

Enable your healthcare organization to communicate in critical situations.

The Emergency Response Team (ERT) Go-Kit™ from Sprint allows healthcare organizations to respond quickly to life-threatening crises with a cache of devices and cards that can be used during emergencies, preparedness drills or preplanned events.

Get your own Go-Kit

Customize

- Choose from a variety of devices, mobile broadband cards and accessories
- Specify the quantity and configuration of your rugged, shatter-resistant Stormcase™ cargo containers

Manage

- Reserve your phone and Sprint® Direct Connect® numbers starting as low as \$6.25 per unit per month
- Publish phone numbers in your emergency planning documents
- Receive your devices inventoried, packaged, programmed, labeled and fully charged
- Manage your devices with our label-making capabilities and simple directions in ERT Go-Kit Handbook

Activate

- Select from Sprint devices, Sprint Direct Connect devices or data devices and services that are virtually always active while only paying for minutes or data when used
- Receive access for your healthcare organization to the 24/7/365 ERT Support Hotline at 888-639-0020 (for GETS users: 254-295-2220)

Be prepared for emergency situations with advanced solutions that allow for efficient communication at every point in the process.

- **Track and Navigate:** Locate doctors, nurses and administrators at virtually any time with GPS tracking
- **Dispatch:** Send necessary emergency personnel when needed to accident sites
- **Communicate:** Connect almost instantly with appropriate parties using Sprint Direct Connect or two-way text messaging
- **Equipment:** Distribute Sprint phones, smartphones, tablets, mobile broadband cards and hotspots supported by data applications
- **On-premise Wireless Redundancy:** Think outside the yellow box to keep your team connected by adding equipment to your kit such as *Mobile Gateways for landline voice services*

Wireless Priority Service

Give your Sprint devices priority queuing into the Sprint network during periods of network congestion for an additional fee if you meet federal eligibility standards. For more information or to submit an application, visit dhs.gov/wireless-priority-service-wps.
