AVAILABLE SIZES

Single

CROWN PREMIER

Specifically designed for regular contract use, this robust Jay-Be folding bed achieves higher British, European and North American safety standards than normal domestic beds. The guest bed's robust, heavy gauge, mild steel frame is finished in durable epoxy paint and has a high quality square link mesh base to withstand the extra demands of heavy-duty contract environments.

Folding out into a comfortable bed, the deep spring interior mattress is tailored in a high performance fabric for greater durability and topped with wool comfort layers. Wool is a natural 'smart' fibre that continually responds to changes in local humidity. Its natural ability to absorb and release moisture helps to keep you and your mattress dry and your body temperature constant, which is proven to enhance sleep quality. Perfect for turning any room into an extra bedroom.
