Produce	Artichokes	No Change	Artichoke supplies are limited due to colder weather patterns.		
	Carrots	No Change	West coast suppliers are challenged with capacity issues and limited labor on Snack Pack carrots. Alternative sizes and pack out options may be needed for the next foreseeable future. Low supplies may compound quality concerns such as under-sizing.		
	Bananas	No Change	The banana supplies are staying stable. The quality is good as product is being sourced from areas not impacted by the storms.		
	Citrus - Limes	Updated	Weather has improved but rain chances return. Quality issues seen are oil spotting, skin breakdown and stylar due to rain. Exports through part of February will be slow. Prepare for March through April as shortages are expected.		
	Celery	No Change	Celery is undergoing limited supplies. Growth has been slower due to colder weather patterns. Quality is good, with occasional under-sizing from the cold.		
	Melons - Cantaloupe & Honeydew	No Change	Supplies are light from October's hurricanes coupled with cold snaps which has cut supplies by 50% through much of February. Quality is fair to good.		
	Melons - Watermelon	Updated	Supplies are light and quality is fair to good.		
	Strawberries	No Change	Currently the demand for Strawberries are exceeding supply due to weather challenges. Harvests are very low in Florida and California with Mexico not producing enough to cover all demand. Supplies are expected to remain challenged through the Valentine's day pull.		
	Mushrooms	No Change	Supply disruptions are possible as suppliers work through the current labor challenges.		
	Peppers - Bell	Updated	Florida's yellow bell pepper supplies are short. Hothouse colored peppers are short but production is improving on the reds and yellows. Orange production is a little further behind.		
	Corn	Updated	Florida supplies are now good. Cooler weather could hamper supplies in the upcoming weeks. Mexico supplies are very limited.		
	Grapes - Green & Red	Updated	Supplies are good for reds but very limited for greens. Heavy rain in Chile over the weekend has caused significant damage to the crop which will limit supplies through March.		
Berries - Blackberry Raspberry	Updated	Supplies are light, but are expected to improve mid-to-late February.			

Seafood	Domestic & Imported Shrimp: All Sizes	No Change	Domestically, demand continues to outpace the supply. There are forecast reports that raw and cooked Tiger shrimp (sizes 21-25 ct and smaller will continue to be in tight supply. Peeled Shrimp (PUD & P&D) processors continue to pack small peeled (size 60/70 and smaller) and white headless from boats that came in over the holidays. Our Portico shrimp supplier has inventory to fill regular volume orders on small peeled in all sizes except for the size 110-130s. The 110-130 PUDs will continue to be allocated to ensure supply continuity and equitable distribution to all Op Sites. Intermittent shortages of domestic shrimp is expected until the summer of 2021. Internationally, production in the main farming countries is in the low season with limited raw material available. Stocking for the summer crop has commenced and the first harvests are expected sometime in March. Shipments continue to experience extensive delays due to the lack of available shipping vessels, containers, delays at transshipment ports, and port congestion in the US. Supply interruptions will continue to be intermittent. Please reach out to your local sales representative for a full list of affected Portico items and their suggested subs.		
	Catfish	No Change	The Catfish producers have seen a significant drop in labor following the holidays. Production is dependent on the number of workers in the plants. All suppliers continue to produce on a week to week basis. Current production is producing a higher percentage of 5-7 ounce fillets and fewer of the smaller (2-3oz) sizes. Whole fish continue to be difficult to produce. Alternative Items: Please use 2-3 oz and 7-9 oz portions as substitutes or imported catfish from Beaver Street and Great American Seafood SUPCs: 2549723, 3383009, 3383092, 3363775, 3363781, 7046330		
	Calamari	No Change	Production is down 60% worldwide, worst in 20 years. Currently, supplies of all species from Asia are lesser than the present demand. Due to the lack of raw materials, there is very little new production taking place in China. The production is not expected to pick up again until after the Chinese New Year in 2021.		
	North Atlantic Lobster / Lobster Tails	No Change	The lobster season has come to an end and will pick up again in May 2021. The majority of the production of tails are 4/5 and 5/6 tails. There are very few 6/7 and larger. There could potentially be supply issues depending on demand.

	Twice frozen cod, Pollock and Haddock filets	Updated	<p>Several plants in Alaska had closures due to COVID causing a delay in fishing for the A season. The shatter packed product will be arriving into the lower 48 states after March. We have inventory in Portico Simply brand to support existing business through Lent. Plants in China have closed in advance of the upcoming Lunar Holiday and will remain closed for the next month to allow workers to return to their homes and families. Production will arrive in May. As a result, all product in the US, and currently in route to the US, will be used for Lent. Sysco is working closely with suppliers to assure we have adequate supply. Short term supply of Ground fish is steady, but future availability may be disrupted on lock downs in China.</p>		
	Canned Tuna & Clams	No Change	<p>Clam juice is experiencing spot shortages due to bad weather and low demand for chopped clams (juice is a by-product of the production of canned clams).</p> <p>Alternative Item: Use Sea Watch SUPC 7115053 as an alternative in the event of a shortage.</p>		
	Scallops	No Change	<p>Current fresh scallop landings are extremely light and sizing has been smaller. There are fewer U10's and larger while there have been some 30/40's and 40/50's. The dominant sizes are 10/20's and 20/30's. 2020 produced 10 million pounds lower than expected and frozen domestic scallops have been impacted. Imports such as Japanese, Chinese and Peruvian scallops continue to be a viable option.</p>		
	Wild Salmon	No Change	<p>Production of Keta salmon is down 60% and is well below the 5-year seasonal average. Raw material has been secured for Portico skinless and skin-on items and we do not expect any shortages.</p>		
	Canadian Snow Crab	No Change	<p>The fishing season is over and there is very little inventory available. Alaska product will not be in any decent quantity until mid-March 2021. 5/8 will be the main size this year. Larger sizes like 8+ and 10+ will remain extremely short through at least April/May when the Canadian season starts getting product into the market.</p>		

There may be shortages of specific products in certain markets depending on a local situation related to supply or inventory management in these turbulent times.
