WINTER LAUNCH 2024

The background of the entire page is a dark, atmospheric illustration. On the left side, a large, imposing castle with multiple towers and battlements sits atop a steep, rocky cliff. The castle is rendered in a dark, almost black color, with some lighter tones highlighting its architectural details. The cliff face is rugged and textured, with some snow or ice visible at the base. In the background, a range of mountains is visible under a heavy, overcast sky. The overall color palette is muted, consisting of dark browns, greys, and blacks, with some lighter tones in the sky and distant mountains. The style is reminiscent of a dark, moody painting or a high-quality digital illustration.

PHOBIAS

Thalassophobia

Tales of colossal monsters, abyssal chasms, and gigantic sea creatures have spun legends of the ocean's mysteries. For some, this realm is not mere sci-fi but a disturbing reality. Thalassophobia, an intense dread of vast bodies of water, shatters dreams of life by the sea, cosy beach visits, and pleasant boat trips. Consider the chilling allure of cinematic sea horrors – the iconic «Jaws» franchise, «Deep Blue Sea», and «Open Water», all examples of the sea's bone-chilling grip on our imagination. The coin features a giant shark rising from the depths of the ocean, unnoticed by the cosy swimmer drifting along. Thanks to an ingenious combination of inverted ultra-high relief, colour and enamel, the scene looks deceptively real.

THE JOURNEY

Motorbike

The «Journey» series keeps on rolling with the muffled sound of the engine as we thunder along the country roads on our motorbike. Emphasising the spirit of adventure with the inscription «Ride On», this piece of art reflects the enthusiasm of setting off on a thrilling journey. An ode to freedom seekers, speed enthusiasts, and everyday bikers. On top of the well-hidden CIT logo, the coin features a clever combination of polished and matt surfaces in black proof and silver.

A fusion of art and function, tailored for poker aficionados seeking both luck and style at the table. The «Poker Card Guard» serves a crucial purpose in shielding your hand from prying eyes and accidental exposure. lurking in the background. The background forms an elaborately executed, partly gilded poker chip bearing the inscriptions «Shuffle up and deal» and «Good Luck». The «Poker Card Guard» - finely crafted and seamlessly blending artistry with utility, a must-have for every poker player's table.

IRON MAIDEN

The Book of Souls

We celebrate Iron Maiden's monumental «The Book of Souls» album with a limited-edition commemorative coin collection. Released on September 4, 2015, this double album broke barriers as the band's longest record, clocking in at an epic 92 minutes and 11 seconds. Recorded in Paris, the album exudes a raw, live feel. Notably, «The Book of Souls» boasts Iron Maiden's lengthiest song to date, the sprawling 18-minute masterpiece «Empire of the Clouds». Mark Wilkinson's striking cover art vividly captures Eddie, Iron Maiden's mascot, depicted as a Mayan warrior. Debuting atop album charts in 24 countries, it secured Iron Maiden another UK No. 1 spot.
