1 OZ SILVER

# 100 Years Swiss Franc in Liechtenstein

In 2024, the Principality of Liechtenstein celebrates a significant milestone: 100 years of the Swiss Franc as its national currency. To mark this historic occasion, an exclusive coin series will be released. Crafted in smartminting® Ultra Deep Relief, these coins depict the Rhine Valley with topographical accuracy, symbolising the bond between Liechtenstein and Switzerland. All the neighboring municipalities are engraved on the edge of the coin. The exceptional minting technique, stunning colouration, and the rarity of Liechtenstein commemorative coins make these six coins true numismatic treasures. A remarkable tribute to a century-long currency union!

## BIG CITY LIGHTS

# San Francisco

Approaching the skyline of San Francisco from the two-storey Bay Bridge offers probably one of the most amazing views in the world. The 3rd edition of the «Big City Lights» series depicts exactly this magic moment. San Francisco's midnight skyline is brought to life by dark-coloured buildings in combination with translucent proof surfaces.

TIFFANY ART METROPOLIS

# Gyeongbokgung Palace

경복궁

The Gyeongbokgung Palace in Seoul was built by King Taejo, the founder of the Joseon Dynasty, and completed in 1395. On the reverse, there is the Heungnyemun Gate. The second main gate of the Gyeongbokgung Palace complex is adorned with intricate decorations and richly carved wooden columns. The obverse features Geunjeongjeon Hall with its steeply gabled roofs, intricately decorated balustrades, and expansive courtyard. It served as the throne hall and coronation venue of the palace.

**GOLD:** The blue Tiffany glass of this exquisite gold coin was chosen to reflect the colours of the Korean flag. The sophisticated design is further refined by the Joseon seal and the Korean characters known as Hangul.

Aloha and welcome to Kauai, the garden island of Hawaii! The volcanic island is not only famous for its lush vegetation and impressive variety of plants, but also for its spectacular red rocks and cliffs, formed by millions of years of erosion and volcanic activity.

Pictured is an original section of one of the oldest Hawaiian islands. As with its predecessor, the Grand Canyon, the ultra deep relief is created thanks to smartminting® technology. But it is the realistic colouring that makes this coin a numismatic wonder of nature.

# Spinning Coin

The 2nd edition of the spinning coin is not only characterized by a brand new design but also by a revised form. Improved production technology has made it possible to increase the height of the shaft by 22% up to 15.4 mm. This allows you to spin the coin easier and longer than ever before.

Spinning tops originated independently in different cultures across the world, with some specimens believed to be up to 6000 years old. The Romans even crafted spinning tops from boxwood or terracotta. Back then, they were not only used as toys, but also for games of chance and prophecy. Nowadays, spinning tops serve the purpose of entertainment and high spirits. And, of course, the competition to see who can spin it the longest.

FOUR-LEAF CLOVERS

# Ounce of Luck

That's what we call a CIT evergreen as the first Ounce of Luck has been issued more than 10 years ago. It is released on a yearly basis so it is noteworthy that the 2025 edition features a slightly reworked design that stays true to the series' history while offering a delicate and modern new look. The matching companion piece of the silver coin is the 1-gram gold version. Silver or gold, as a collector coin, an investment, a lucky charm or a gift – the clover leaf coin is always a particularly charming eye-catcher! And do not forget: Since its start every single coin in this series has been fitted with a REAL four-leaf clover. Fun fact: There is only one four-leaf clover displayed on obverse side.

Can you find it?

LUNAR YEAR COLLECTION

# Nimble Gilded Snake

Lunar Year coins are highly popular with collectors, and the annual CIT issues have become all-time favourites. The 2025 release honours the «Year of the Snake». For thousands of years snakes have been perceived as creatures of deceit and malice in various cultures, yet in China they are held in high regard. Many Chinese gods are intertwined with them, such as Nuwa, who sculpted mankind from clay. She is often portrayed with a serpent's body and a human head. As in previous years, we are delighted to add a special gilded version to the existing one-ounce silver, half-gram proof gold, and five-gram silver banknote collection.

HUNTERS BY NIGHT

# Ocelot

Emerging from the shadows, the ocelot claims the 5th spot in the «Hunters by Night» series. This master of stealth similar in size to bobcats inhabits dense forests and shrublands, stretching from southern Texas to northern Argentina in South America. As a nocturnal hunter, the solitary ocelot depends on its sharp vision and keen hearing to hunt rodents, snakes, fish, frogs, monkeys, and birds. It does not have teeth appropriate for chewing, so it tears the food to pieces and swallows it whole.

The Obsidian Black finish contrasts strikingly with the wild cat's lifelike eyes, creating an intense glowing effect.

## EVOLUTION OF LIFE

## Aves

This year's edition of the «Evolution of Life» series depicts the terror bird, also known as Phorusrhacidae. These prehistoric, flightless birds, reaching up to 3 metres in height, were among the top predators of the Neogene and Paleogene periods. Their long legs and hook-shaped beaks indicate swift predators, capable of running at speeds up to 50 km/h across the open landscapes of South America. Their extinction was likely facilitated by the formation of the land bridge between North and South America, which allowed the migration of competing predators. Combined with climate changes, this probably led to the disappearance of the terror birds.

The shiny red gold plating in combination with Antique Finish also lends the final edition its signature look.

# Goddess of Water

In Greek mythology, Amphitrite is a sea goddess and the wife of Poseidon, the god of the sea. She is described as the personification of the sea and plays a central role in many mythological tales, in which she is often depicted as a calm and benevolent sea goddess.

On this Black Proof coin matte and polished elements blend with the gilded fish and glowing eyes of this timeless beauty, creating a stunning visual effect in smartminting® ultra high relief. The masterpiece is completed by a specially designed obverse with the coat of arms of the Republic of Palau, perfectly rounding off the overall aesthetic.

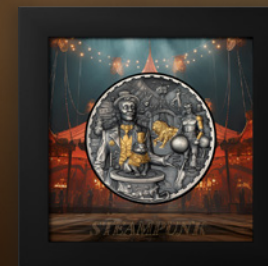

## STEAMPUNK

## Carnival

Welcome to the fabulous world of the Steampunk Carnival! In the fifth edition of our «Steampunk» series, we catapult you into a realm filled with magic, artistry, and plenty of surprises.

Picture this: You stumble into the backstage area of the circus where a quirky magician greets you alongside a rabbit that surely has a few tricks of its own. How about a cup of tea with weightlifter Harry? As you marvel at the graceful tightrope walker, you can also try your hand at taming the mechanical lion. We'll just turn that gramophone down a bit. And if you're looking for the penny-farthing rider, perhaps the frog might know where he's gone. The whimsical fusion of the Victorian era with the cool Steampunk style, complemented by exquisite partial gilding and Antique Finish, makes this coin a true highlight.

## IRON MAIDEN Eddie

For over 40 years, Eddie has embodied the rebellious spirit and epic tales of the legendary heavy metal band, Iron Maiden. With each album, Eddie transforms into new roles, be it a warrior, soldier, or pharaoh. For this special coin, we have compiled a «Best of Eddie» from our previous Iron Maiden releases. The result is a fittingly dark look in Black Proof and incredible smartminting® ultra high relief.

SILVER BURST

# Bald Eagle

The 2024 issue of the Silver Burst series is something very special. One of the most famous coin motifs in the world meets CIT's exceptional minting technology. The result is a bald eagle whose plumage is depicted with countless facets in proof quality. Thanks to the smartminting® technology, the shards even extend into the edge of the coin. Adding to this, some of them are either polished or dark textured giving an even better idea of the eagle's original appearance.

## BUCKET LIST

# Santorini

Doesn't everyone have a list of dream travel destinations? The Greek island of Santorini tops the list for many. This island of volcanic origin is world-famous for its white houses with blue roofs on the edge of the crater, offering breathtaking views of the sunset.

With this 5 oz issue, you can bring a piece of Santorini home with you. Can you spot the sunbathing tourists? Thanks to our advanced smartminting® technology, the combination of proof surfaces with subtle colouring, the lifelike buildings and streets appear incredibly realistic and detailed, sparking wanderlust for the dreamer in everyone.

Santorini awaits you!
