Palace of Westminster

On the heels of our sightseeing tour across London, we retrace the footsteps of kings and queens. On the banks of the River Thames, the majestic Palace of Westminster fascinates with its striking Victorian Gothic architecture and iconic Big Ben clock tower. This historic landmark witnessed centuries of political and ceremonial events. Adjacent to the Palace lies Westminster Abbey, gracing its noble façade with intricate carvings and towering spires. Recognized by UNESCO as a World Heritage Site, the Palace of Westminster never fails to delight its visitors.

Famous Islands

Alcatraz

Alcatraz Island was originally explored as a seabird habitat in 1775 by Lieutenant Juan Manuel de Ayala. He named it Isla de los Alcatraces meaning Isle of the Pelicans.

During the Civil War, 1861-1865, a prisoner of war camp was erected on the island. Serving as a federal prison from 1934 to 1963, Alcatraz held some of the United States' most notorious criminals, such as Al Capone, George "Machine Gun" Kelly and Robert Stroud, also known as the "Birdman of Alcatraz". Upon its closure, it became and remains a popular tourist attraction.

FEATURE With a piece of the original meteorite

Meteorite Impacts

Tenham

In 1879, a celestial spectacle unfolded in the vast wilderness of Australia near Tenham Station, in western Queensland. Bright meteors streaked across the sky, their fiery trails carving a path from west to east, before shattering into countless extra-terrestrial fragments on the ground. In the aftermath, the precious stones were found scattered over a vast area.

The 19th issue of the «Meteorite Impacts» series takes a hypothetical comic-book-style look at how present-day society would be likely to respond to such an event.

Secret Heart

Oh, how love conquers all! A feeling that can neither be tamed nor controlled, yet when returned, it is beautiful to behold. The 2nd edition of the «Secret Heart» series enchants not only with an excerpt from William Shakespeare's Sonnet 116, but equally with its elegant design and the hidden heart waiting to be revealed when you turn the coin in your hand.

Four Leaf Clover

Gold Luck

In 1620, Sir John Melton made the first literary reference to clovers bringing good luck when he wrote "If a man walking in the fields find any four-leaved grass, he shall in a small while after find some good thing." From there, the legend stuck. Our «Four Leaf Clover» series has not been around quite as long. Regardless, we proudly bring you our lucky silver and gold charms each year. This 2024 edition is beautifully adorned with elegant filigree floral ornaments.

Lunar Year Collection

Great Gilded Dragon

Lunar Year issues are ever so popular among collectors, and CIT's Mongolian issues have become annual favourites. The 2024 issue, featuring the Year of the Dragon, celebrates the 8th anniversary of the series. In Chinese mythology, dragons are majestic beasts that dwell in rivers, lakes, oceans and roam the skies. Originally a rain deity, the Chinese dragon is associated with heavenly beneficence and fertility. As in previous years, we are delighted to add a special gilded version to the existing one-ounce silver, half-gram proof gold, and five-gram silver banknote collection.

Having successfully launched silver editions in 2020/21, we now proudly present the antique finish gold versions of the Tortoise and Athena's Owl. The Tortoise, a slow and steady creature embodied the idea of lasting power, making it a popular choice for coinage in Ancient Greece. Allegedly, the tortoise was first minted on currency coins manufactured on the island of Aegina. The Athenian Owl, renamed after the Greek goddess of wisdom, is arguably the most popular and recognized ancient coin. The owl evolved into the Athenians' own icon and graced a large variety of coins, such as the tetradrachm, from as early as the 5th century BC.

Scarab

Cheops

Back for the 3rd time, our «Scarab» series pays tribute to the significant personalities of Ancient Egypt. The 2023 issue honours the creator of a wonder of the world, whose work remains a marvel to this day. Khufu, best known by his Greek name Cheops, was the 2nd pharaoh of the 4th Dynasty, ruling during the 3rd millennium BC. He began work on the Great Pyramid of Giza almost immediately after assuming the throne. Estimated to have taken over 20 years to build, it was the tallest man-made structure in the world for over 3,800 years. Adorned with a glistening yellow crystal, the latest edition unveils the pharaoh's birth name as well as his throne name in hieroglyphic form.

#30389 Ancient Greece

Honey Bee Ephesos

In ancient times, various cities chose symbols for their coinage that represented the founding mythology, a pun on the city's name, a characteristic feature of the economy or the city's devotion to a particular deity. One such figure was Pan, the god of the wild, shepherds and flocks. Often associated with fertility and depicted in bestial form. Originally worshipped in Arcadia, his name derives from paon, meaning pasturer, and with pan, meaning all. Another example is Ephesos, an ancient Greek city located on the western coast of present-day Turkey. Ephesos was a significant centre of worship for the Greek goddess Artemis. The motifs on the city's coins, such as the bee, reflect this fact clearly. Lastly, Naxos, the earliest Greek colony in Sicily, located south of present-day Taormina. It is of high probability Greek immigrants brought their fondness for wine growing and worship of the god Dionysos from their Greek homeland, the island of Naxos, to Italy.

Evolution of Life

Nimravidae

The inspiring 9th edition of the unparalleled «Evolution of Life» series delights with this outstanding addition of a truly remarkable specimen from a bygone era. The Nimravidae, a prehistoric feline family including the depicted genus *Hoplophoneus*, flourished during the Palaeogene. Also known as false sabre-toothed cats, these mammals were fearsome predators. Muscular bodies, razor-sharp claws, and elongated canines led to an impressive arsenal of tools for hunting their prey. These terrors likely roamed the ancient woodlands and grasslands of North and South America, Europe, Asia and Africa.

Eclectic Nature

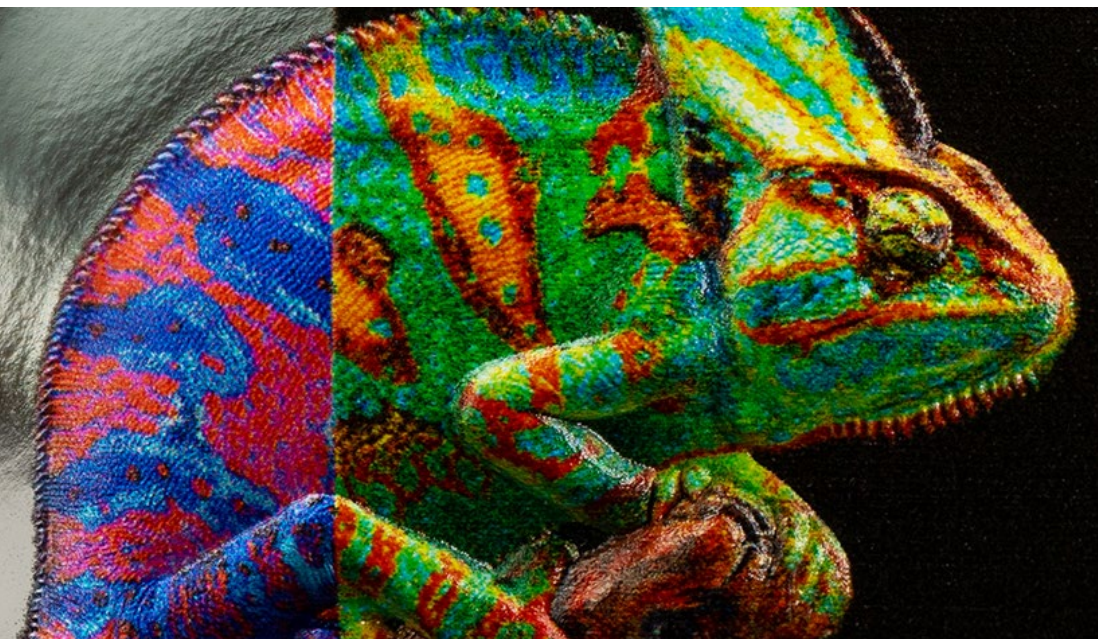

Chameleon

Eclecticism is the combination or mixing of different styles, theories or ideas in order to gain complementary knowledge on a subject. The term comes from the Greek eklektikos, “to choose the best”, and that from eklektos, “picked out, select”. We have embraced this approach of choosing only the best for our 2nd edition of the «Eclectic Nature» series.

The veiled chameleon is a remarkable species that hails from the arid regions of Yemen and Saudi Arabia. The most notable feature is a large, elaborate bony protrusion atop its head, which is called a casque. Both males and females sport this fancy headgear, which allegedly serves to channel water droplets down into the reptiles’ mouths, a crucial adaptation in their dry habitats.

Bison

The Bison, a majestic native of the North American grasslands, stands as a symbol of raw power and untamed wilderness. These colossal creatures, weighing up to a ton, possess impressive horns and a massive hump on their backs. Once on the brink of extinction, conservation efforts have allowed the population to slowly rebound. The 3rd edition of the series reveals the bison's winter habitat, engraved in the giant's body.

H.P. Lovecraft

Azathoth

Thanks to the vigorous and rather sinister imagination of H. P. Lovecraft, the 20th-century master of the gothic tale of terror, nightmares will be nourished anew by a 2nd character from the Cthulhu mythos. Being an initial member of the “Outer Gods”, Azathoth is one of the most powerful beings in all existence, rivaling the Reverent God Himself as well as the Abyss of Khaos. The primordial God rules “The Great Old Ones”, thus also Cthulhu, and stands as the embodiment of madness, chaos, disorder and boundlessness.

The Vexed Man

The Vexed Man, a captivating alabaster bust sculpted by German artist Franz Xaver Messerschmidt, embodies the artist's mastery of capturing raw human emotion. Crafted in the late 18th century, it portrays a deeply anguished and tormented expression. Messerschmidt's meticulous attention to detail is evident in the depiction of furrowed brows, tense muscles, and tightly clenched lips, all indicating a sense of inner turmoil.

Frankenstein

Mary Shelley's Frankenstein is a literary marvel, captivating readers with its chilling tale of science gone awry. Since it was published anonymously in 1818, Frankenstein's monster still haunts the pages, terrifying and heartbreaking at the same time.

Contrary to conventional depictions, on our coin, the iconic monster reveals itself through individual letters. Readers with a razor-sharp vision, or with help of a magnifying glass, will discover the words written derive from the fateful scene where the monster draws its first breath.

Ferryman of the Dead Charon

Charon, who resided in the Greek Underworld, was burdened with the duty of being the ferryman of the dead, crossing the newly departed over the river Acheron. To secure passage, the deceased had to pay Charon's fee, such as an obolos or Persian denace, which ensured that proper funeral rites had been performed. Those unable to pay would haunt Acheron's banks for a century as ghosts. Although commonly linked to the River Styx, Charon's task primarily pertained to the river Acheron. The association with the Styx, leading to Hades' realm, was a later addition to the myth, as it was the most famous river of the Greek underworld.

Real Heroes

Coast Guard

As part of the immensely popular «Real Heroes» series, its 4th issue pays tribute to rescue swimmers all over the world, especially those serving in the United States Coast Guard. As one of the six military services, its members have fulfilled their unique duty as both a security and humanitarian force protecting America in domestic and international waters for over 100 years. While it is involved in all aspects of enforcing U.S. law and trade on high seas, the United States Coast Guard is best known for its daring search and rescue operations including medical evacuations, downed aviators, sinking vessels, floods and hurricanes. To this day, these real heroes save countless lives in need, true to their motto «So others may live».

In addition to the sold-out Black Proof silver edition, the series will be expanded to 1-ounce gold, 1-ounce platinum, 5-ounce Black Proof gold and individually numbered 1-kg silver editions.
