

CPS is committed to our clients and their supply needs. We will provide updates during the COVID-19 outbreak as they are received from our distribution partners who provide supplies identified to help prevent the spread of COVID-19 and as provided with the items listed below. Inventories have and will continue to be fluid. Our distributor partners are providing CPS regular updates as they relates to inventory changes (PPE/cleaning/disinfectants) and other supplies impacted as a result of the manufacturing shutdowns in China.

THIS IS AN ACCRUAL OF THE PREVIOUS CPS UPDATES FOR YOUR REFERENCE.

CPS COVID-19 Update: October 29, 2020

Operation Warp Speed (OWS) – Sign up before November 6th

Part of Operation Warp Speed (OWS) has been the focus of the development of a COVID-19 vaccine. While the vaccine is **not ready for distribution** the Department of Health and Human Services has announced the pharmacy partnership of CVS and Walgreens. They will offer on-site COVID-19 vaccination services for all residents of nursing homes and assisted living facilities **free of charge**.

By **signing up for the pharmacy partnership**, the pharmacy provides the end to end management and burden of the entire vaccination process including the needed cold chain management, provision of the vaccine and supplies, on-site vaccinations, and fulfillment of the necessary reporting requirements within 72 hours of administration.

NOTE: YOU MUST REGISTER YOUR HEALTH CENTER AND ASSISTED LIVING OR BOTH BY THE DEADLINE TO BE ELIGIBLE TO PARTICIPATE IN THE PROGRAM.

PLEASE REGISTER AS INSTRUCTED BELOW.

- Skilled nursing facilities (SNFs) will make their selection through the [National Healthcare Safety Network \(NHSN\)](#).
An “alert” will be incorporated into the NHSN LTCF COVID-19 module to guide users to the form.
- Assisted living facilities (ALFs) will make their selection via an online [REDCap](#) sign-up form.
- Facilities will indicate which pharmacy partner (one of two large retail pharmacies or existing LTC pharmacy) they prefer to have on site.
- Online sign-up will be distributed through ALF and SNF partner communication channels (email, social media, web).
- Indicating interest in participating is non-binding and facilities may change their selection or opt in or out via email after the online survey closes.

For more information, visit the [CDC-Overview](#), [CDC-FAQs](#), [AHCA NCAL-Overview](#) and [AHCA NCAL-Overview Slides](#), which are also attached to this email.

Latex, Vinyl and Nitrile Gloves Are Available – US21, Inc.

US21, Inc. has latex gloves, vinyl gloves and nitrile gloves available in cases of 1,000 (size S, M, L, XL). No bulk buys required. Quickly ships within 2 days! Monday August 24 Update: FDA Provides Testing Method to Assess the Quality of Hand Sanitizer

Products for Impurities FDA is providing a laboratory testing method to assess the quality of finished hand sanitizer products. This testing method can be used to help assure hand sanitizers contain the correct ingredients and do not contain harmful levels of impurities. The testing method (with appropriate validation) can be used for hand sanitizers labeled with either alcohol

(ethanol) or isopropyl alcohol (also called isopropanol or 2-propanol) as the active ingredient and can screen for potentially harmful impurities, as listed in FDA's temporary [guidances](#). [Click here for the full update](#). Visit this link for product list: www.fda.gov/drugs/drug-safety-and-availability/fda-updates-hand-sanitizers-methanol.

Join the webinar and learn from Johnson Controls experts how contactless temperature scanning solutions support your mission for a clean, healthy and safe environment. [Click here to register.](#)

Testing Initiative for Senior Living Communities – The U.S. Department of Health and Human Services

There is an initiative through the U.S. Department of Health and Human Services to fund testing for senior living communities that have a CLIA Certificate of Waiver AND meet certain epidemiological criteria around those areas that are considered hot spots. The eligible communities will receive either a Quidel Sofia 2 Instrument or Becton, Dickinson and Company (BD) Veritor™ Plus System in the coming months along with the associated FDA-authorized antigen diagnostic tests. The list of nursing homes is posted on the Centers for Medicare & Medicaid Services can be accessed on the following link: <https://data.cms.gov/Special-Programs-Initiatives-COVID-19-Nursing-Home/Nursing-Home-Data-Point-of-Care-Device-Allocation/jbvf-tb74>.

August 12 Update: FDA Expands Hand Sanitizer Warnings To Include 1-Propanol Contamination

FDA is warning consumers and health care professionals about certain hand sanitizer products, including those manufactured by Harmonic Nature S de RL de MI in Mexico, that are labeled to contain ethanol or isopropyl alcohol but have tested positive for 1-propanol contamination. 1-propanol, not to be confused with 2-propanol/isopropanol/isopropyl alcohol, is not an acceptable ingredient for hand sanitizer products marketed in the United States and can be toxic and life-threatening when ingested. The agency urges consumers not to use these 1-propanol-contaminated products and has expanded its do-not-use list of hand sanitizers at www.fda.gov/unsafehandsanitizers to include hand sanitizers that are or may be contaminated with 1-propanol, in addition to other hand sanitizers the agency is urging consumers not to use. [Click here for the full update.](#) Visit this link for product list: www.fda.gov/drugs/drug-safety-and-availability/fda-updates-hand-sanitizers-methanol.

July 9, 2020 Update– CPS Vendor Partners

FDA Updates on Hand Sanitizers with Methanol - Additional Manufacturers and Products

FDA is warning consumers and health care providers that the agency has seen a sharp increase in [hand sanitizer products](#) that are labeled to contain ethanol (also known as ethyl alcohol) but that have tested positive for methanol contamination. Methanol, or wood alcohol, is a substance that can be toxic when absorbed through the skin or ingested and can be life-threatening when ingested. Visit the link for complete details, as well as the product list: www.fda.gov/drugs/drug-safety-and-availability/fda-updates-hand-sanitizers-methanol.

Flash Sale 3-ply Face Masks – Office Depot

Office Depot is having a flash sale on 3-ply face masks till Sunday, July 12, or while supplies last. Item #7463419, box of 50 for \$14.99. See [Office Depot FLASH SALE Face Masks flyer](#) for additional information. To order, contact Sarah Glazier at 704-497-4022 or email Sarah.Glazier@officedepot.com.

Germ Guard by San Jamar – Sysco

With the choice of both elastic and polypropylene headbands, these guards offer wide PETG shields that cover the eye, nose and mouth area to help protect the face from germs from sneezes or coughs. Add [Germ Guards](#) to your personal protection equipment plan to keep yourself safe! SUPC Code – 7130071, 24 ct. case, average case price is approximately \$175.00 per case. Delivery is usually 5-7 days. Order along with your regular Sysco order or contact your Sysco account executive.

EZ Fit SplashMask– Encompass

Encompass EZ Fit SplashMask offers full face protection from fluid sprays and splashes and can be worn in conjunction with goggles, N95 masks and glasses without fogging up. The adjustable strap and foam strip offer ultimate protection and comfort while you work. Item # 11001-SMC, 100 ct. box for \$275.00. Manufactured in Alabama and estimated delivery is 7-10 business days. Please see [Encompass HC20704 EZ Fit SplashMask flyer](#) for additional product details. To order, phone 800-245-4636 or email Seniorliving@encompassgroup.net.

Disposable Pillows and Limited Use Linens – Encompass

The CDC and NIH are still communicating cross-contamination risk in the ongoing fight against COVID-19. It is quite the task in managing hard surface disinfection, let alone soft surfaces. With reusable products often being discarded out of concern of contamination, we recommend transitioning to disposable pillows and bedding for the coming weeks to not only aid in decontamination, but to save overall cost as well. Please see [Disposable Pillow and Linens Product flyer](#) for additional details. To order, phone 800-245-4636 or email Seniorliving@encompassgroup.net.

July 2, 2020 Update– CPS Vendor Partners

Vinyl and Nitrile Gloves – CPS

For Nitrile and Vinyl Gloves, current demand is at an all-time high and supply continues to be limited. Industry analysts project demand for disposable gloves to be 3 to 4 times global capacity with full supply chain recovery taking up to a year or longer. Contributors to the imbalance between demand and supply link to COVID-19, including the prior Extended Chinese New Year (factory shutdowns), simultaneous increase in demand globally due to COVID, factories running at capacity, raw material shortages, government labor restrictions, logistical interruptions, export restrictions, packaging shortages, and citizen movement control orders. Additionally, over the next few months there will be significant price increases, approaching 100% cost increases, which will be reflected in the pricing to communities. Allocations will continue and there may be shortages as the category and supply chain teams work with suppliers to ensure a balanced approach is being taken regarding the order fill process.

CPS is closely monitoring changes that could impact the supply and collaborating with vendor partners to receive daily supply updates. Currently our vendor partners are supplying gloves at different quantities, limited availability and allocations. Below are best practices to manage your glove inventory at your community. Thank you in advance for practicing responsible ordering.

- Ordering up to your allocation. NO LESS so that you can keep your demand levels consistent.
- Do not shift purchasing to more nitrile from vinyl or vice versa so that allocations can remain consistent and maintainable.
- Control at the community level is more important than ever. Please make sure central supply folks are passing gloves to the patient room when possible and locking down stock when it not being passed.

If you are needing some additional gloves, have you ever thought about your foodservice broadliner? Place your glove order along with your food order. To learn more or to order, please contact your local broadline account executive.

- Sysco OpCos have gloves stocked, as well as masks, gowns and hand sanitizer. To learn more or to order from Sysco, please contact your Sysco Account Executive.

Vinyl Gloves, Package of 100 for \$9.99 and Disposable Masks, 50 ct. for \$29.99– HD Supply

HD Supply has disposable white medical vinyl gloves, disposable masks, sanitizer and much more available. [Click here to learn more or to order.](#) Contact your local HD Supply representative for additional assistance.

Temperature Kiosk by Heartguard Technology – HD Supply

HD Supply has temperature kiosks by Heartguard Technology. See the attached information and view the videos at: <https://www.youtube.com/watch?v=8jTiMVOpgbl> and <https://www.youtube.com/watch?v=KPPIfx2Y3nk>. PPE Supplies, Being Socially Responsible – The Image Group

The Image Group has delivered more than 10 million units of PPE to more than 25 operators across the United States. The company has secured supply chains of procedure masks, KN95 masks, gowns, sanitizer, and disinfectant wipes. All products are independently tested for quality. SDS sheets and FDA registration are available, as appropriate.

The Image Group has made a socially responsible decision to cut its profit margin to support operators during the pandemic. The company supports more than 2,000 senior living communities and is considered the leading industry partner in its primary category, branded apparel, merchandise and employee recognition. If you are interested in more information on PPE supply availability and lead times, please contact Zack Ottenstein (zottenstein@theimagegroup.net), Katie Griggs (kgriggs@theimagegroup.net) and Kristen Filzer (kfilzer@theimagegroup.net).

Food & Beverage and Sysco Updates

- Sysco has a new report, [Sysco Key Commodity Report Weekly0620](#), sharing price trends and the impact of COVID-19.
- Visit the [Sysco Wk 6-29 UPDATE -Low Inventory Report](#) that provides the latest disruptions primarily caused by current or forecasted supplier shortages due to import challenges or an allocation process shift.
- Since the July 4th holiday falls on Saturday, there should be limited changes to deliveries.
- [Coronavirus-related food supply disruptions may be behind us, but meat and produce could still face challenges](#), by Restaurant Hospitality.

July 2, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times:

Vinyl Gloves and other PPE Supplies Ship Today – US21 Inc.

US21 Inc., www.US21.com, designs, supplies and delivers solutions to tackle the toughest procurement and logistical challenges, visit the [US21 Company Profile](#) to learn more about US21. US21 has gloves and a full line of PPE supplies, see the [US21 PPE Product Brochure](#) and [US21 PPE quote](#) document. To order, contact Ned Darwish at 703-725-3787 or email m.darwish@us21.com.

** Note: Although CPS has obtained product and purchasing information from these vendors, CPS does not presently have a group purchasing relationship with these vendors. Up until the time that CPS does, any transactions with this vendor are outside of CPS's purchasing program.*

June 25, 2020 Update– CPS Vendor Partners

FDA Advises Consumers Not To Use Hand Sanitizer Products Manufactured by Eskbiochem

FDA advises consumers not to use any hand sanitizer manufactured by Eskbiochem SA de CV in Mexico, due to the potential presence of methanol (wood alcohol), a substance that can be toxic when absorbed through the skin or ingested. Visit the link for complete details: www.fda.gov/drugs/drug-safety-and-availability/fda-advises-consumers-not-use-hand-sanitizer-products-manufactured-eskbiochem.

Since the FDA announcement, CPS has been diligently reaching out to our vendor partners to learn if any vendor partner has distributed hand sanitizer manufactured by Eskbiochem SA de CV. At this time, we have not had any vendor partner confirm that they have distributed hand sanitizer by Eskbiochem. The following vendor partners have confirmed that they have NOT distributed any hand sanitizer products by Eskbiochem. As we receive updates from CPS vendor partners, we will update this list.

AscribeRx	Neil Pharmacy
CareOne Pharmacy	Office Depot
Cintas	Omnicare
Ferguson	Partners Pharmacy
Forum Pharmacy	PCA Pharmacy
Guardian Pharmacy	Remedi SeniorCare
HealthDirect Institutional Pharmacy Services	Rxperts Pharmacy
HD Supply	Staples
McKesson	Uvanta Northern Illinois
Medline	Uvanta Wisconsin

Please remember if you have purchased hand sanitizer from other vendors, complete your due diligence to ensure your products were not produced by Eskbiochem SA de CV in Mexico.

Clear Barrier Walls for Reception, Visiting, and Office Areas by Display America – Office Depot

Help maintain social distance and physical separation while protecting from splashes and sprays with clear barrier walls. The COVID-19 Tests, They Are Coming – Medline

Article is from the Medline COVID-19 Resource Center Newsletter. [Click here](#)

Temperature Scanning Solution - Direct Supply

FDA/CDC/CMS guidelines require Senior Living Communities to take the temperature of all visitors and staff members when entering a community. This is a very time consuming and expensive requirement for the communities, and many are looking for ways to use technology as a replacement for manual temperature screening. Direct Supply has a thermal temperature scanning offering that automates this process, called the Goodview Dynamic Detection Display.

Goodview's tablet-style kiosk uses advanced thermal detection technology to quickly scan skin surface temperatures. It is non-contact and simple to operate. Combined with advanced software, this solution can quickly identify potential safety threats and help mitigate large-scale exposure. Attached is the [Goodview Product Information and Specification Sheets](#). For additional details and information on pricing, reach out to your Direct Supply Account Manager or Joellen Bradach via email Joellen.Bradach@DirectSupply.com.

Easy Meal Emergency Food Kits- Oregon Freeze Dry

As we enter hurricane season it is time to review your disaster preparedness plan. Easy Meal, by Oregon Freeze Dry, is a valued CPS vendor partner that provides a 10% discount on emergency food kits to CPS members.

Easy Meal is designed specifically for the senior living market, and has a 10-year shelf life. The food kits take up very little space, and saves your Culinary Team the time and money required to re-stock their emergency food supplies every year. This is an extremely easy and efficient way to meet all of your state requirements for emergency food prior to opening.

Due to the popularity and high demand of these products during the recent pandemic, Easy Meal kits are currently out of stock until August. You can pre-order your kits now to have them delivered directly off the production line in August. There is expected to be additional high demand at that time so pre-ordering will ensure that you receive your kits. If you would like to visit with the Easy Meal National Account Manager, Pam Bentley, please contact Chad Coffey at 630-927-0054 or email coffeychad@carepurchasing.com.

- Total Production: 2M bottles | 156,250 cases

Sysco Updates

- See the [Sysco Wk 6-1 UPDATE -Low Inventory Report](#) that provides the latest disruptions primarily caused by current or forecasted supplier shortages due to import challenges or an allocation process shift.
- Protests/Riots - unfortunately have a potential to impact supply chain and deliveries.
 - Michaels Foods. Due to COVID-19 and riots in the Chicago area, Michaels Food's largest Pasteurized Shell Egg facility was unable to keep up with production this weekend. This will potentially create shortages in the short term.
 - OpCo deliveries. While deliveries have not been effected, many of the OpCo's that service areas impacted by the riots continuously monitor the safety for our drivers to make deliveries in these areas.
- Sysco Branded Peanut Butter- there will be shortages due to a fire.
 - There was a fire at the plant where Sysco Classic and House Recipe peanut butter items are produced. It started in the peanut roaster during sanitation procedures and caused damage to the roaster

and surrounding areas. While the fire was contained there was smoke and water damage to other areas of the plant.

- Other 8th Avenue facilities are providing roasted peanuts for production. 8th Avenue is also working with ConAgra to move products to all ConAgra distribution facilities as soon as it is produced. They are working to ramp up production to fill supply. Meanwhile, attached is a list of subs.

** Note: Although CPS has obtained product and purchasing information from these vendors, CPS does not presently have a group purchasing relationship with these vendors. Up until the time that CPS does, any transactions with this vendor are outside of CPS's purchasing program.*

May 18, 2020 Update – CPS Vendor Partners

Please note that these CPS COVID-19 communications will no longer be shared daily, but will change to twice a week. Starting tomorrow, Tuesday, May 19th, the CPS COVID-19 communications will be shared only on Tuesdays and Thursdays.

Get Back To Work Starter Guide – HD Pro

As we begin to get back to work, The Home Depot Pro team knows tomorrow's environment will look different in regards to the cleaning and maintenance items you will need. Therefore, the Home Depot Pro team has assembled a quick reference guide called "Re-Store" that can help you with some of the items you may need in order to get back to work. This guide is intended to be a work in process and will be updated as they identify items that may be useful. It isn't a slick marketing tool, as they put this together manually. However, Home Depot Pro wanted to get something in your hands that provides a source for hard to find items as quickly as possible. Please use the "[Re-Store](#)" guide as a resource tool and as opportunities arise. As always, reach out to your local Home Depot Pro Institutional Rep, or your National Account Manager with any questions or concerns.

May 18, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times:

Sysco has BeaActiv brand protective masks that are washable and reusable. See the [Sysco - BeaActiv Masks](#) for additional mask information. To learn pricing and stock availability, please contact your Sysco Account Executive.

SUPC Pack/Size Description

7130003 24/25 CT BEACTIV MASK FACE 4 LAYER GRAY LRG
7128657 24/25 CT BEACTIV MASK FACE 4 LAYER GRAY MED
7130001 24/25 CT BEACTIV MASK FACE 4 LAYER WHITE LRG
7130002 24/25 CT BEACTIV MASK FACE 4 LAYER WHITE MED

Produce Update – Sysco

Regarding produce, in the next 4-8 weeks, look to have some interesting developments starting to take place. As we near the end of May, and begin the summer months, there are several markets that are becoming a growing concern. Please review [Sysco's Fresh Press Alert](#) for your weekly updates regarding the produce markets.

- Mushrooms - The industry is now facing major shortages due to lack of labor and ability to harvest at the rate of pre-COVID levels. This will be a critical supply situation for the next 6-8 weeks and some are saying through the end of the year.

May 8, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times.

Gowns, Face Shields, Masks, and more PPE Supplies– Chagrin Safety Supply Inc.

Chagrin Safety Supply Inc., <https://chagrinsafetysupply.com/>, is and has been your PPE partner in trying times for more than 3 decades. During the anthrax crisis, the United States Postal Service chose Chagrin Safety Supply as the exclusive supplier of protective gloves. See the [CHAGRIN SAFETY SUPPLY PPE Quantity purchase as of 4 21 2020](#) product sheet that lists the PPE supplies, product information, pricing and ordering details. To ensure you have a personal advocate for your supply needs, Chagrin Safety Supply has temporarily removed the online ordering system. Please reach out to Chagrin Safety Supply via email concerning your current situation and supply needs, sales@chagrinsafetysupply.com. If you need additional assistance, contact Susanne Mayer at 330-283-4678 (Toll Free: 888-227-0468) or email Susanne@chagrinsafetysupply.com.

** Note: Although CPS has obtained product and purchasing information from these vendors, CPS does not presently have a group purchasing relationship with these vendors. Up until the time that CPS does, any transactions with this vendor are outside of CPS's purchasing program.*

May 7, 2020 Update – CPS Vendor Partners

Next Day Shipping Non-Contact Infrared Thermometer – Links Medical Products Inc.

Links Medical Products Inc. has JXB-178, FDA approved, non-contact infrared thermometers available to ship next day via credit card orders. See [rLMP- JXB 178 Thermometer Flyer LMP010](#) for thermometer information. Each price is \$89.00. To order JXB 178 Non-Contact Thermometer (LMP Item# LMP010), complete the two forms, [LMP Thermometer Order Form](#) and [LMP Credit Card Authorization Form](#), and email to abarrera@linksmc.com. Upon receipt of forms, LMP will process with your credit card payment and ship the next day.

Sprayers and Pressure Washers – Sherwin Williams

With the COVID-19 crisis still upon us, sanitizing and disinfecting requirements grow, both in need and the ability to sanitize large and many surfaces in a quick manner. Sherwin Williams has sprayers and pressure washers available at the discounts prices. See [Sherwin Williams Disinfecting Equipment Flyer](#) for product and pricing information. For additional information or to order, contact your local representative. If no local representative is available, contact National Account Executive, Bob Brophy, at 216-374-4304 or email rnbrophy@sherwin.com.

Sysco Weekly Update

- See the [Sysco Wk 5-4 UPDATE - Low Inventory Report](#) that provides the latest update on potential category disruptions as it relates to high demand products.
- Protein plant closures. Due to the recent press reports regarding meat processing plant closures and calls of concern from many customers, see [Sysco Protein Plant Closures Customer Letter FINAL](#) from Brian Todd, senior vice president, merchandising and marketing, that specifically addresses Sysco's position on this food supply issue.
- Health and safety. Specifically, can COVID-19 spread through food? The [Sysco FAQs Covid Health and Safety](#) document reviews Sysco's hygiene practices for handling and delivering your food
- The Centers for Disease Control and Prevention and World Health Organization, along with the food safety regulatory agencies in North America responsible for our food supply, agree that there is currently no evidence to suggest that COVID-19 is transmitted by food.

May 7, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times.

KN95 and Surgical Masks – 1.5 Million Available in U.S. – PZ Packaging and Supplies

N95 Masks Still Available Today (5/5/2020) – Sysco

Sysco Central Warehouses were stocked with these N95 masks yesterday afternoon (5/4/2020). Each mask price is \$5.00. To order, contact Debbie Switz by email switzdebbie@carepurchasing.com.

<u>Item/Sub</u>		<u>Pack/Size</u>	<u>Brand</u>	<u>Item Description</u>	<u>MPC</u>
7130521	+	1/100CT	SKY LIN	MASK FACE N95 4 LAYER	
7130523	+	1/800 CT	SKY LIN	MASK FACE N95 4 LAYER CON	CON/7128083

Food & Beverage Update by Sysco

- Beef production is down 25%. Supply is very tight due to plant closures, retail demand. There is less raw material in the marketplace due to record decreased harvest levels. The forecast from the industry is 3 to 4 more weeks of plant processing issues (closures, slowdowns) and it may take another week or two after this period to fill in the pipeline again. Supplies are expected to increase the week of May 25th due to the Defense Production Act, but demand is expected to remain high.
- Pork supply through Tyson is good with no risk of supply interruption at this time. Smithfield’s Sioux Falls plant remains closed, other plants remain open but there is some fresh pork shortage through this supply channel. JBS is having labor issues at their plants which will impact all pork butts.
- Poultry is good with no risk of supply interruption at this time per Tyson. Reported supply impacts are on the retail side i.e. grocery stores. The industry as a whole is harvesting 13% fewer birds on average compared to pre-Covid. The fill rate from fresh chicken suppliers is currently 98%. The availability of processed chicken is not currently posing service level challenges.
- There are and will continue to be substitutions of some products through Sysco as they continue to manage multiple shifting changes in the market and supply chain.

May 5, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times.

Gowns, Face Shields, Shoe Covers, Masks, Etc. Inventory Available in U.S. – Community Attire

Community Attire is a vendor member of the Health Care Association of America, as well as other health organizations. Thermal Imaging Cameras

Thermal imaging cameras are used to scan for a higher body temperature from a safe distance. If a fever — a common coronavirus symptom — is detected, a company may require further screening or deny the person entry altogether, which is helping to control the spread of the virus.

Meridian Personnel Management Solution Kiosk-Staples

Designed to help protect the health and safety of both employees and guests by preventing anyone with a temperature from entering a facility. See the enclosed two flyers, [Meridian Temperature Verification Kiosk Staples](#) and [Meridian FAQ_NEW Personnel Management Solution](#), for additional information. Available at Staples, 2 weeks lead time, price is \$2,499. For more information, contact Kyle Brauckman at 361-554-3191 or brauckmankyle@carepurchasing.com.

Fike’s Thermal Imaging Cameras-Fire & Life Safety America Inc.

Fike’s Thermal Imaging Cameras can identify persons who are displaying fever symptoms who are entering a community. This is an initial screening measure that can be implemented at many different entry points at the community, including receptionist areas, patient registration cubicles, vendor check-in areas, employee entrances, and security desks. This is a stand-alone system that plugs into a laptop or computer with a USB cable, and software is automatically downloaded to the device. Available at Fire & Life Safety America Inc. Please see attached flyer, [FLSA Fikes FeverMonitoringTechnology](#), for more information or contact Glen Creaven, senior national accounts manager, at 770-560-5881.

April 30, 2020 Update – CPS Vendor Partners

Lab Testing Service Providers and COVID-19 Rapid Test Suppliers

To help with sharing testing information, we are providing preliminary vetting of five national lab service providers and information in a comparison matrix [Lab Testing Services - Matrix 4.28.20](#), as well as information on our CPS vendors who supply COVID-19 test equipment and kits such as Abbott and Medline.

CPS has evaluated five lab service providers that have full capabilities to provide testing of residents and employees in the communities, bill through insurance for both employees and residents (Medicare/Medicaid/private), and can confirm polymerase chain reaction (PCR) testing capabilities as well as Thermo Fisher Scientific Equipment. Test results can be expected in about 24-36 hours and accessed via a client portal.

Lab Service Providers

- Vikor Scientific
- Chemisys
- P4Diagnostix
- Capstone Healthcare
- PLS Scientific

All have very similar processes for testing and can do so nationally. They all will work with the community to set up weekly testing quantities or what's needed so there isn't a required quantity to enter into an agreement. A comparison matrix is attached to provide more detail on requirements, reimbursements, and test results expected from the lab service providers.

Medline COVID-19 Testing Options

Medline has selected Cepheid (manufacturer of the COVID-19 rapid tests) as their COVID-19 testing system which also has received an Emergency Use Authorization number from the FDA. There is an option to enter into a committed contract with a minimum annual purchase of 600 swab tests (approx. \$49/test) and they will install the Cepheid testing system at very minimal charge. There is still a requirement that the community must have a CLIA waiver to receive and administer this test. Medline has a team of lab specialists who will provide training and guidance if the system/test are purchased. Lead time to receive the testing system has been 3-8 weeks once the agreement has been executed.

Medline Process

- Who is eligible to receive these tests? A CLIA Authorization or Waiver required. Which means that testing is authorized for labs and other patient care settings certified under the Clinical Laboratory Improvement Amendment.
- How can you order these tests? Medline is collecting the community information and then working with the state/government health departments to determine who will receive these tests as they become available. No timeframe has been communicated due to the limitations on supplies however they have been ramping up their production and finding alternative manufacturing channels in response to supply shortages.
- What's the priority? The priority has been placed on hospitals but they're starting to see some urgent care facilities receive the tests and there are now other health care providers that are being considered, including senior living. Cepheid is prioritizing delivery of COVID-19 tests to hotspots

right now in the U.S by working with the state/government health departments.

Serology Test: Medline is currently taking orders for the antibody test. Please note that currently there are approx. 90 manufacturers are being evaluated by the FDA and there **HAS NOT** been a EUA number released. Medline expects that once the FDA does release an EUA number they will have the capabilities to release these tests to those that have placed an order. This test measures exposure and an antibody response to the virus, and can be done with a finger stick blood sample. Today, the FDA is allowing this type of kit to be available only to CLIA highly complex labs (like reference labs) and the military, but Medline expects these tests to be available to other facilities in the near future. The cost of these tests will be \$15 per test with 20 test to a kit (\$300 per kit), and no additional instrumentation is needed. [Wondfo SARS-CoV-2 Antibody Test](#)

For more information from Medline or to place an order please contact Steve Mazzola, Vice President National Accounts Post-Acute Care at smazzola@medline.com or 443-742-2816.

Abbott COVID-19 Testing Options

Abbott (manufacturer of the COVID-19 test) recently announced they had received an Emergency Use Authorization number from the FDA for a COVID-19 test for use with their ID NOW rapid point-of-care platform. The platform is required to provide the results of the test. What does that mean? It means the test has not been FDA cleared or approved which typically takes a year or more to clear clinical trials. But the good news is that it has been authorized to be administered in labs and patient care settings. So, production is ramping up and Abbott is evaluating additional manufacturing channels due to this demand. See links below and attached information: [Abbott COVID-19 Customer Letter US](#) and [Abbott 37850 IDDM 120006407-01 ID-NOW-COVID-19 Product-Sheet r16 630 PM](#)

Abbott Process

- Who is eligible to receive these tests? A CLIA authorization or waiver required. Which means that testing is authorized for labs and other patient care settings certified under the Clinical Laboratory Improvement Amendment.
- How can you order these tests? Currently, Abbott is collecting community information and then working with the state/government health departments to determine who will receive these tests as they become available. No timeframe has been communicated due to the limitations on supplies however they have been ramping up their production and finding alternative manufacturing channels in response to supply shortages.
- Inquiries can go to Abbott Rapid Diagnostics Sales Hotline at 877-441-7440 or by email COVIDService@abbott.com
- For general questions about the new test or to make an inquiry via email, go to the ID NOW support page: alere.com/en/home/product-details/id-now-covid-19.html.
- What's the priority? The priority has been placed on hospitals but they're starting to see some urgent care facilities receive the tests and there are now other healthcare providers that are being considered including senior living. Abbott is working to prioritize delivery of COVID-19 tests to hotspots right now in the U.S by working with the state/government health departments.

For additional information on supplies and testing for Covid-19, please reference the Food and Drug Administration guidance: www.fda.gov/medical-devices/emergency-situations-medical-devices/faqs-diagnostic-testing-sars-cov-2

Food & Beverage Updates

- Pork or poultry products. There are no major interruptions or shortages regarding food service products.
- Due to reduced harvest of cattle, is experiencing shortages of ground beef and high demand cuts with some increase in pricing.
- Milk and butter prices have decreased due to an overabundance of product in the market.
- President Trump signed an executive order limiting producer liability and exercising the Defense Production Act, so that meat processing plants will continue to operate.

Reusable Level 1 Non-Surgical Isolation Gown – Available from Aramark via CPS agreement with AmeriPride

For more information, contact Kyle Brauckman at 361-554-3191 or brauckmankyle@carepurchasing.com.

Food & Beverage Updates

- The media is sensationalizing the closing of meat processing plants. At this time, there are no major interruptions or shortages regarding foodservice meat products. There may be challenges with specific brands or pack sizes, which will require communities to be flexible in their purchasing decisions.
- Beef pricing has been mixed, but expected to increase due to 20% lower harvests and some protein plants being temporarily shut down.
- Surplus of dairy supplies: This has resulted in a slight decrease in pricing beginning in May.
- In response to COVID-19, Sysco and manufacturers have had to make some changes to adapt within these uncharted circumstances, such as shifts in purchasing patterns and SKU rationalization. SKU rationalization may limit the products by brand or size, but there should be alternative product available.

April 28, 2020 Update - Non-CPS Vendors (Potential COVID-19 Resource Opportunities)*

CPS has obtained information on alternate vendor options you may want to review and consider during these unprecedented COVID-19 times.

°Sorry, there is no alternate vendors today.

April 7, 2020 Update:

N95 Mask Qualitative Fit Test Kits

N95 Mask Qualitative Fit Test Kits have been added to the list below, as inventory levels are limited or out of stock. We will continue to update the inventory status via vendor partners below.

Accushield Sign-in Kiosk – Sign-in, Record the Temperature and ask COVID-19 Screening Questions

The Accushield Sign-in Kiosk replaces the paper sign-in logs at entrances to Senior Living Communities and offers the ability to record the manually taken temperature and ask CDC-recommended COVID-19 screening questions for every staff member and visitor. See attached for additional information.

- **Current Accushield Sign-in Kiosk users** - please visit your Dashboard to turn on the new COVID-19 features.
- If interested in Accushield Sign-in Kiosks – please reach out to Kyle Brauckman at 361-554-3191 or brauckmankyle@carepurchasing.com.

Sysco Update

- To-go containers. Pactiv has begun shipping these containers to the OpCo's. One or more of these four items are stocked in every OpCo and have been added to the order guide where available.

○ 7196530	CONTAINER FOAM HNG 3 COMP DTAB	SYSTRNZ	150/9X9X3
○ 7192539	CONTAINER FOAM HNG 3C DBL TAB	SYSTRNZ	150/8X8X3
○ 7064458	CONTAINER PLAS 3C HNG 8X8 WHT	ERTHPLS	2/100 CT
○ 7064456	CONTAINER PLAS 3C HNG 9X9 WHT	ERTHPLS	1/120 CT
- See the attached Sysco Inventory and Supply Status Weekly report that provides the latest update on potential category disruptions as it relates to high demand products.
 - One to note regarding Beverages: Gatorade Liquid, Propel Liquid and Hydration Powder-Pepsi has temporarily suspended production on all Gatorade and Propel Display Ready Pallets, Pre-Filled Shippers, and Variety Packs. This is due to these high human touch manufacturing facilities.

Medline Incontinence Products – Medline has experienced a purchase uptick of incontinence products. As a precautionary measure, Medline has put all of their incontinence supplies on allocation at 110%.

- CPS has checked with other incontinence distributors and they are fully stocked with incontinence products and are not on allocation.

Sherwin Williams Foundation – N95 Mask Inventory Depleted.

Sherwin Williams Foundation has donated all N95 Masks and there is no inventory remaining.

April 6, 2020 Update:

Deep Cleaning Services - In response to COVID-19, the following CPS vendors are able to provide deep cleaning services for your communities:

- **ACT (Advance Catastrophe Technologies, Inc.)** disinfects the entire building envelope, through fogging air spaces and wiping hard surfaces, they are able to ensure a more complete disinfection of your property. View the attached flyer or visit ACTCAT.COM for more information.
- **Rentokil** is now offering a Disinfection Service which is designed for facilities that have confirmed Covid-19 exposure, or want to disinfect the environment. Rentokil uses an ultra-low volume (ULV) disinfection fogging to disperse an eco-friendly disinfectant. Visit <https://www.rentokil.com/disinfection/coronavirus/> for more information.
- **SERVPRO** professionals are uniquely prepared during this unprecedented time to clean and disinfect according to the protocols set forth by the CDC. With years of experience in dealing with biological contaminants, they go beyond the scope of work that regular janitorial staff performs on a daily basis. View the attached flyer for more information.
- **Hillyard** is offering a range of EPA Approved, Cleaning & Disinfection Solutions. The Hillyard Q.T.® 3 solution works with the Protexus electrostatic delivery technology, providing a revolutionary approach to infectious disease protection and sanitization. View the attached flyer or visit <https://www.hillyard.com/Pages/COVID19.aspx> for more information.

Please contact your local account representative for each of these Deep Cleaning Service providers or your CPS Client Account Manager.

Bouffant Caps and Shoe Covers

Bouffant caps and shoe covers have been added to the list below, as inventory levels are out of stock or becoming limited. We are currently visiting with additional vendor partners for inventory status updates and will have additional information in Monday's update.

Abbott Nutrition – Inventory and Suitable Alternative Products

Due to these unprecedented COVID-19 demands, Abbott Nutrition may experience out of stocks and/or back-orders, as well as, spot-outages over the coming weeks. Please note distributors may have inventory on hand, and the end user may experience these challenges at different times. Please see the attached letter outlining suitable alternative products– depending on the products affected.

[April 2, 2020 Update:](#)

Edward Don & Company – Handwashing Stations and Portable Hand Sink Carts

Handwashing stations with 2 ½ or 5 gallons water capacity or portable hand sink carts that are self-contained, electric, hot and cold water for up to 70 hand washings. Please contact your local Edward Don & Company representative.

[April 1, 2020 Update:](#)

No new updates regarding critical supply stock or industry information related to COVID-19. Please be assured that CPS remains dedicated to serving our member needs, as we are working diligently with our current distributor partners for daily inventory updates. At this time, Operation Air Bridge efforts continue and FEMA is prioritizing and disseminating the critical PPE supplies. CPS is also vetting new suppliers and exploring alternative resources for your needs.

Sysco Updates

- [Click here for Sysco Inventory and Supply Status Weekly Report.](#)
- [Click here for Sysco COVID-19 Policy and Communication Plan.](#)

HD Pro – Sprayers

As wipes, bottles and trigger sprayers become scarce, HD Pro supplies sprayers to aid in spraying and disinfecting areas. Sprayers for Disinfecting and Cleaning, Handheld Pump Sprayers, Commercial Cart Sprayers, and Janitorial / Sanitation Sprayers are available as a Special Order at www.homedepotpro.com and there is a 3-5 day lead time from time HD Pro gets the order to the manufacturer.

- If you have any questions regarding the sprayers, contact your local HD Pro Representative or visit www.homedepotpro.com. **Vistar – Disposable food containers, cups and wrapped utensils** Vistar OpCo's across the country are stocked with disposable foodservice items, if you are looking to use disposable rather than washing. For more information, contact Chad Coffey, CPS F&B Corporate AccountManager, at

CPS[®]

March 30, 2020 Update:

Major medical distributors are working with the United States government and FEMA to airfreight personal protective equipment supplies from China to the U.S. through Operation Air Bridge. FEMA is directing all operations and is prioritizing shipments to areas of widespread positive cases. We will continue to update you on these efforts and as supplies start to get into regular supply chain channels.

Sherwin Williams Foundation – N95 Mask Donations

Sherwin Williams is working through their foundation to donate N95 masks from their distribution centers to those in need. Quantities are limited but you may be able to obtain some masks by emailing the link below and answering 9 simple questions to help facilitate a donation request.

- To receive a donation, an organization needs to send an email to swfoundation@sherwin.com requesting a donation of N95 Masks. After doing this, you will receive a simple survey to capture additional information to facilitate a donation, including contact name, shipping address, etc.
 - Referral field in survey. Please type in “Robert Hammond” in the referral field to help prioritize your request.

Vinyl PF Gloves - UPDATE

Gloves remain on allocation, and stock is running very low. We recommend placing orders per your distributors' allocation protocols now.

ID NOW™ COVID-19 Rapid Test

Abbott Diagnostics Division is working to deploy ID NOW™ COVID-19 rapid tests to areas where they will have the greatest impact within the United States. Reach out to the Abbott sales team to learn how to order the tests or for additional information:

- To order the ID NOW™ COVID-19 rapid tests, phone the Abbott Rapid Diagnostics Sales Hotline at 1-877-441-7440 or email COVIDService@abbott.com
- For general questions about the new test or to make an inquiry via email, go to the ID NOW support page: <https://www.alere.com/en/home/product-details/id-now-covid-19.html>

March 27, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer, and most allocated stock has started to deplete.

Air Purifiers

On March 26, 2020, the New York Attorney General ordered three companies that sell air purifiers to immediately stop making claims they can prevent the spread and contraction of COVID-19, saying those representations could put consumers in jeopardy.

National Strategic Stockpile of Personal Protection Equipment

The government is working to distribute personal protective equipment supplies to local department of health/emergency management offices. Contact your local office to obtain the necessary supply forms and directions for obtaining supplies being distributed through this resource.

N95 masks

All major medical supply distributors are now Out Of Stock of N95 masks. All pending orders in purchasing portals for N95 masks have been cancelled.

- CPS is connecting with known N95 mask distributor partners daily for status updates and will share the updates with you. We are also looking for alternate sources and will share vetted options as we confirm those opportunities.

Vinyl Gloves

Gloves are now on allocation, as orders for vinyl gloves have more than doubled in the past week stressing inventory levels. We will continue to provide daily updates.

Disposable Linens and Limited Use Pillows

Encompass has made available disposable linens that will ship out in 3 business days and limited use pillows that will ship out in 7 business days. These items may be ordered via email at Seniorliving@encompassgroup.net or via phone at 800-245-4636.

March 26, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer, and most allocated stock has started to deplete.

National Strategic Stockpile of Personal Protection Equipment

- The government is working to distribute personal protective equipment supplies to local department of health/emergency management offices. Contact your local office to obtain the necessary supply forms and directions for obtaining supplies being distributed through this resource.

Use Caution! A lot of false “PPE supply opportunities” are being circulated broadly from miscellaneous sources that should be carefully vetted prior to committing to orders or sending/wiring deposits. Many of these “opportunities” offer no true guarantee of supply material, quantity, date of shipment, or date of delivery. CPS continues to work closely with our known distributors to obtain industry intel and chain supply updates.

March 25, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer, and most allocated stock has started to deplete.

PPE

- **National Strategic Stockpile of Personal Protection Equipment** The government is working to distribute personal protective equipment supplies to local department of health/emergency management offices. Contact your local office to obtain the necessary supply forms and directions for obtaining supplies being distributed through this resource.
- **Note:** A lot of supposed “PPE supply opportunities” are being circulated broadly from miscellaneous sourcing that should be carefully vetted prior to committing to orders or sending/wiring deposits up front. A lot of these “opportunities” offer no true guarantee of type of supply material, quantity, date of shipment or date of delivery. CPS continues to work closely with our known distributors to obtain industry intel and chain supply updates.

Infrared thermometers

- Direct Supply I back ordered on non-contact thermometers through Links Medical Products (LINK), but they still have children’s thermometers that are as effective for adults.
 - . ***Call your Direct Supply rep directly to place orders availability and pricing for these thermometers.***

CPS highly recommends you work directly with your local vendor representatives instead of going on websites or calling vendor general phone numbers to source products. Your local reps will have the most up to date information on product availability for your community. If you do not know your local vendor representative’s contact information, please contact your Care Purchasing representative and we will supply that information.

March 24, 2020 Update:

No update on this day.

March 23, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer, and most allocated stock has started to deplete.

PPE - National Strategic Stockpile of Personal Protection Equipment

- The government is working to distribute personal protective equipment supplies to local department of health/emergency management offices. Contact your local office to obtain the necessary supply forms and directions for obtaining supplies being distributed through this resource.

Bed Tables/Beds - Direct Supply

- Some senior living communities are finding themselves in need of additional over-bed tables to accommodate dining in resident rooms as well as beds in anticipation of additional residents.
 - Members should reach out to their **Direct Supply Account Manager**. If you don’t know the specific contact, call **1-800-634-7328** to discuss products and availability.

Stericycle and Shred-It

- If your community utilizes Stericycle and Shred-it services and need those services postponed due to visitor restrictions, please reach out to the vendor and let them know
- Service.Requests@STERICYCLE.com. This will allow those companies to better allocate their resources as well as limit your exposure to invoices for unfulfilled service appointments.

Sysco Update

- To-go containers. There has been a tremendous surge in ordering of these items and inventory is depleting. Sysco is working to secure additional dedicated manufacturing lines to help meet needs.
- Toilet paper. According to the paper manufacturers, they have inventory. Unfortunately, it is going to take time getting this inventory to the Sysco OpCos.

CPS highly recommends you work directly with your local vendor representatives instead of going on websites or calling vendor general phone numbers to source products. Your local reps will have the most up to date information on product availability for your community. If you do not know your local vendor representative’s contact information, please contact your Care Purchasing representative and we will supply that information.

March 20, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer., and most allocated stock has started to deplete.

CPS Supply Updates

- National Strategic Stockpile of PPE. The government is working to disseminate personal protective equipment supplies to local department of health/emergency management offices. Contact your local office to obtain the necessary supply forms and directions for obtaining supplies being disseminated through this resource.
- Sherwin Williams may be a resource to access personal protective equipment. The supply is limited and can vary by location. Please contact your local Sherwin Williams store if you are in need of these products. This is not a resource for large orders, so please limit your orders to what you need and not over order. *The information is attached.*
- Telehealth services. These services are in high demand right now and help with distancing effort while providing necessary resident care. CPS worked with ThirdEye to reduce rates during this time of emergency crisis to help with this important need. *The information is attached.*
- GE Appliances will be temporarily shutting down their US manufacturing plants for at least 3 weeks, possibly longer. If you have a need for appliances in the next few weeks, order now. While GE Apps has increased production in anticipation of this shut down and has current stock of most models, we expect the current stock to be diminished within a few days once the news is released. Communities should reach out to David Goldberg, Donald Pederson or Andy Brown to place these orders as soon as you can, to ensure these appliances are available.

CPS highly recommends you work directly with your local vendor representatives instead of going on websites or calling vendor general phone numbers to source products. Your local reps will have the most up to date information on product availability for your community. If you do not know your local vendor representative’s contact information, please contact your Care Purchasing representative and we will supply that information.

March 19, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer., and most allocated stock has started to deplete.

Vendor Industry Updates

China’s shipping ports are starting to open but manufacturers are still at limited production. We anticipate the in the next few weeks, many communities will be at critical or depleted levels of personal protective equipment and other supplies. We are hopeful that shipments to the states will start soon to help replenish our distributor supplies.

Some communities are requesting their medical supply reps to come into the buildings to perform quarterly inventory audits. In keeping with recommendations to allow only necessary visitors in long-term care communities, we recommend communities use their inventory data from the previous quarter until regular ordering and delivery schedules are resumed.

Supply Updates

CPS is scouring the internet to source supplies from various suppliers in an effort to provide alternate resources for our communities. Below are some we found:

Items Available on Amazon

- Hospital gowns - [Click here](#)
- Medical masks - [Click here](#)
- Gloves: [Click here](#)

As an alternative to using masks, we recommend you order bandanas as soon as possible. We anticipate they will become a commonly sourced item.

- [Amazon.com](#)
- [Oriental Trader](#)
- [Bandana Supply.com](#)
- [4allpromos.com](#)
- [AnyPromo.com](#)
- [Coolglow.com](#)

Please continue to work with your CPS representative for up to date sourcing options and alternatives where necessary during this time.

March 17 and 18, 2020 Update:

Much of the inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer., and most allocated stock has started to deplete.

As a reminder, all supplies are extremely fluid. If you do not have an option to order through a CPS Vendor please look to local retail or other sourcing options– **if you can put your eyes and hands on needed supplies, get them.**

Infrared thermometers –

- Direct Supply worked with Links Medical Products (LINK) to secure access to a new non-contact thermometer. The new thermometer is now active in the system and orders can be placed. Once the backorders are handled and LINK has verified they have enough inventory to support new sales they **will start shipping early April.**
 - Product Information: DS# 7X485 - JXB Infrared Non-Contact Thermometer - Model 183 must be ordered directly from Direct Supply at this time, not on DCS yet.
Call your Direct Supply rep directly to place orders for these thermometers.
- Medline has sourced a no touch thermometer that is on allocation. Current Medline customers can order up to 3 (three) thermometers per order using item # MDSNOTOUCH. If the order is for more than quantity 3, the order will automatically be cancelled. ***Call your Medline rep directly to place orders for these thermometers.***

Telemedicine - Telehealth Platform and Services Update for COVID-19: Due to physician shortage and facility visiting restrictions, Third Eye Health has activated our **Rapid Deployment Protocol™** to extend our telehealth platform and physician services beyond our 400+ SNF clients to health systems, physician groups, and operators nationwide. **The Rapid Deployment Protocol™ has three components:**

1. **Immediate Platform Deployment:** The platform can be downloaded to any mobile device and quickly enable virtual visits for your providers into post acute settings.
2. **Outreach Services Team™:** Dedicated professional services team to establish connections between providers, SNFs, and Health Systems. Virtual training, workflow design, provider-nurse engagement, and utilization management. The team is composed of former post acute operational personnel and **Nurse Care Coordinators**. If available, integration with the post acute EHR.
3. **Physician Services:** Option to use Third Eye Health's network of Hospitalists and Emergency Medicine Physicians who perform over 100,000 annual post acute encounters on Third Eye Health's telehealth platform. **Our "treat-in-place" rate averages 94%.**

email info@thirdeyehealth.net or call 1-800-411-6768 for assistance 24/7/365.

March 16, 2020 Update:

Much inventory continues “On Allocation” status, meaning there are daily shipments of supplies that orders can only be fulfilled based on customer historical purchasing, and only if you’re a current customer, and most allocated stock has started to deplete.

As a reminder, supplies are extremely fluid and to get up to date inventory status, work directly with CPS representative and/or regional representative on ordering options. If you do not have an option to order through a CPS Vendor please look to local retail or other sourcing options– **if you can put your eyes and hands on needed supplies, get them.**

Medical Supply Distribution: Due to heavy delivery demands, medical supply distributor delivery drivers are unable to accommodate screening processes as implemented in most communities. Distributors are establishing “designated safety drop zone areas” with each community in order to safely deliver medical supplies.

CPS will be providing additional updates as it relates to supplies and disruption/strain to our manufacturer and distributor supply chain within the next 30, 60, 90 days to try to be as proactive as possible during this time. CPS is evaluating inventory and options for linen, bed rental, meal preparation and To Go Containers that will be provided in upcoming communications. Please continue to work with your CPS representative for up to date sourcing options and alternatives where necessary during this time.

Remember - Use Caution! A lot of false “PPE supply opportunities” are being circulated broadly from miscellaneous sources that should be carefully vetted prior to committing to orders or sending/wiring deposits. Many of these “opportunities” offer no true guarantee of supply material, quantity, date of shipment, or date of delivery. CPS continues to work closely with our known distributors to obtain industry intel and chain supply updates.
