

The Sock

#KeepYourSockOn

The Sock
The pod harness that fits

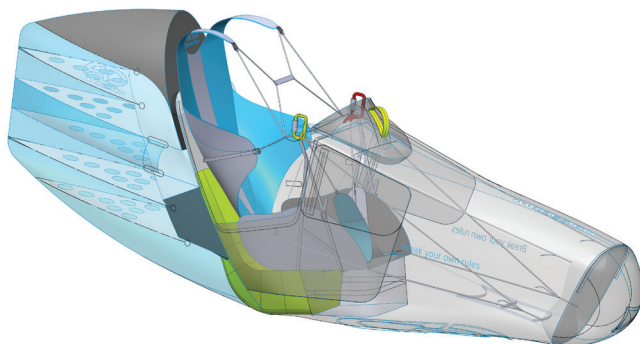

The Sock Wear it before flight

The specifications for The Sock were as long as top model legs but we wanted a harness as simple as flip-flops. Sticking to our philosophy, The Sock is light, comfy and robust. An everyday pod harness that will take you from your all-day long XC, hike-and-fly training, XC competition to your Bivy project. The Sock is a versatile product offering the most efficient feel in the smallest packed volume.

	TOTAL HARNESS WEIGHT	PILOT SIZE (cm)	COLOR	HARNESS CERTIFICATION	IMPACT PAD CERTIFICATION
THE SOCK S	2.60 kg	150 - 170	FLAME	EN1651 / LTF 91/09 - 120KG	35 G
THE SOCK M	2.75 kg	165 - 185	AZUR	EN1651 / LTF 91/09 - 120KG	35 G
THE SOCK L	2.90 kg	180 - 200	LIME	EN1651 / LTF 91/09 - 120KG	35 G

What have we packed in this small volume?

- The sock-fit-concept: tight everywhere around you, but seamless, no pressure point, no blisters.
- Light and robust materials for everyday, every terrain use.
- Stability when you need it, authority when you want it.
- High efficiency air pillow, inflatable back protector (from thighs to upper lumbar area).
- Super simple and safe 4 point clip-in system.
- Stiff and comfortable 3D-shaped back (is your back full flat?).
- Front rescue container with ergonomic handle prehension, shoulder connected risers.
- Large side pockets, huge back container, battery pack mesh sleeve and zipped nose pocket.
- And so much more!
