Taylor County's rules sit on top of West Virginia's state cottage food framework. The state law sets the floor — counties can add but cannot remove protections.

INDIRECT SALES

No — Cottage food must be sold directly to consumers. The new Article 40 (effective June 12, 2026) establishes that potentially hazardous cottage food vendors need a statewide permit but nonpotentially hazardous food sellers are fully exempt from permit and inspection. Local health departments may invoke cessation of production only if an imminent health hazard exists, in consultation with the Department of Agriculture. The input batch cited §16-7-1 (a general adulteration statute), but the operative cottage food framework is now Article 40 (§19-40-1 through §19-40-6), signed March 27, 2026.
