Remove bedding, lightly brush or lightly vacuum then leave to air

### Product code

802900

### Product & Packaging Dimensions

Mattress ready for use: W90cm (35.4in) L190cm (74.8in) D18cm (7in)

Mattress packed: W33cm (12.9in) L33cm (12.9in) H10cm (3.9in) (0.1089m<sup>3</sup>)

Weight: 11.3kg / 24.9lb

The JAY-BE® Simply Kids Anti-Allergy mattress offers all the benefits of the JAY-BE® Simply Kids Foam-Free mattress but also embodies extra comfort layers and the latest Purotex® anti-allergy technology.

Actively creating a cleaner and healthier sleeping environment, Purotex® is one of the most innovative and beneficial mattress technologies to help ensure a peaceful night's sleep, especially for children who have a hyper-sensitive immune system. Infused within the mattress fabric, Purotex® is a 100% natural pro-biotic remedy which absorbs moisture and lowers the presence of dust mites and other allergens, thereby helping to reduce the potential trigger of allergic reactions which can interrupt sleep.

At its core, this JAY-BE® children's mattress is constructed with a medium firmness spring to offer evenly distributed support throughout the night. To prevent spring feel, the spring is topped with a high-density (HD) insulator pad and a deep cushion of breathable smart fibre comfort layers which mould to the body's contours for even more comfort.

As well as offering substantial support for growing bones and muscles, the breathable smart fibre comfort layers are hypoallergenic and have an open cell structure. These open cells allow the free flow of air through the mattress, which reduces moisture and in turn helps to prohibit mould and allergens. As a result, a more comfortable and temperature controlled sleeping environment is experienced.

All JAY-BE® Simply Kids mattresses are backed by a five-year manufacturer's guarantee. Roll-packed for your complete convenience.
