Weight: 14.8kg / 32.6lb

Roll-Packed

Creating dreams

The JAY-BE® Simply Kids Pocket Sprung Anti-Allergy mattress is a premium option from the JAY-BE® Simply Kids range. The higher specification pocket sprung interior provides your child with exceptional reactive support. Each of the springs rest within their own individual pocket enabling them to move up and down independently. As your child moves during the night the springs respond in synchronisation with the contours of their body for optimum comfort and support.

This premium JAY-BE® children's mattress also embodies the latest anti-allergy technology - Purotex®. Actively creating a cleaner and healthier sleeping environment, Purotex® is one of the most innovative and beneficial mattress technologies to help ensure a peaceful night's sleep, especially for children who have a hyper-sensitive immune system.

Purotex® is a 100% natural pro-biotic remedy infused within the mattress fabric which absorbs moisture and lowers the presence of dust mites and other allergens, reducing the potential trigger of allergic reactions.

Topped with a deep cushion of breathable smart fibre comfort layers to offer substantial support for growing bones and muscles. These smart fibre comfort layers are also hypoallergenic and have an open cell structure, enabling the free flow of air through the mattress. This free flowing air reduces moisture and in turn helps to prohibit mould and allergens. As a result, a more comfortable and temperature controlled sleeping environment is experienced.

All JAY-BE® Simply Kids mattresses are backed by a five-year manufacturer's guarantee. Roll-packed for your complete convenience.
