

Technical Data Sheet

5618 Cleaner

Water-Based Paint Material

VOC 95.86 g/L Reg.

Contains Propylene Glycol Monomethyl Ether Acetate

Made in U.S.A.

Description

5618 Cleaner is a water-based paint material used to rinse colors from the airbrush between colors. 5618 may also be used to dilute Createx Colors paints.

Usage

Cleaner

- Spray 5618 in between colors while painting to partially clean airbrush or spray-gun before using next color.
- Compared to 4012, 5618 is a milder cleaner. When adding 4030 to Createx Colors paints and clears, flushing colors with 4012 is more effective compared to cleaning with 5618.

Dilutant

- Spray 5618 in between colors while painting to partially clean airbrush or spray-gun before using next color.
- Add 5618 to Createx paint or clear 5 – 10% per volume.
- Compared to 4012, 5618 leaves a higher gloss level in the finished coating. If using Createx 5620 Gloss Clear or 7030 Scenix SSR Gloss Clear, diluting with 5618 creates a glossier coating by about 10%.

Pot-Life & Storage

5618 does not create a pot-life when added to paint.

Store in an air-tight container in a cool, dry environment away from direct light.

Health & Safety

Use in a well-ventilated area. Avoid contact with eyes. Wash hands thoroughly with soap and warm water after use. Do not ingest. When spraying or sanding, use a properly-fitting NIOSH approved respirator per the manufacturer's instructions.

Eye contact: Rinse with clean water for 15 minutes. Seek medical attention.

Inhalation: Use in in well ventilated areas and wear a NIOSH approved respirator.

Refer to 5618 SDS for additional information.

Warranty

This product will perform as claimed if directions are followed. Warranty is limited to replacement or refund value of product. No other warranty is expressed or implied.
