Our sixth issue in the «Numismatic Icons» series is adorned with a beautiful lion, which stands for the animal of the god Apollo. Apollo was not only the god of the arts, healing and light, but also the patron god of the colonies. The majestic lion stands for strength, protection and divine guidance. This coin highlights the significance of Leontini – an ancient Greek city located in Sicily – as an agricultural hub and underscores the colony's close ties to Apollo. The lion as a symbol of the god emphasizes the divine patronage over the colony, while the grain of barley points to the prosperity and fertility of the region. The CI numerals follow the tradition of ancient Greek coinage to indicate the respective place of origin. As usual, the edition includes three fantastic specifications in silver and gold.

Bison

2 oz Silver Black Proof

We proudly present our latest issue in the «Wild Mongolia» series – the Bison. In addition to the previous releases, the series is expanded by these two stunning editions in Black Proof and Copper. Originally from North America and Eurasia, Bison are the largest and strongest wild cattle imaginable. Known for their dense coats, distinctive shoulder curvature and their robust survival in extreme climates, Bison play an important ecological role shaping the landscape through their grazing habits which create habitats for other species. An impressive animal is brought to life by the combination of detailed design and a deliberate use of high relief and subtle coloring. Can you see the three other bison in the background? This issue marks the end of the highly successful «Wild Mongolia» series – a worthy finale.

Year of the Horse

1 oz Silver

Lunar Year coins are highly popular with collectors, and the annual CIT issues have become all-time favorites. The 2026 release honors the «Year of the Horse». In Chinese tradition, those born under this sign are known for their energy, intelligence, and unwavering determination. The horse is also associated with success and adventure, making it a beloved symbol in the zodiac. As in prior years, three exquisite and highly sought-after releases are presented here. Including a spectacular, 3-dimensionally sculpted, free-standing 1-ounce silver coin, which, thanks to its antique-finish surface, can be held safely in hand as a lucky charm. Furthermore, a 5-gram silver banknote and a half-gram gold proof coin.

Otter

The 8th edition of our «Woodland Spirits» series introduces the enchanting otter. Otters are commonly found in freshwater rivers and lakes. Its slender, streamlined body and playful nature make it a joy to watch, whether diving for fish or gliding along the riverbank.

This lovable creature is depicted in detailed relief embossing, surrounded by colorful plants. Otters' fur is a masterpiece of nature: it's dense, water-repellent, and has a warm, rich brown color that reminds us of the earthy tones of autumn landscapes. This issue celebrates the complex beauty and spirit of the forest and its inhabitants.

Gorilla

This is an exceptionally surreal animal portrait in ultra-high relief. The gorilla's figure is depicted soaring through multiple levels of silver segments, a feat made possible by advanced smartminting® technology. This innovative technique involves breaking down boundaries to create a new and uniquely shaped work of art that extends beyond the edge of the coin. Design elements incorporating sophisticated ethnic patterns contribute to a thematic link to the origins of this magnificent animal. It is a tribute to the majestic creatures of the African wilderness, in particular the gorilla, often referred to as the «guardian of the jungle».
