

The SMART series vacuum cleaners and in particular the SMART 180D and SMART 280D models are dedicated to professionals in various sectors who need a mobile vacuum cleaner, robust and effective in extracting even the finest dust.

These vacuums have filtering capacities above their category and an integrated filter cleaning system, proving to be the best alternative to classic professional vacuums.

TOOL versions available, with electrical socket on the head and remote ignition via Powertools MAX 16 A.

◀ 1 or 2 By-pass motors

◀ Head with integrated semi-automatic filter cleaning system. Activated by push button.

◀ Cartridge filters available with conductive M or HEPA filter media

◀ Filter protection to optimize the cyclonic effect, lowering air velocity towards the bottom, increasing filtering efficiency and avoiding premature clogging of the filter. It also acts as a protection from abrasive materials or liquids, keeping the filter dry.
