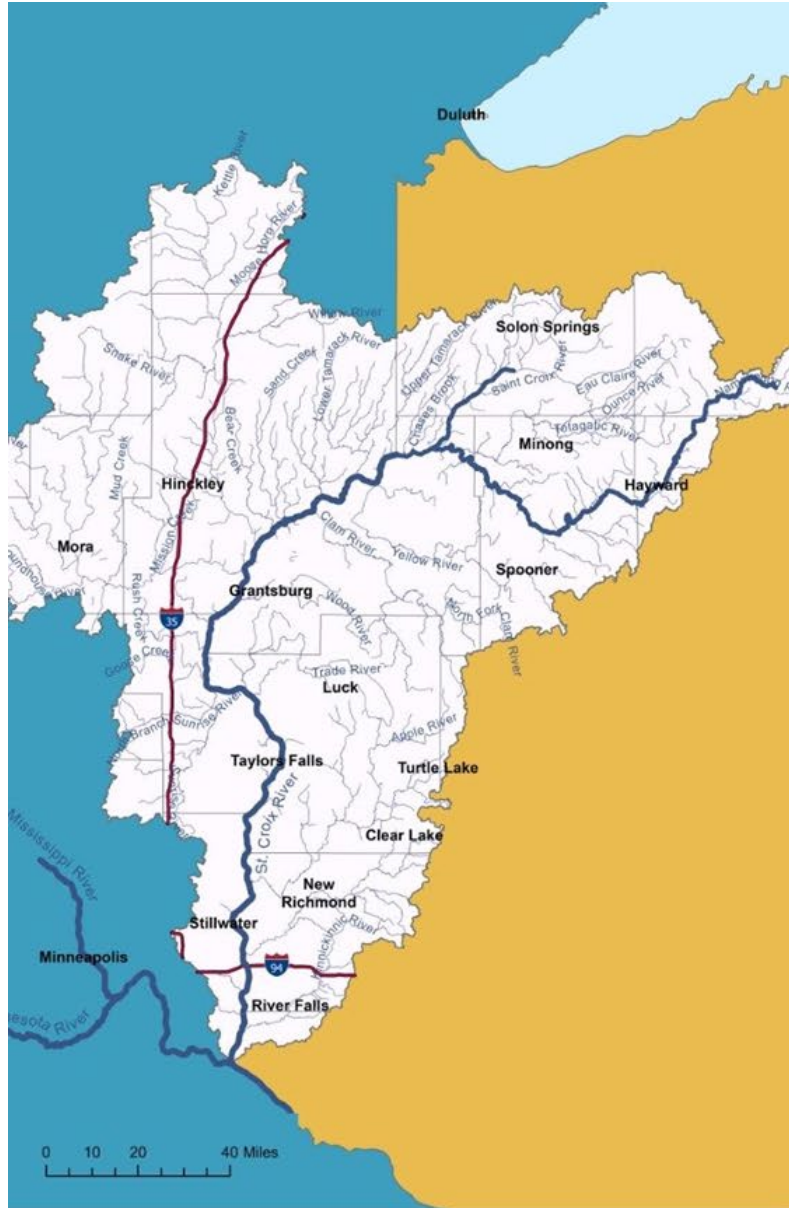

Challenge

A Unique National Park Experience

The St. Croix National Scenic Riverway stands apart from traditional parks.

- **No entrance gate** – the Riverway is open and accessible across 255 miles of the St. Croix and Namekagon Rivers
- Only **1% of nearly 1 million visitors** enter a visitor center
- **70 public landings** provide access—some host up to 1 million visitors annually
- Managed by just **30 full-time NPS staff**, with 20 seasonal employees supporting the entire Riverway

Solution - The Mobile Visitor Experience

Bring the Park to the People

A custom-designed mobile van brings the Riverway experience to communities—staffed by seasonal employees from both organizations.

- **Engage** new and returning visitors where they are
- **Learn** about river ecosystems and the role of the Riverway
- **Connect** with hands-on exhibits and educational materials
- **Inspire** responsible recreation and trip planning
- **Grow** the next generation of Riverway stewards

Sleeping Bear Dunes

Voyageurs

Shenandoah National Park

Phase 1

- Purchasing the vehicle
 - eSprinter - All electric
- Conversion of the vehicle's interior to meet program needs
- Design and installation of the educational exhibits
- Design and installation of the graphic wrap

Support

Thank you Xcel Energy as our Title Energy Sponsor!

This sponsorship builds on the collaborative partnership history between Xcel Energy, Wild Rivers Conservancy, and the St. Croix National Scenic Riverway.

- Donation of land to establish the park
- Generous operational support through grants
- Volunteers from Xcel Energy to roll up their sleeves and work on helping remove invasive species.

More work to go with making this a sustainable program for the next 10 years.

Phase 2 and Beyond

- Staffing support for the next 5-10 years
- Program scheduling and execution
- Branding and exhibit refresh
- Continued innovative updates and refinement
