The idea of this coin is to combine a famous painting with a portrait of its artist. This edition is dedicated to Vincent van Gogh (1853–1890), considered one of the greatest painters of all time, a true Master of Art. He finished this painting 'Wheat Field with Cypresses' with its vibrant colours and striking brushstrokes, in 1889. Which was only about a year before his tragic, self-inflicted death. On this ultra-high relief 2 oz proof, the artist himself poses in front of his masterpiece. Thanks to the enhanced smartminting® technology, this is done in a very realistic way.

Zeus

Father of Gods

Zeus was respected as an allfather who was chief of the gods, who rules from Mount Olympus. He was regarded as the sender of thunder and lightning, rain, and winds, and his traditional weapon was the thunderbolt. This stunning coin is based on the Statue of Zeus which was one of the Seven Wonders of the Ancient World. Zeus sat on a painted cedarwood throne ornamented with ebony, ivory, gold, and precious stones. The statue was lost and destroyed during the 5th century AD. Details of its form are known only from ancient Greek descriptions and representations on coins.

Revolutionaries

Mother Teresa

Mother Teresa, the Angel of Mercy, was called a “living saint” because she spent her whole life helping those who had nowhere to go and no one to turn to. Wherever she went Mother Teresa never turned away from difficult or unpleasant situations and always saw to the needs of the poorest of the poor, the homeless, the sick and the dying people. Teresa received a number of honors, including the 1979 Nobel Peace Prize. She was canonized on September 4th, 2016. This 1 oz silver proof pays tribute to her legacy and depicts Mother Teresa wearing her famous white and blue sari. The combination of high relief and color application makes her really come alive on this stunning coin.

Key to my Heart

The symbolic range for keys is extremely wide. At its heart, a key is an opener of locks. Whether it's a door, a treasure chest, or the metaphorical heart, keys let us into unknown worlds and reveal secrets. In Eastern Europe keys were hung upside down over beds to ward off bad dreams. Jewish midwives used to give a key to a woman in labour to encourage safe delivery of the baby. In modern romantic notion a key is often considered as "the key to my heart". This is a love symbol much like the heart symbol. So whatever the occasion, thanks to the enhanced smartminting® technology you can use this 1 oz coin in antique finish to make your own meanings.

X-Ray

Mummy

The predecessor coin “Vitruvian Man” has shown how fascinating the idea of mixing an ancient topic with the modern invention of the x-rays can be. With this edition we are going back in time even more. Howard Carter would have been happy if he could have x-rayed the sarcophagus of Tutankhamun. Discover the Mummy in ultra-high relief surrounded by Egyptian hieroglyphs on the reverse and its colorized x-ray image on the obverse. There will only be 999 of these amazing proofs struck. Get yours and be luckier than Howard Carter back then.

1-64 Noble

Gold 2022

The modern Noble coins have been issued by Isle of Man since the early 80's. Despite their world-wide popularity, they were not minted every year. This had added to the coins allure as previous issues can be difficult to find. With the 2022 edition, CIT is extremely proud to bring an emended design to the Noble. It is the first enhancement to the actual design since it was introduced back in 1983! You can almost feel the wind when you look at this coin! The design of this double thick piedfort is framed by an elaborate Viking motif border design. Along the top of this design, you will see the Triskele which is IOM's coat of arms.

Titanic

Silver 1 oz

This coin range is dedicated to the Titanic and its tragic story. Just 160 minutes after the momentous accident happened on April 14th, 1912 the vessel sank dragging more than 1500 people to an icy grave. Just a handful of artifacts from the Titanic have made it back to the water surface as the ship lies at a depth of 3800 m (12470 ft.) at the bottom of the sea. One of them is an authentic coal lump which was recovered back in 2000. A certified piece of it is integrated into these coins! With this coin honoring the Titanic you get yourself a special relic of this historic event.
